REDACTED VERSION

In the matter of an arbitration under the Rules of Arbitration of the International Centre for Settlement of Investment Disputes

Case No. ARB/14/22

World Bank 66 avenue d'Iéna Paris, 75116 France

Day 7

Tuesday, 30th May 2017

Hearing on the Merits

Before:

PROFESSOR GABRIELLE KAUFMANN-KOHLER PROFESSOR ALBERT JAN VAN DEN BERG PROFESSOR PIERRE MAYER

- (1) BSG RESOURCES LIMITED
- (2) BSG RESOURCES (GUINEA) LIMITED
- (3) BSG RESOURCES (GUINEA) SÀRL

Claimants

-v-

THE REPUBLIC OF GUINEA

Respondent

M KAREL DAELE and DEEPA SOMASUNDERAM, of Mishcon de Reya and DAVID BARNETT and GABRIELLE PELED, of Barnea & Co, appeared on behalf of the Claimants.

MICHAEL OSTROVE, SCOTT HORTON, THÉOBALD NAUD and SARRA-TILILA BOUNFOUR, of DLA Piper, LAURENT JAEGER and AGNÈS BIZARD, of Orrick Herrington & Sutcliffe, and MOHAMED SIDIKI SYLLA, of Sylla & Partners, appeared on behalf of the Respondent.

Secretary to the Tribunal: BENJAMIN GAREL Assistant to the Tribunal: MAGNUS JESKO LANGER

Transcript produced by Trevor McGowan Georgina Vaughn and Lisa Gulland www.thecourtreporter.eu

ALSO APPEARING

FOR CLAIMANTS

JACK BURSTYN, Mishcon de Reya GUSTAF BODIN, BSGR FRANÇOIS FERREIRA, CFA

FOR RESPONDENT

ANDREA LAPUNZINA-VERONELLI, DLA Piper CLÉMENTINE EMERY, DLA Piper EUGÉNIE WROBEL, DLA Piper YANN SCHNELLER, Orrick Herrington & Sutcliffe QUIREC DE KERSAUSON, Orrick Herrington & Sutcliffe VALÉRIE KUBWIMANA, Orrick Herrington & Sutcliffe MARIUS ATTINDOGBE, Orrick Herrington & Sutcliffe

- 2 (8.34 am)
- 3 THE PRESIDENT: (In English) Good morning to everyone.
- 4 I see that we are ready to start with Day 7 of this
- 5 hearing. We start with the mini-openings. The Tribunal
- 6 has a few points that it just lists now, and then you
- 7 address them or you add whatever else is required.
- 8 Looking first to the Claimants, there's a new
- 9 participant in the room: could you please introduce the
- 10 person?
- 11 MR DAELE: (In English) Absolutely, Madam President. May
- 12 I introduce you Mr Gustaf Bodin: he is
- a representative for BSGR, he is a director of BSGR.
- 14 THE PRESIDENT: Welcome.
- 15 MR BOLDAN: Thank you. Good morning.
- 16 THE PRESIDENT: Then on the Tribunal's list of pending
- 17 matters there is the objections to transparency that we
- 18 received this morning from the Claimants. It was just
- 19 about ten minutes ago. Do we have a printed version for
- 20 the Respondent? The assistant can give his, so you can
- 21 have a look at it.
- 22 We do not necessarily need to deal with this now.
- 23 It's one point, and I don't know whether the Claimants
- 24 wish to give additional explanations.
- 25 Then we have received from the Claimants last night

- 08:35 Exhibits C-354 to C-360. I did recognise from our 1 previous debates C-354 to C-357. I am not sure about the status of the other ones and maybe you want to give 3 some explanation on that. My last point is timing, and that goes to both 5 6 parties. If I look at the remaining time available, 7 it's over 19 hours; if I look at the remaining days, 8 it's three. According to your programme, that means 9 6 hours 20 per day only for the parties, without 10 interruptions, breaks, Tribunal questions. These are very heavy days in my experience. 11 12 So I don't know, I'm just flagging this now; you may give it some thoughts. Maybe you don't need all your 1.3 time. Maybe you want to start early again. I just 14 15 wouldn't want us to be caught by time at the very end and be 16 rushed and pressed, because you need to be satisfied that you can get to the close of the hearing putting 17 forward whatever you have to. So I'm just flagging 18 19 this; you can even think about it. 20 Now, having said all this, I turn to the Claimants: Mr Daele. 21 MR DAELE: In terms of the objections to the transparency,
 - [PROTECTED]

08:38	[PROTECTED]	
		_
		_

- 08:39 1 THE PRESIDENT: Maybe you can take this into account when
 - 2 you revert on the exception.
 - 3 Mr Daele, I have interrupted you.
 - 4 MR DAELE: Then in terms of the second point, those new
 - 5 exhibits, I think I will pass the microphone.
 - 6 MS PELED: As regards the Exhibits C-358 to C-360, we
 - 7 obtained the authorisation to produce them just before
 - 8 the hearing started and we just haven't formally
 - 9 addressed the Tribunal and the other side on this yet.
 - 10 So this is an authorisation dated 20th May 2017, in
 - 11 an email, and we just produced this now, but --
 - 12 THE PRESIDENT: You received the authorisation from whom?
 - 13 MS PELED: It was from the Tribunal. It was in the request
 - 14 for additional submissions really just before the
 - 15 hearing started.
 - 16 THE PRESIDENT: Oh, this Tribunal?
 - 17 MS PELED: Yes, this Tribunal.
 - 18 THE PRESIDENT: Oh, I apologise, I should have known this.
 - 19 MS PELED: No, no, no, sorry. So we just had a delay in
 - 20 producing the documents themselves. So that's the
 - 21 reason why.
 - 22 THE PRESIDENT: So they had already been admitted into the
 - 23 record?
 - 24 MS PELED: Yes.
 - 25 THE PRESIDENT: Thank you for the explanation.

- 08:41 1 MR DAELE: Then in terms of the timing, of course
 - I absolutely hear what you say. I just also see on the
 - 3 table that we still have a lot of time for BSGR.
 - 4 There's a significant -- obviously it's because last
 - 5 week there was the cross-examination of our witnesses.
 - 6 But as far as I can tell, there's almost 14 hours left
 - for us and 5 for Guinea. That is one point.
 - 8 I think the other point -- but maybe we need to
 - 9 discuss this also with Guinea -- I think there's maybe
 - 10 an issue with the order of the witnesses. Maybe you're
 - going to introduce this point, Michael?
 - 12 MR OSTROVE: (Interpreted) Thank you. Indeed. Well, let me
 - 13 check: today we have Ambassador Ousmane Sylla, followed
 - 14 by Minister Ahmed Kanté. Very late in the day, we had
 - 15 a confirmation that Mr Tinkiano did obtain his visa and
 - 16 that he was flying out last night. So no problem, he
 - will be here to testify on Wednesday afternoon.
 - 18 The one thing that's not clear is for Mr Louncény
 - 19 Nabé. He is the governor of the Central Bank at
 - 20 present. There has been a bank strike in Guinea, it's
 - 21 ongoing right now. Mr Mohamed Sidiki Sylla has flown
 - 22 back to Guinea and said it's impossible to get some cash
 - 23 in Guinea, and Mr Nabé is involved 24 hours a day in the
 - 24 negotiations.
 - 25 He hopes to be able to travel over Tuesday night if

08:44 1 everything has been settled. Otherwise, we'll try and see whether the video conference system that we've been using at the IMF in Conakry would be available. We'll 3 mention it to the technicians. We do hope that he can catch a flight tonight, so that he can testify on 5 Thursday, instead of Wednesday. In which case it would 6 7 be Bouna Sylla who could testify on Wednesday, and 8 Thursday would be dedicated to Mr Nabé and Mr Avidan. 9 So it's just that Mr Bouna Sylla and Nabé would be 10 switched. Otherwise, as far as timing is concerned, when 11 12 Mr Avidan had cancelled and then postponed his testimony 1.3 we had asked for a little flexibility, because of course we did much more with Mr Struik than we would have done 14 15 in the absence of Mr Avidan. But now that Mr Avidan, 16 who is one of the key witnesses, can appear, then we'd

17

subjects to deal with.

My other question had to do with the agenda. You

said, Madam President, that we had three days left.

Well, in our programme Friday morning was available for questions by the Tribunal, and I wanted to make sure that this was still available.

like to reduce the examinations, but we've got lots of

THE PRESIDENT: (Interpreted) Yes, Friday is still
available, but it's true that everybody had seemed to

- 08:46 1 think that we would close on Thursday night, with the
 - 2 questions of the Tribunal that would be given to you for
 - 3 the post-hearing briefs. But the Tribunal is available,
 - 4 and Friday is available if we really need it. The
 - 5 question, when I raise this question of timing, is not
 - 6 to restrict the time which is allocated; it's just that
 - 7 we all reach the end of the hearing together.
 - 8 Okay, let's sum up the programme. So today we've
 - 9 got Ousmane Sylla, followed by Mr Kanté. Then tomorrow
 - 10 we've got Bouna Sylla and Mr Tinkiano. And on
 - 11 Thursday -- no, maybe I'm confused. Mr Ostrove, can you
 - 12 repeat the sequence?
 - 13 MR OSTROVE: Yes, I think you're quite right. Today,
 - 14 Ousmane Sylla and Ahmed Kanté. Tomorrow, Bouna Sylla
 - and Lansana Tinkiano. And on Thursday we'll have
 - 16 Loucény Nabé --
 - 17 THE PRESIDENT: Ah, that's what was missing.
 - 18 MR OSTROVE: -- and Avidan.
- $19\,$ MR DAELE: (in English) Excuse me, Madam President, I do have comments in
 - 20 relation to this.
 - 21 First of all, obviously if Mr Nabé cannot travel to
 - Paris, we do this by video conference, then we would
 - 23 expect that it's for the Guinea side to organise the
 - 24 same logistics as we had to organise in terms of making
 - 25 sure the bundle is in front of Mr Nabé. We will not be

- 08:48 1 in a position to now, last minute, send people from our
 - 2 side to Guinea to make sure he has the bundle and
 - 3 everything. So we would expect the same kind of
 - 4 arrangements that were made in relation to our
 - 5 witnesses, in terms of the interrogation by video
 - 6 conference.
 - 7 The second point of course is that we want to make
 - 8 sure that we have Mr Nabé available for the sufficient
 - 9 time that we need for our cross-examination, and not
 - 10 just -- I don't know, I'm only speculating -- but for
 - 11 half an hour or for an hour, because he has to run to
 - 12 another meeting or something. He is an important
 - 13 witness, and so we want at least to have the time with
 - 14 him that was foreseen in the schedule.
 - 15 THE PRESIDENT: Which was three hours, yes.
 - 16 MR DAELE: Yes.
 - 17 THE PRESIDENT: We would, if we do it by video conference --
 - and of course, the sooner we know, the better, for
 - 19 organizational. The Respondent would then have to
 - 20 liaise with the Secretary, and if it can be done at the
 - 21 IMF it is easier because it is inside the World Bank
 - 22 Group, and that should be organised. We would follow
 - then the same protocols like we have done for
 - 24 Mr Steinmetz in respect of the video conferencing, and
 - 25 we of course understand you would have no one present

- 08:50 1 there, but we'll have to handle this as best as we can.
- $_{\rm 2}$ $\,$ MR OSTROVE: (interpreted) Yes, indeed. So Mohamed Sylla has gone back.
 - 3 We will ask his law firm, who has limited means compared
 - 4 to ours, but if they are prepared to print the documents
 - 5 on the day before. And I believe that BSGR has advisors
 - 6 in Conakry, so if BSGR wishes somebody to be present,
 - 7 I don't think there should be a problem. And our
 - 8 colleague Sylla will be present anyway, if the worst
 - 9 came to the worst.
- $10\,$ THE PRESIDENT: (interpreted) Yes, but we just have to check who holds the
 - 11 documents in trust before they are presented to the
 - 12 witness. All this is still theoretical, so let's not
 - 13 spend too much time on it.
 - 14 (In English) Professor van den Berg would like a new
 - 15 schedule, because there's too many changes. You do this
 - 16 when you have time.
 - 17 Of course, if we do not have sufficient time on
 - 18 Thursday, we would have to continue on Friday morning,
 - 19 and that would mean that Mr Avidan would have to be
 - 20 available then. It may not be necessary, but it maybe
 - 21 a good idea to flag it now for his own schedule.
 - 22 MR DAELE: Okay. We'll do our best.
 - 23 THE PRESIDENT: Anything further that we should address now,
 - 24 before we start with the first witness? I haven't
 - 25 really yet given the floor to the Respondent for your

- 08:52 1 general remarks.
 - MR JAEGER: A small question of procedure, Madam President.
 - 3 Yesterday we indicated to the Tribunal that we wish
 - 4 to submit a new exhibit which is an FBI statement from
 - 5 26th May 2017 concerning the status of the original
 - 6 documents signed by Mrs Touré and her present situation.
 - 7 We sent this document to our adversaries and heard
 - 8 yesterday that they were opposed to the admittal of
 - 9 these documents, so we are going to ask the Tribunal to
 - 10 rule on the production of this new document.
 - 11 THE PRESIDENT: (Interpreted) Are you asking for this, or
 - 12 are you announcing that you will?
 - 13 MR JAEGER: We are asking for this. We think that it is
 - 14 useful to produce this document because it answers
 - directly the allegations made by Mr Beny Steinmetz
 - 16 concerning Mrs Touré and relating to these original
 - 17 documents, though we think it would be a good thing to
 - 18 rule on this particular point during our hearing.
 - 19 PROFESSOR VAN DEN BERG: (Interpreted) What is the exact
 - 20 date? The French transcription has no date, and in the
 - 21 English it's 2005.
 - 22 MR JAEGER: 26th May 2017.
 - 23 THE PRESIDENT: (In English) Would Mr Daele wish to react to
 - this request?
 - 25 MR DAELE: Yes. We indeed received this request, and we

08:54 1 were asked whether we would object or not, and we replied with a letter in which we asked a number of questions in relation to -- I think last week there was 3 a lot of argument about the status of these documents and whether they were originals, and who had the custody 5 and so forth. So we basically asked a number of 6 7 questions to counsel for Guinea to give a number of 8 explanations, so that we could form a view and take 9 a position on the production of this new document also from the FBI agent, and so far we have not received 10 an answer. Well, that's maybe not entirely true. We 11 12 did receive an answer, but the answer was, "We'll give 1.3 you an answer in due time". So for the moment we don't have the answers to the 14 15 questions we raised, and that's why at this moment we 16 cannot agree to have this document now on the record: we 17 would first need to see the answers. So that's our 18

cannot agree to have this document now on the record: we would first need to see the answers. So that's our current position: we are waiting for the reply from Guinea's counsel. And if the Tribunal would want us to, we can obviously produce the correspondence that we've had.

THE PRESIDENT: Yes, before we do that, let me listen to the Respondent's position on this question of questions.

19

20

21

24 MR JAEGER: It is correct that the Claimants sent us a list

of questions. This being said, the rules of evidence in

08:56 1 international arbitration are such that the parties are free to produce the documents that they wish to produce 3 to support their arguments. If the other party has questions or comments on the document, it is free to 5 make such comments during the proceedings, but we don't 6 see how a party can subordinate our right to produce 7 elements of evidence to the answering of their questions 8 relating to this document. 9 THE PRESIDENT: (Interpreted) Well, you are of course entitled to produce documents with your statements or 10 submissions, with of course the caveat of exceptions. 11 12 There is a timing also for doing so. 1.3 MR JAEGER: Yes, this is a question of due process. We are well aware of this, and that's why we are submitting it 14 15 to the authorisation of the Tribunal. But the questions 16 that are put by our adversary are not linked to due 17 process; they are questions that deal with the subject matter of the original documents that are dealt with in 18 19 this statement and, amongst others, their provenance. 20 So at this stage there is no question concerning the 21 fact that our adversary would not be in a position to 22 exert their right to comment and to get to know these 23 documents in due course and to make comments and apply

24

25

due process. So, so far there's been no objection on

due process, but there are questions, questions that may

- 08:58 1 be raised at any point in time by our adversary, but
 - 2 I don't see why the admittal of this exhibit would be
 - 3 subordinated to our answers to these questions.
 - 4 THE PRESIDENT: (In English) Would you like to respond,
 - 5 before I say something?
 - 6 MR DAELE: Yes. Yes, it's true there are a number of
 - 7 questions in relation to the original documents, but
 - 8 we've also asked questions in relation to the new
 - 9 document, so the declaration of the FBI agent that they
 - 10 now want to submit to the Tribunal. So not only in
 - 11 relation, let's say, to the underlying documents that
 - 12 are at the heart of the dispute, but also the new
 - document that they want to submit.
 - 14 THE PRESIDENT: I think the best would be that we see your
 - 15 exchange of correspondence and then we deliberate on
 - 16 what should be done with respect to this FBI document.
 - 17 Can we do this? If we can have it in the course of the
 - morning, you can send it to us by email, and then we
 - 19 will review it during the lunch break.
 - 20 MR JAEGER: Okay.
 - 21 MR DAELE: Yes.
 - 22 THE PRESIDENT: (Interpreted) Were there other comments on
 - 23 behalf of the Respondent?
 - 24 MR OSTROVE: No, Madam President.
 - 25 THE PRESIDENT: So in that case I think we can hear the next

- 08:59 1 witness, Mr Ousmane Sylla. There are two Syllas; we
 - 2 mustn't confuse them. Can we ask Mr Ousmane Sylla to
 - 3 come into the room.
 - 4 (9.01 am)
 - 5 DR OUSMANE SYLLA (called)
 - 6 (Evidence interpreted)
 - 7 THE PRESIDENT: Good morning, sir. Kindly be seated.
 - 8 Welcome.
 - 9 You are Ousmane Sylla; at present you are
 - 10 an ambassador of the Republic of Guinea to the
 - 11 European Union?
 - 12 A. Yes.
 - 13 THE PRESIDENT: And you were Minister for Mines twice, but
 - 14 we're particular interested in your second term of
 - 15 office. You have submitted two written statements: the
 - 16 first one 16th May 2016, the second 31st March 2017. Is
 - 17 that accurate?
 - 18 A. Yes.
 - 19 THE PRESIDENT: Do you have your statements with you?
 - 20 A. Yes.
 - 21 THE PRESIDENT: Very well.
 - 22 You are here as a witness, as you know, and as such
 - 23 it is your duty to tell us only the truth. Would you
 - 24 confirm that this is really your intention by reading
 - 25 the witness declaration that you should have on the

- 09:02 1 table before you.
 - 2 DR SYLLA: Yes. Witness declaration: upon my honour and
 - 3 conscience, I declare that I shall say the truth, the
 - 4 whole truth, and nothing but the truth.
 - 5 THE PRESIDENT: Thank you.
 - 6 First counsel for Guinea will be putting a few
 - 7 questions to you, and then we shall hear BSGR's counsel.
 - 8 Thank you.
 - 9 Mr Ostrove.
 - 10 MR OSTROVE: Thank you, Madam President. We have no
 - 11 questions for the ambassador.
 - 12 THE PRESIDENT: Very well then.
 - 13 Mr Daele.
 - 14 (9.03 am)
 - 15 Cross-examination by MR DAELE
 - 16 Q. (Interpreted) Good morning, Mr Sylla.
 - 17 A. Good morning, sir.
 - 18 Q. My name is Karel Daele, I am counsel for BSGR.
 - 19 As yesterday, I will try to conduct your examination
 - 20 in French, and I apologise if my French is not perfect
 - 21 but I shall do my best. I am Belgian; at least during
 - the weekend, I believe we live in the same city.
 - 23 My first question -- before we get started, I will
 - 24 try and follow your witness statement, so every once in
 - 25 a while I will be referring to some specific paragraphs

- 09:04 1 in your statements. We shall start with your first
 - witness statement; if I move to the second witness
 - 3 statement, I shall tell you.
 - 4 In paragraph 9 you said that you were appointed
 - 5 Minister of Mines on 29th May 2006. Was it
 - 6 President Conté who appointed you?
 - 7 A. Yes, it was the President of the Republic Conté who
 - 8 appointed me.
 - 9 Q. At the time of your appointment did President Conté give
 - 10 you any instructions or directives, any explanations as
 - 11 to what he expected from you as Minister of Mines?
 - 12 A. He simply told me that he trusted me, that I had been
 - 13 once Minister of Mines and he had been very satisfied
 - 14 with the work I had done at the time, and that was the
 - reason why he was calling upon me a second time. But he
 - gave me no specific instructions.
 - 17 Q. What was the position of President Lansana Conté as
 - regards investment in the mining sector at the time?
 - 19 A. At the time his main concern was to attract investors
 - and to keep them in the country.
 - 21 Q. Was that also the position within the Guinea population
 - 22 at large? Was that also something the citizens wanted?
 - 23 A. Yes. You know that Guinea has been described as
 - 24 a geological scandal, with so very many mining resources
 - 25 available and untapped, and this is why the President

- 09:06 1 and everyone in the population wanted to attract
 - 2 investment into that area.
 - 3 Q. What kind of minister were you?
 - 4 A. I was Minister of Mines and Geology.
 - 5 Q. Yes, I know what sector you were responsible for. But
 - 6 I was rather wondering not really your personality, but
 - 7 were you a strong minister, with your own ideas as to
 - 8 what had to be done, what had to be changed, or were you
 - 9 rather somebody who would simply carry out instructions
 - 10 that somebody else would give you? The perception
 - 11 people had of you was that of a strong, resolute
 - 12 minister?
 - 13 A. Well, it's very difficult for oneself to describe one's
 - 14 actions. But as I told you, I was Minister of Mines
 - 15 once; the President called me for a second time because
 - 16 he believed that I had done excellent work the first
 - 17 time and he needed me for a second round. But I must
 - point out that there was a Coordinator of Governmental
 - 19 Action who was in fact acting as Prime Minister, and we
 - 20 were technical ministers. But I believe that if he told
 - 21 me that he was calling upon me and he trusted me, well,
 - 22 it is precisely because of that relationship of trust
 - 23 between us.
 - 24 Q. Were you afraid of the President?
 - 25 A. No, I wasn't afraid of the President; I respected him.

- 09:08 1 I had respect for the President, and he respected me in
 - 2 return.
 - 3 Q. So if you did not agree, for instance, on any one
 - 4 specific point, you could always express your opinion
 - 5 freely to him and engage in an open discussion with the
 - 6 President?
 - 7 A. Well, that was natural. And definitely when I had
 - 8 something to tell him, that I didn't agree on one
 - 9 specific point, I would go see him and tell him.
 - 10 Q. And he wasn't particularly -- how would I put it? --
 - 11 frustrated or annoyed when you would come and explain
 - your position if you didn't agree with him?
 - 13 A. Oh, no, not at all. President Conté -- I was in
 - 14 Siemens; probably you read that. I was head of
 - 15 a department in Germany when he asked me over. I wasn't
 - 16 alone; there were seven of us at the time. You should
 - 17 know the context there. So he was bold enough to call
 - on high-ranking Guinean officials who were working
 - 19 abroad, who had experience, to come back to the country
 - and help him out.
 - 21 When we returned -- I was with Siemens in Germany,
 - others were at the World Bank, yet others were in
 - 23 France -- and he told us, "I am a soldier, I am
 - 24 a peasant, I don't know these areas well, but I have
 - 25 called upon you to come and work for your country, help

- 09:09 1 me to get this country moving forward".
 - 2 Q. You replaced Mr Souaré?
 - 3 A. I replaced Mr Souaré.
 - 4 Q. Do you know why Mr Souaré was replaced?
 - 5 A. Well, that was up to the President of the Republic.
 - 6 Q. But he never explained?
 - 7 A. No.
 - 8 Q. So you do not know whether that was linked with the BSGR
 - 9 case?
 - 10 A. No.
 - 11 O. With the Rio Tinto case?
 - 12 A. No. However, I should like to point out that Mr Souaré
 - 13 was then appointed Minister of State in charge of Higher
 - 14 Education and Scientific Research, which is an even
 - 15 higher echelon.
 - 16 Q. When you were abroad and then you arrived back in your
 - 17 country, I imagine that there must have been a period of
 - 18 transition. Did you speak with Mr Souaré when you
 - 19 took -- well, not his position, but when you replaced
 - 20 him?
 - 21 A. Yes, as in all countries, obviously. When one minister
 - leaves and the other one comes in in the same position,
 - the new minister coming in has a conversation with the
 - outgoing minister, and so that ministerial power passes
 - from one minister to the other, as in all countries.

- 09:11 1 Q. Do you have any memories of what he said about the BSGR
 - 2 case?
 - 3 A. No, I have no specific memories about that.
 - 4 Q. Did he mention the Rio Tinto case to you?
 - 5 A. He talked about mining dossiers in general, the mining
 - 6 sector in general, several projects which were underway,
 - 7 which is normal when power goes from one minister to the
 - 8 next.
 - 9 Q. Thank you. Would you kindly refer to the document that
 - 10 you will find behind tab 1, please, in your bundle.
 - 11 This is C-165. It's a letter from Rio Tinto to
 - 12 Mr Souaré. As you can see on page 3, there's a date:
 - May 12th 2006. It's only two weeks before your
 - 14 appointment.
 - 15 Do you remember if you ever discussed this letter?
 - 16 Because this letter actually describes Rio Tinto's
 - position at the time you took office.
 - 18 A. Well, I tell you again that Mr Souaré summarised the
 - various projects underway to me, but he didn't
 - 20 specifically address any one particular case.
 - 21 Q. Fine. Can we then look at the very last paragraph on
 - 22 page 3, the last line. It says:
 - "... to signify your agreement ..."
 - It wasn't your agreement, it was the agreement of
 - 25 Mr Souaré. So Rio Tinto is asking for his agreement so

- 09:13 1 that the date of submission of the feasibility report be
 - 2 set at 30th December 2008. Do you see that?
 - 3 A. Yes, I do.
 - 4 Q. Do you also see that Mr Souaré signed this document,
 - 5 since at the end of the page you see Mr Souaré's
 - 6 signature?
 - 7 A. Yes, I see it.
 - 8 Q. Therefore here the ministry agrees to postpone, in fact,
 - 9 because you can see on the second page, the second
 - 10 paragraph from the end, it's a paragraph that says,
 - "Within this context". Do you see that paragraph?
 - 12 Well, in that paragraph mention is made of the fact that
 - this report had initially to be submitted on
 - 14 30th May 2006.
 - So now, instead of it being submitted on
 - 30th May 2006, the date of submission is postponed to
 - 17 30th December 2008?
 - 18 A. Well, I see that.
 - 19 Q. In your experience, how long does a mining developer
 - 20 need between the time he submits the feasibility report
 - 21 and the time that he actually starts developing, mining
 - the iron ore?
 - 23 A. There's no general rule. The time that elapses between
 - 24 the submission of the feasibility study and the
 - 25 production of the first tonne of iron ore depends on the

- 09:15 1 project. Projects develop differently. I cannot tell
 - 2 you whether you need one year, two years, three years.
 - 3 Q. Well, in Rio Tinto's project?
 - 4 A. Well, in Rio Tinto's project I believe that if the
 - 5 minister gave his agreement, the reason is that he must
 - 6 have had technical explanations given to him at the time
 - 7 on the basis of which he took that decision. He must
 - 8 have had those explanations and deemed it useful to
 - 9 grant that extension of the deadline.
 - 10 Q. Very well then. Can we proceed to the following page.
 - 11 There we see a table, which is the chronology of the
 - 12 Simandou project. Look at the second column, the
 - 13 vertical column: it says "Feasibility Study", and at the
 - 14 bottom of the page you see that date, December 2008?
 - 15 A. Yes, yes, I see that.
 - 16 Q. Then the next column to that is the time needed in order
 - 17 to build the mines and the railways. Do you see that?
 - 18 And then the very last column, vertically you see the
 - word "Production", and the date given is 2013?
 - 20 MR OSTROVE: I'm sorry, Madam President, I'm sorry to
 - 21 interrupt. According to Procedural Order No. 1,
 - 22 paragraph 18.15, the examination should be confined to
 - the written witness statement and to the answers given
 - in the course of his direct examination. But we're now
 - 25 listening to an examination on negotiations with

- 09:17 1 Rio Tinto which took place before Mr Sylla stepped into
 - 2 office as Minister of Mines. He doesn't mention that at
 - 3 all in his written statement, nothing about his
 - 4 relations with Rio Tinto, and the fact that he took
 - office in June 2006 doesn't really leave the door wide
 - 6 open to examination on this particular subject. And
 - 7 it's unfair to him, unfair to the minister, who was to
 - 8 prepare on the basis of his own witness statement,
 - 9 madam.
 - 10 THE PRESIDENT: (Interpreted) Mr Minister, are you aware of
 - 11 this letter? Did you know about this letter?
 - 12 A. No.
 - 13 THE PRESIDENT: Had you seen it before, sir, in the context
 - of your duties as minister?
 - 15 A. I have never seen that letter.
 - 16 THE PRESIDENT: Were you aware of this particular timetable?
 - 17 A. No, I wasn't.
 - 18 THE PRESIDENT: Did you know that the date of the Rio Tinto
 - 19 feasibility study had been postponed?
 - 20 A. Yes, I knew about that. The postponement had been
 - 21 granted.
 - 22 THE PRESIDENT: Did you know that the production date was
 - 23 2013?
 - 24 A. I knew that that date had also been postponed,
 - your Honour.

- 09:19 1 THE PRESIDENT: Does that settle the matter? Because it's
 - 2 true this is a question that should have been asked to
 - 3 Mr Souaré yesterday. But since the ambassador took
 - 4 office after this letter --
 - 5 MR DAELE: Well, I would totally agree. But as he
 - 6 explained, there was nonetheless a period of transition,
 - 7 and this is a letter two weeks before his arrival, and
 - 8 he spoke to Mr Souaré on the status of various mining
 - 9 projects.
 - 10 So along those lines, madam, I don't think that
 - I acted in disrespect of the procedural order. This is
 - 12 a letter dating back to the period when Mr Sylla took
 - office. But as far as my questions are concerned, I'm
 - 14 satisfied with the answers I received, madam, so I have
 - no further questions on this document.
 - 16 THE PRESIDENT: Very well then. We can proceed to your next
 - 17 set of questions.
 - 18 MR DAELE: In paragraph 11 and following, you speak of the
 - 19 various wives of the President, and in paragraph 14 you
 - 20 mention a meeting you had with the President and with
 - 21 Mamadie Touré, and you say that, "He introduced her to
 - 22 me as such" -- in other words, as his fourth wife -- at
 - that meeting.
 - 24 A. Yes.
 - 25 Q. Did you know prior to that meeting who Mamadie Touré

- 09:21 1 was?
 - 2 A. I knew who she was, because it was well known in Guinea
 - 3 that his Excellency the President of the Republic had
 - 4 married a fourth wife. So she was indeed his wife. But
 - 5 I had never met her before.
 - 6 Q. So in the course of that meeting with the President and
 - 7 Mamadie Touré, did they mention the BSGR case, dossier?
 - 8 A. No.
 - 9 Q. Did the President give you any instructions at all in
 - 10 the course of that meeting?
 - 11 A. I repeat: the President asked me to go see him in
 - 12 Dubréka. So when I went to Dubréka, it was at the
 - residence of his fourth wife, and he introduced her to
 - 14 me. And he and I remained together; he gave me
 - instructions for a state mission I was to carry out.
 - 16 Q. But that had nothing to do with BSGR or Rio Tinto; it
 - was an entirely different mission?
 - 18 A. Yes, it was a state mission, nothing related to that at
 - 19 all. But he introduced me to that lady as his fourth
 - 20 wife.
 - 21 Q. Did she remain in the course of the meeting with you?
 - 22 A. No, no. It was just the President and I alone.
 - 23 Q. Well, I'm sorry for the question, which might sound
 - 24 a little bit silly, but I would imagine that Ms Mamadie
 - 25 Touré didn't actually speak to you?

- 09:23 1 A. He introduced her to me, I greeted her, and the
 - 2 President wanted the conversation to be just strictly
 - 3 between him and me, and therefore she left.
 - 4 Q. You say in paragraph 15 that:
 - 5 "It was known that Mamadie Touré would use her
 - 6 influence for some companies and ... that BSGR had
 - 7 managed to get access to the palace thanks to her."
 - 8 A. Well, that is the plain truth.
 - 9 Q. You say that it was known: known by whom?
 - 10 A. Well, it was known by everyone: by the members of the
 - government, by all Guineans. And as I'm stating in that
 - 12 paragraph, her brother, Ibrahima Sory Touré, was
 - 13 an intermediary between her -- a middleman between her
 - and the various ministers.

dc

you stand by your statement that it was generally well

known that Mrs Touré was involved in the BSGR dossier?

14 A. I stand by my statement. During the period of my tenure

as minister, Mr Ibrahima Sory Touré came to see me

16 saying that he was coming on behalf of his sister, who

was the fourth wife of the President of the Republic,

and that she was the one supporting BSGR. It was during

my term as minister.

Now, as regards my departure from the Ministry of

21 Mines and the period elapsed since then, I cannot speak

22 to that period. But I can tell you exactly what I know

23 and what I stated.

24 Q. You testified on two things in this paragraph, in fact.

You said in your statement that Mr Ibrahima Sory Touré

- 09:35 1 told you what you just reported, but you also said that
 - 2 it was known. And when you say it was known, it's not
 - 3 coming from Mr Ibrahima Sory Touré; you say it was
 - 4 generally known. This is the second statement that you
 - 5 made in this paragraph.
 - 6 A. I maintain this second statement. It was known -- at
 - 7 least it was known at the level of the presidency --
 - 8 that Mamadie Touré intervened with the President on
 - 9 behalf of some companies. I once again reaffirm this
 - 10 statement.
 - 11 Q. What did Ibrahima Sory Touré tell you regarding
 - 12 Mamadie Touré's interventions? What did he say she had
 - 13 done?
 - 14 A. He did not say what she had done. He just said that she
 - 15 supported this company where he worked, because he was
 - 16 already employed by this company.
 - 17 Q. But he did not give concrete examples?
 - 18 A. No, he did not need to give concrete examples to say,
 - "This is what my sister [has done]".
 - 20 Q. Did you ask?
 - 21 A. No, he just said that his sister supported the company
 - that he worked for. He was very clear.
 - 23 Q. Did you ask what she had done?
 - 24 A. No, I did not ask. As she was the wife of the
 - 25 President, I was not going to go into detail on this

- 09:37 1 question.
 - 2 Q. You said you spoke with Minister Souaré during your
 - 3 transition. Did Mr Souaré say anything about
 - 4 Mamadie Touré?
 - 5 A. No, he did not. I do not recall that he would have done
 - 6 that. And it would not have been usual or normal to
 - 7 speak about the President's wives.
 - 8 Q. You say that in addition to Ibrahima Sory Touré, several
 - 9 officials working within the presidency told you that.
 - 10 What did these officials tell you exactly?
 - 11 A. They said exactly what all members of the government
 - 12 already knew: that Mrs Touré would intervene on behalf
 - 13 of a given company. These were the various officials
 - 14 who were close in the entourage of the President.
 - 15 Q. So this was regarding several companies?
 - 16 A. But this comment concerned the four wives, so it
 - 17 concerned several companies operating in Guinea.
 - 18 Q. You said "the First Lady"?
 - 19 A. No, I say "the First Ladies", because he had four wives
 - 20 and they were all considered as First Lady or First
 - 21 Ladies.
 - 22 Q. So the comment applied to all four of the wives, not
 - 23 specifically Mamadie Touré?
 - 24 A. No, not specifically Mamadie Touré but it did apply to
 - 25 her as well; she was one of the four.

- 09:39 1 Q. But these officials did not give any examples of what
 - 2 Mamadie Touré allegedly did?
 - 3 A. No, they did not.
 - 4 Q. We are talking about officials. How many officials are
 - 5 we talking about: two, three, four?
 - 6 A. These are the direct aides of the President: the
 - 7 Secretary General, the Chief of Staff, the advisors.
 - 8 There were several of them.
 - 9 Q. Do you have their names? Could you identify them?
 - 10 A. I do not recall their names at this point. This was in
 - 11 2006 and 2007. I would have to look at the
 - organisational chart of the President's Office.
 - 13 Q. You say in the last line of this paragraph that
 - 14 Mamadie Touré never spoke directly with you?
 - 15 A. That is true, and I think this proves it. I did not
 - 16 speak directly with her.
 - 17 Q. In your second statement you say -- and I am referring
 - here to paragraph 3 -- you confirm that:
 - 19 "... Mamadie Touré never met with me to give me
 - 20 instructions."
 - 21 A. That is the truth.
 - 22 Q. Did she give you instructions without actually meeting
 - 23 you?
 - 24 A. She did not give me instructions. I repeat what I wrote
 - 25 here: Mr Ibrahima Sory Touré was the one who came to see

- 09:40 1 me.
 - Q. But she was not using Ibrahima Sory Touré to pass on
 - 3 instructions?
 - 4 A. If he comes to see me on behalf of his sister, on behalf
 - of BSGR, it's clear that he has discussed it with his
 - 6 sister and BSGR.
 - 7 Q. Did he say that he was coming on behalf of his sister or
 - 8 on behalf of BSGR?
 - 9 A. He came and spoke on behalf of both.
 - 10 Q. So he was passing on instructions of Mamadie Touré?
 - 11 A. The wishes, the desires of his sister.
 - 12 Q. And what instructions did he pass on?
 - 13 A. Simply that the Minister of Mines should facilitate the
 - 14 granting of the permits that they had requested, and
 - this was permits for uranium.
 - 16 Q. When Mr Ibrahima Sory Touré passed on these alleged
 - 17 instructions, did he say that they were coming from the
 - 18 President?
 - 19 A. No, he did not say that they came from the President.
 - 20 He was talking about BSGR and his sister. But his
 - 21 sister is the President's wife. The link, the
 - 22 connection is clear.
 - 23 Q. Did he say that Mamadie Touré had discussed these
 - 24 instructions with the President and that the President
 - was in agreement?

- 09:42 1 A. Mamadie Touré cannot interfere on a dossier without
 - 2 discussing with her husband, who's the President; that's
 - 3 the very least.
 - 4 Q. So she would not be working behind the President's back?
 - 5 A. No, not at all. I don't believe so. They were husband
 - 6 and wife.
 - 7 Q. Do you have an opinion regarding the intellectual level
 - 8 of Mamadie Touré?
 - 9 A. I do not have an opinion on her level. I don't know
 - 10 what her background is, I don't know what her CV is.
 - 11 I don't know if she studied, what studies she did.
 - 12 I don't know what her level of attainment is. I don't
 - 13 know if she has a diploma. I don't even know if she
 - 14 graduated from secondary school.
 - 15 Q. Do you know how old she was at the time?
 - 16 A. I never asked her how old she was, out of courtesy.
 - 17 I certainly don't ask how old a woman is, and
 - 18 particularly the First Lady.
 - 19 Q. In paragraphs 16 and further, you talk about a meeting
 - 20 that was held with all the mining investors. This is
 - 21 a meeting that took place on June 16th, and you say that
 - 22 you announced your strategy for the mining sector.
 - 23 I think you were appointed minister on May 29th, but
 - 24 two weeks later, in June 2006, you already had
 - 25 a strategy for the sector. Had this strategy been

- 09:44 1 approved by President Conté?
 - 2 A. Yes. Let me go over this again.
 - I was appointed May 29th. In June I took up my
 - 4 responsibilities. But this was the second time I was
 - 5 appointed Minister of Mines. So during my first term
 - I had developed a strategy for the mining sector for
 - 7 Guinea. If I may permit myself this, I am in a way the
 - 8 father of the first Mining Code of Guinea, along with
 - 9 the World Bank, and my strategy was transforming our
 - 10 natural resource industry. I thought that we were too
 - 11 reliant on bauxite, and I wanted to work on a mining
 - 12 strategy that would encourage our partners to help us to
 - 13 process the natural resources in country to develop
 - 14 employment. That was the first pillar of my mining
 - 15 strategy.
 - 16 Then the second pillar was to address our
 - over-reliance on bauxite. We were approaching
 - an anniversary of our independence. At the time I am
 - 19 referring to, there was not a single alumina plant
 - 20 operating in the country. So the second aspect of our
 - 21 strategy was to diversify our portfolio so that we
 - 22 wouldn't be completely reliant on bauxite, to see how we
 - 23 might broaden our natural resource base; once again, to
 - not be too dependent on the price of bauxite and
 - 25 aluminium.

This is why we decided to bring together all of the
mining companies in June 2006 to announce that I was
Minister of Mines for a second time, and this was the
strategy I wanted to roll out, and I was launching
a call to help Guinea to achieve its different
objectives. First of all, process mining resources,
creating jobs for young people, industrialising the

1.3

This is why I brought together all the mining companies in June 2006, to develop this strategy, and also to look into the various aspects of the strategy: the environmental impact, the consequences for local community development, the creation of jobs for young people, making more locals accede to management positions. And this is my strategy that I developed and that I carried forward during my second tenure.

country. And then, as a second pillar, reducing our

dependence on one product and diversifying production.

So I am making these clarifications, with your permission, that the strategy had already been put in place, that was known. And one of my colleagues said, talking about the different Ministers of Mines, that I was able to modernise the mining sector, and that was my goal.

- Q. So your first mandate as minister was in 1985?
- 25 A. I was appointed on December 22nd 1985, Minister of Mines

- 09:48 1 and Natural Resources.
 - 2 Q. So there were more than 20 years that had elapsed
 - 3 between your first term as minister and your second one?
 - 4 A. 17 years, to be precise.
 - 5 Q. 1985?
 - 6 A. 1986, and I came back in 2006.
 - 7 Q. So it was quite a long period that elapsed between your
 - 8 two terms as minister?
 - 9 A. Correct.
 - 10 Q. The strategy had not changed during this period of
 - 11 16 years, 20 years?
 - 12 A. As I speak today here, this strategy still holds true
 - for all mining resources.
 - 14 Q. So the problems that you had encountered in the 1980s
 - were still prevalent when you became minister for the
 - 16 second time?
 - 17 A. Well, there were some things came to pass. We had an
 - alumina plant, we were able to diversify the mining
 - 19 sector. So some things were done, but we needed to
 - 20 carry it forward further. My predecessors did do the
 - 21 work that was required.
 - 22 Q. My question, before you responded, was whether your
 - 23 strategy had been approved by the President.
 - 24 A. Yes, it was approved by the President.
 - 25 Q. Was it approved by the Prime Minister?

- 09:49 1 A. I did not have a Prime Minister. There was an official
 - 2 responsible for coordinating governmental work and there
 - 3 was a Secretary General of the Presidency, and the
 - 4 strategy was approved by him and by the Council of
 - 5 Ministers.
 - 6 Q. By the Council of Ministers? When did they approve the
 - 7 strategy? Was there a meeting?
 - 8 A. Of course. Council meetings took place every Tuesday
 - 9 under the chairmanship of the Coordinator of
 - 10 Governmental Activity, and that's when I spoke and it
 - 11 was approved by all those present.
 - 12 Q. So if we had the minutes of these meetings, we would be
 - 13 able to see that this presentation was made and it was
 - 14 approved?
 - 15 A. Yes, it was approved.
 - 16 Q. Was this strategy different from Mr Souaré's?
 - 17 A. No, I said that my predecessors did fine work and
 - I continued, and this was a strategy that was defended
 - 19 by all successive Mining Ministers. These are obviously
 - 20 things that are in the natural interest. Each minister
 - 21 tried to implement at least part of the grand strategy
 - for the mining sector.
 - 23 Q. You said in paragraph 18 that during this meeting you
 - 24 met with Mr Avidan, the director of BSGR, and you say
 - 25 that you recall having spoken of bauxite, uranium, rare

- 09:51 1 metals and gems. You said that you don't recall that he
 - 2 spoke of iron ore?
 - 3 A. Not on that day.
 - 4 Q. Is this not a bit strange, insofar as Ibrahima Sory
 - 5 Touré came to see you -- with the alleged instructions
 - 6 coming from Mamadie Touré -- to get the iron ore permit,
 - 7 then you meet the CEO of BSGR and he doesn't bring up
 - 8 iron ore?
 - 9 A. Let me correct that. Ibrahima Sory Touré talked to me
 - 10 about the uranium permits, not iron.
 - 11 Q. Will you agree with me that Mr Avidan was talking about
 - 12 these minerals, and that BSGR is also keen to invest in
 - 13 those sectors?
 - 14 A. If he referred to them, of course it's because he was
 - expressing the interest of his company; there is no
 - doubt about that.
 - 17 Q. We heard before that BSGR's sole interest was to invest
 - 18 in Blocks 1 and 2 on Simandou. This seems to indicate
 - 19 something else.
 - 20 A. I would like to clarify this: that BSGR was also talking
 - 21 about bauxite. They had permits for bauxite. So they
 - 22 were not only interested in iron ore. And then uranium.
 - 23 Q. Did Mr Avidan talk about Rio Tinto?
 - 24 A. No, he did not bring this up with me.
 - 25 Q. Did he talk about his desire to get Blocks 1 and 2?

- 09:53 1 A. On that day he did not bring that up.
 - 2 Q. In paragraph 19 of your statement you say that:
 - 3 "Ibrahima Sory Touré was subsequently present during
 - 4 all the meetings with BSGR at the Ministry of Mines."
 - 5 Do you know how many meetings were held?
 - 6 A. From June 2006 to March 2007, I do not recall. But
 - 7 these were meetings that were held regularly with the
 - 8 mining companies. I cannot say today the precise number
 - 9 of meetings that took place during the nine months that
 - 10 I was minister.
 - 11 Q. Did these meetings take place at the request of BSGR?
 - Was it at the request of your ministry?
 - 13 A. The ministry regularly called in the mining companies
 - 14 for meetings, and BSGR was invited, just like other
 - mining companies. But it could also be that a mining
 - 16 company asked to come and see the minister or the
 - 17 officials, and those meetings would be granted and they
 - 18 took place regularly. It was standard practice.
 - 19 Q. In paragraph 20 you talk about the conference that took
 - 20 place on September 19th 2006. You say that you were not
 - 21 present, but that nonetheless you did receive something.
 - Let's look at the document in tab 3, C-89.
 - 23 A. Yes.
 - 24 Q. Are you familiar with this presentation?
 - 25 A. Yes.

- 09:55 1 Q. Did you read it at the time?
 - 2 A. Yes, at the time I read it.
 - 3 Q. What was your position on this presentation and on the
 - 4 work described in this presentation? And if you would
 - 5 go to page 10 of the document. This document includes
 - 6 the programme, BSGR's plans in the zones over which they
 - 7 had permits, Simandou North, Simandou South, and you see
 - 8 here detailed figures, detailed timeframes, a drilling
 - 9 programme that would be for Simandou North on page 10,
 - 10 then a [drilling] plan for Simandou South on page 11.
 - 11 And on page 12 we see a feasibility study is referred
 - to, with exploration starting in October 2006.
 - I could continue, but I don't think it's worthwhile
 - 14 to review all the pages. But we could, for instance,
 - 15 look at page 17. Here we find a detailed schedule with
 - 16 dates.
 - 17 A. Yes.
 - 18 Q. This is for Simandou North and South. Then on pages 18
 - 19 and 19 we have budgets.
 - 20 A. Yes.
 - 21 Q. Again, these are detailed tables. \$18 million
 - 22 altogether.
 - 23 On page 20 we have the different milestones for the
 - 24 different zones and the amounts spent. I'm referring to
 - 25 page 20.

- 1 Page 22, we have the same sort of information for 2 bauxite, again with a detailed schedule, and there's
 - 3 information on the investments.
 - 4 Maybe for the benefit of the Tribunal, on page 37,
 - 5 we have here a schedule with the detailed milestones,
 - 6 with the activities underway in 2006. If we take the
 - 7 second half of 2006, and then on pages 38 and 39 we have
 - 8 the amounts invested.
 - 9 What was your reaction when you saw this
 - 10 presentation?
 - 11 A. I repeat once again: I was not present at this meeting.
 - 12 It was my Secretary General who went to the meeting and
 - 13 then he reported back to me.
 - 14 This document is a standard for all mining
 - 15 companies. My reaction to the Secretary General was to
 - say, "Well, fine, this presentation has been made,
 - 17 that's all fine, but now let's see what they actually do
 - on the ground. Let's see if what they have in this
 - 19 paper is going to actually be implemented step by step".
 - 20 But presenting this kind of document was something
 - 21 that was entirely standard for companies. When they
 - 22 have a concession, they carry out exploration and they
 - are complying with the rules that are imposed by the
 - 24 Mining Code. But what's important is what takes place
 - on the ground.

- 10:00 1 Q. I think you said that BSGR didn't have the financial nor
 - 2 technical capacity to carry this out. Does this
 - 3 presentation not suggest the contrary? I'm under the
 - 4 impression that they know what they're talking about.
 - 5 They're talking about investing millions.
 - 6 A. I think that such a document could be presented by any
 - 7 company, your Honour. It doesn't reflect the technical
 - 8 capacity of the company because any company could do
 - 9 likewise.
 - 10 Q. In paragraph 21 you talk of the reception that followed
 - 11 and the video that you watched. Do you remember how
 - 12 long this video is? Did you look at excerpts or did you
 - see the full video?
 - 14 A. No, just a few minutes.
 - 15 Q. Because the video is 18 minutes long. So is that the
 - 16 version with the comments of Global Witness that you
 - 17 saw?
 - 18 A. I saw the pictures. I didn't see the comments by
 - 19 Global Witness, as far as I remember.
 - 20 Q. So you didn't see that there was a reference to the
 - 21 berets rouges, the red berets?
 - 22 A. Yes, I did see the pictures with the red berets.
 - 23 Q. You saw that they were already present before Mrs Touré
 - 24 arrived?
 - 25 A. Your Honour, I think that truly this question is

- 10:02 1 irrelevant. But I do remember the video and I see the
 - 2 red berets and I see Mrs Touré arriving. This is
 - 3 exactly what I saw. As I described, were the red berets
 - 4 there before/after? I don't know. She was there
 - 5 together with the red berets, your Honour.
 - 6 Q. So you had a meeting with all of the mining promoters in
 - 7 June 2006?
 - 8 A. Yes.
 - 9 Q. And in paragraph 23 you depict that there was a second
 - 10 meeting in January 2007?
 - 11 A. Yes.
 - 12 Q. For mining promoters?
 - 13 A. Yes.
 - 14 Q. You say in [paragraph 24] that the aim of the meeting
 - 15 was to make sure that they shouldn't leave the country
 - when the country was experiencing a crisis. So there
 - was a fear that promoters might leave?
 - 18 A. Yes. Well, you're quite familiar with the history of
 - 19 several African countries, your Honour. When there are
 - 20 strikes in a country, general strikes at that, and such
 - 21 strikes go together with social upheaval -- we see that
 - 22 in Africa, Latin America, mining countries or not --
 - 23 investors might start worrying about the situation and
 - one has to study how to evacuate one's staff.
 - 25 So the aim of that January meeting was to ask mining

- 10:04 1 companies to see that our country was not in danger,
 - 2 there was no danger of total destabilisation, and they
 - 3 shouldn't fear and decide to stop their mining
 - 4 activities because the country was in upheaval and they
 - 5 wanted to leave. So the idea was to comfort them.
 - 6 And I think that the meeting was very useful,
 - 7 because his Excellency the ambassador of the United
 - 8 States at the time called me to thank me for holding
 - 9 such a meeting. He called me personally and said that
 - 10 he was really grateful because there was staff, US
 - 11 staff, that was working with the CBG, the bauxite
 - 12 company in Guinea, 400 kilometres away from Conakry, and
 - 13 the ambassador was worried about the safety of US
 - 14 citizens.
 - So when I called for this meeting and I reassured
 - 16 the ambassador of the United States that everything had
 - 17 been done to make sure that these expats were safe, and
 - 18 after that we took some measures at governmental level,
 - 19 and all of this was extremely efficient. This was the
 - 20 aim of that meeting, and I think it was very useful.
 - 21 O. The document under tab 4 is R-211. This is the uranium
 - 22 permit --
 - 23 A. Yes.
 - 24 Q. -- that you granted?
 - 25 A. Yes.

- 10:05 1 Q. On the first page you see that the permit application
 - was done on 5th February?
 - 3 A. Yes.
 - 4 Q. So hardly two/three weeks after you had asked them to
 - 5 stay?
 - 6 A. Yes.
 - 7 Q. So I would imagine that you were very happy, because not
 - 8 only did you ask them to stay, but BSGR did more than
 - 9 that: not only does it stay, but on top of that, it is
 - 10 ready to invest even more in the country, which is
 - 11 experiencing a major crisis. Do you agree with me?
 - 12 A. Let me go back to this decision. This decision was
 - applied for in 2006, and the signature is the
 - 14 achievement of this request which was applied for in
 - 15 2006. And the letter is dated 2005, but the request was
 - 16 presented to the Ministry of Mines and the signature was
 - just the outcome of this entire process.
 - 18 So independently from what I said in January, when
 - 19 I hosted this meeting with the companies, the process
 - 20 had already started and my officials proved to me that
 - 21 it was feasible. Because this is only the last stage,
 - 22 if you like: you have the ministry, then the CPDM and
 - 23 then the recommendation to the minister. And
 - Mamadie Touré came to support this document; that's why
 - 25 I signed it.

- 10:07 1 Q. But this says that it was signed in February 2007.
 - 2 A. I'm telling you that the official application was done
 - 3 by letter on 5th February 2005. But it doesn't mean
 - 4 that the interest for uranium doesn't date back from
 - 5 2006.
 - 6 Q. But the official request was done two weeks after your
 - 7 request: "Please, investors, stay put, trust us". And
 - 8 what does BSGR do? Apply formally for new permits. So
 - 9 it's ready to invest even more in your country, despite
 - 10 the crisis?
 - 11 A. This is the intention that was demonstrated. I can't
 - 12 deny this. This is very clear, that they expressed
 - their wish to invest in the mining sector. For me that
 - 14 was positive, because it went in the direction of
 - diversification further to bauxite. This is the
 - 16 rationale.
 - 17 Q. So the CPDM gave a positive recommendation?
 - 18 A. Correct.
 - 19 Q. Do you know whether Mamadie Touré exerted any pressure
 - on the CPDM to give a positive recommendation?
 - 21 A. I have no information on that subject matter.
 - 22 Q. Do you know if the President himself put some pressure
 - 23 on the CPDM?
 - 24 A. Your Honour, I can state that the President of the
 - 25 Republic does not intervene in these matters to give

- 10:09 1 instructions to officials. He's got his ministers and
 - 2 his Prime Minister and his government.
 - 3 Q. Did you look at the application?
 - 4 A. I had some very competent people on my team, and
 - 5 therefore it was referred to them.
 - 6 Q. So once you receive a recommendation, a positive
 - 7 recommendation, you just approve it?
 - 8 A. I trust -- well, the Minister of Mines has an excellent
 - 9 competent team, and when I took office I saw that they
 - 10 were very competent.
 - 11 Q. So if the recommendation is positive, it means that
 - 12 BSGR, according to the CPDM, was competent to obtain the
 - 13 permit?
 - 14 A. They judged that the permit should be granted, and
 - 15 that's what I did.
 - 16 Q. Did the President exert any pressure upon you to approve
 - this positive recommendation?
 - 18 A. The President exerted no pressure upon me whatsoever for
 - 19 me to sign the document. The only person who intervened
 - 20 was Mr Ibrahima Sory Touré.
 - 21 THE PRESIDENT: Can I ask for a point of clarification.
 - 22 It's the second point you say this. You said, "Ibrahima
 - 23 Sory Touré came and supported this document and this is
 - 24 why I signed it". So what is the impact of Mr Touré's
 - 25 involvement in the process that leads you to sign the

- 10:10 1 document?
 - 2 A. There is a normal process, your Honour, and now there is
 - a pressure which is abnormal, that came on top of the
 - 4 normal process. It speeded up the signing, it really
 - 5 helped the signing.
 - 6 THE PRESIDENT: Had there not been this abnormal pressure,
 - 7 would you have signed the document?
 - 8 A. It would have taken longer probably.
 - 9 THE PRESIDENT: But you would have signed it on the
 - 10 principle?
 - 11 A. I would have signed it within the strategy of aiming at
 - 12 diversification in the mining sector.
 - 13 THE PRESIDENT: Thank you.
 - 14 MR DAELE: The level of this pressure. At the outset you
 - said that you didn't fear the President. So if there
 - 16 are pressures, why did you submit to this pressure and
 - 17 not oppose it?
 - 18 A. I said I didn't fear the President; I respect the
 - 19 President. And it's the President who appointed me in
 - 20 my function, so I do respect him. If he gives me
 - 21 instructions, and I find that such instructions go in
 - 22 the right direction, obviously it's a type of pressure.
 - 23 Q. Yes, but the big problem is that these were not the
 - 24 President's instructions; they were instructions from
 - 25 Mamadie Touré.

- 10:12 1 A. Yes, but who says "madam" means "mister".
 - 2 Q. On what basis?
 - 3 A. On the basis of a relationship between madame and
 - 4 monsieur. Monsieur introduced me to madame.
 - 5 Q. So they are interchangeable?
 - 6 A. Not at all. But madam is with mister.
 - 7 Q. So you say if you say "madam", you say "mister", they're
 - 8 interchangeable?
 - 9 A. No. One is the President of the Republic, the other one
 - 10 is his wife.
 - 11 Q. Does she have official power or functions as First Lady?
 - 12 A. She is First Lady, that's her official function.
 - 13 Q. Does she have any powers under the Constitution?
 - 14 A. The Constitution doesn't give any power. She is not
 - 15 a member of the government. But she is the wife of the
 - 16 President of the Republic: it gives her a certain aura,
 - 17 a certain distinction.
 - 18 Q. When you say "madam is mister", is it only valid for
 - 19 Mamadie Touré or for the other three?
 - 20 A. I repeat: Mr President of the Republic had four wives.
 - 21 Q. So the other three were also interchangeable?
 - 22 A. Not interchangeable. I repeat: ladies cannot be
 - 23 President of the Republic. When I say "mister is
 - 24 madam", it doesn't mean that they are interchangeable.
 - There are lady presidents of the Republic whose

- 10:14 1 [husbands] are First Gentlemen. But they are not
 - 2 interchangeable.
 - 3 Q. In terms of the dates, how did Mr Ibrahima Sory Touré
 - 4 come to give you the instructions?
 - 5 A. I can't give you an exact date, your Honour. But I can
 - 6 tell you that during my term, 2006/2007, I was there for
 - 7 nine months and there were contacts.
 - 8 MR JAEGER: Just a comment: could you avoid saying "tu" to
 - 9 the witness, please.
 - 10 THE PRESIDENT: I think this is part of the difficulty that
 - 11 Mr Daele is imposing upon himself to make the
 - 12 cross-examination easier. That's how I understand it
 - 13 and construe it, and I'm sure that's how Mr Ambassador
 - is understanding it.
 - 15 MR DAELE: Each time I say "tu" to you, please forgive me,
 - and replace it by "vous".
 - 17 DR SYLLA: I am very humble and I understand. All the more
 - so that we both live in Brussels, we are compatriots!
 - 19 MR DAELE: Thank you.
 - To go back to the dates, you are quite vague, you
 - say "2006/2007", and you said that without any pressure
 - it wouldn't have gone that fast. So there is
 - an indication of timing.
 - 24 When did you get this instruction? Was it in June,
 - July, before the meeting, in January 2007; when?

- 10:16 1 A. I saw Mr Ibrahima Sory Touré on several occasions,
 - 2 I can't tell you, "On that particular date, Mr Ibrahima
 - 3 Sory Touré told me this, that or the other". Each time
 - 4 I saw him, throughout the nine months of my term as
 - 5 minister, he would mention BSGR and the various wishes
 - 6 of BSGR. I can't give you an exact date today. Each
 - 7 time he would defend the company.
 - 8 Q. Yes, obviously, because he was employed by BSGR.
 - 9 A. Absolutely.
 - 10 Q. So that's not abnormal. But each time he was there, he
 - 11 forwarded Mamadie Touré's instructions; did he repeat
 - 12 them?
 - 13 A. Each time he saw me, it's normal. He's an employee of
 - the company, as you said yourself, so he would convey
 - 15 the recommendations and instructions of his sister. He
 - 16 did it every single time.
 - 17 Q. How did he put this? He said, "I came three weeks ago
 - and three weeks have elapsed, what's happening? You
 - 19 know that my sister is behind all of this?" How did he
 - 20 go about it?
 - 21 A. He doesn't speak that way, your Honour. The idea was
 - 22 "Excellency, Mr Minister, we have files in your hands,
 - 23 please try and speed up the process". This is the
 - 24 courteous formula that was used.
 - 25 Q. In your second witness statement, you said under

- 10:17 1 paragraph 4 that:
 - 2 "Another company would never have obtained such
 - 3 mining permits with such ease."
 - 4 My question is the following: what aspect of the
 - 5 procedure would have been more difficult?
 - 6 A. I have already answered this question. Let me repeat
 - 7 what I said. Had another company applied for this
 - 8 permit, it would have attained it. But the fact that
 - 9 Mr Ibrahima Sory Touré supported this application and
 - 10 asked us to speed up the process, it did speed up the
 - 11 process, which is normal.
 - 12 Q. Are there terms that BSGR did not have to fulfil?
 - 13 A. In this particular case, no. Because the technical
 - 14 officials, the CPDM, the mine directorate, studied the
 - 15 case and gave a positive recommendation.
 - 16 Q. For me things are not yet clear as to how long the
 - 17 procedure actually took, but let's say that it was
 - 18 swift. Is a possible explanation not that, fine, the
 - 19 speed is explained by the crisis that the country was
 - 20 undergoing and you wanted to show that there were new
 - 21 investors or the same or at least investors that
 - 22 continued to invest in the country despite the crisis?
 - 23 Secondly, on the basis of the feasibility study that you
 - saw yourself, there are concrete plans presented by
 - 25 BSGR. Is that not a possible explanation?

- 10:19 1 A. It's not a possible explanation, and from my point of
 - view it's something that was started in 2006 and that
 - 3 reached its conclusion in 2007. The crisis had arrived
 - 4 in January 2007. The signature of this permit has
 - 5 nothing to do with the crisis. It was a normal process
 - 6 that just reached its conclusion. It's got nothing to
 - 7 do with the crisis.
 - 8 Again I repeat: the aim of the meeting, more than
 - 9 anything, was to comfort the companies, especially those
 - 10 companies that were active in the country, and had been
 - 11 active for dozens of years, were exploiting bauxite and
 - 12 were hoarding it, and we needed to reassure them; as
 - 13 I said, with the intervention of the American
 - 14 ambassador. So you can't link the signature of this
 - decision to the crisis to say this is evidence that
 - 16 there are countries that say -- no, not at all.
 - 17 Q. So when I try to sum up your statements on these events,
 - I noted that: (1) you had a meeting with the President
 - 19 and Mamadie Touré during which she didn't say anything
 - 20 about BSGR; (2) President Conté never gave new any
 - instructions about BSGR; (3) Mamadie Touré never gave
 - 22 any instructions relating to BSGR; (4) the only
 - 23 connection between you and the President and/or Mamadie
 - 24 Touré were the visits of her half-brother, who claimed
 - 25 that he was conveying Mamadie Touré's instructions; and

- 10:21 1 (5) that you granted the permits upon the recommendation
 - of CPDM. Is that right?
 - 3 A. First, there was no meeting between the President,
 - 4 myself and Mamadie Touré. The President was in Dubréka
 - 5 with his wife, Mamadie Touré. He called me and
 - 6 introduced me to Mamadie Touré as his fourth wife.
 - 7 Mrs Mamadie Touré was saluted and she withdrew, and
 - 8 I was given instructions and I left.
 - 9 Another precision: the signature of these permits,
 - 10 these are not iron ore permits, they were uranium
 - permits, in February 2007. And this is the conclusion
 - 12 of a technical procedure with the CPDM, their Mining and
 - 13 Geology Department, and the fact that Mr Ibrahima Sory
 - 14 Touré came and asked us to start up the process.
 - 15 Q. I have one more point on this. You say that the
 - 16 pressure of Ibrahima Sory Touré was only linked to the
 - 17 uranium matter; he never put any pressure for iron ore?
 - 18 A. I never granted any iron ore permit during my nine
 - 19 months. So I was submitted to no pressure whatsoever.
 - 20 Q. You did not grant it, but did he talk about it?
 - 21 A. No, he didn't mention it. I didn't have to attribute
 - it. We were talking about uranium only.
 - 23 Q. Did he convey instructions of Mamadie Touré concerning
 - 24 iron?
 - 25 A. During my nine months I had no instructions from

- 10:23 1 Mr Sory Touré on iron, given the fact that under my
 - 2 authority there was no application concerning iron.
 - 3 Q. Did he convey instructions concerning Blocks 1 to 4 of
 - 4 Rio Tinto?
 - 5 A. I had no instructions in this regard. I repeat: it was
 - 6 uranium, and only uranium.
 - 7 Q. I still have a few questions concerning the events that
 - 8 took place after you left the Ministry of Mines.
 - 9 You say in paragraph 26 that in 2009 you were
 - 10 arrested, or at least accused of committing a fraud.
 - 11 Can you explain this accusation?
 - 12 A. Yes. Your Honour, in 2009 a young captain took over the
 - power in Guinea, Mr Camara, and the moment he did that,
 - one of his advisors, his cousin, Mr Onipogui, who had
 - 15 become his advisor, was personally against the Prime
 - 16 Minister, myself, Ahmed Kanté and Nabé, all four
 - ministers who are here today in this case.
 - 18 He pushed Captain Dadis Camara to say that
 - 19 an inspection should be carried out at the Ministry of
 - 20 Mines concerning what was called the "mining fund" at
 - 21 the time. So this against all four ministers with whom
 - 22 he had had difficulties, because he didn't meet the
 - 23 qualification requirements to be inspector of mines.
 - I organised a major mining symposium in Dusseldorf
 - 25 in Germany, because I had studied in Germany. He wanted

- 10:26 1 to attend, I told him that he had no place there, and
 - 2 this started the conflict between ourselves. And he
 - 3 also bore a grudge to Minister Souaré, as well as
 - 4 Mr Kanté and Mr Nabé. So upon the basis of these lies,
 - 5 he got Captain Dadis to understand that all four
 - 6 ministers had carried out embezzlement or
 - 7 misappropriations of funds.
 - 8 May I continue?
 - 9 PROFESSOR VAN DEN BERG: A clarification. Mr Onipogui, it
 - 10 is Alhassane Onipoqui, who was appointed in 2014 as
 - 11 minister, state inspector?
 - 12 A. He was appointed under Dadis, yes.
 - 13 PROFESSOR VAN DEN BERG: But a question: in 2014 he was
 - 14 named state inspector?
 - 15 A. It's possible.
 - 16 So there were these inspections. We were not even
 - 17 arrested; we were put under house arrest. The case was
 - 18 submitted to an investigative judge who was very
 - 19 courageous. Under a military regime, to accept to tell
 - the truth was not a done thing.
 - 21 This investigative judge did his job, and despite
 - 22 all of the threats and all of the pressures he was put
 - 23 under, he decided that the case was null and void, and
 - that all four ministers were erroneously accused. He
 - was threatened with death, he was threatened to be

- 10:27 1 ousted from his position. And in 2010 he declared that
 - 2 all four ministers were innocent -- not guilty, in other
 - 3 words -- and we all had the benefit of a dismissal, and
 - 4 we were rehabilitated officially on the national
 - 5 television.
 - 6 This is what pertains to this matter. That's the
 - 7 explanation I wanted to give.
 - 8 MR DAELE: For how long were you arrested?
 - 9 A. Nine days. Just nine days.
 - 10 Q. Are you aware of the fact that there are other
 - 11 testimonies in this case in point that say that you
 - 12 signed a recognition of the facts that you were accused
 - of, and also a commitment to pay back the money?
 - 14 A. During those nine days, Captain Dadis and his team, his
 - group, told us -- and I must underline that Captain
 - 16 Dadis, after all of this and everything that happened to
 - 17 him, he's now in Burkina Faso -- Captain Dadis
 - 18 acknowledged that he had accused us erroneously and
 - 19 asked for forgiveness. I insist on giving you this
 - 20 information.
 - 21 Q. My question was: did you sign?
 - 22 A. We signed papers saying that we assumed, but not that we
 - 23 were guilty, and that the investigating judge should
 - 24 establish the truth, this very courageous judge.
 - 25 Q. With a commitment to pay back. Did you pay back?

- 10:29 1 A. No, we didn't pay back a penny.
 - 2 Q. Are you talking only for yourself, or do you know also
 - 3 that the other three didn't pay?
 - 4 A. The other three will come, or they've come here already.
 - 5 We had paid -- we had been asked to pay sureties. We
 - 6 had been asked to pay this guarantee, this surety. We
 - 7 each paid up, as should be. But after the case was
 - 8 dismissed, the Prime Minister at the time gave
 - 9 instructions to the public prosecutor to reimburse such
 - 10 sureties, and it was done.
 - 11 O. And what was the amount?
 - 12 A. To the tune of 50 million Guinean francs. And it was
 - 13 totally paid back.
 - 14 Q. Are you familiar with the article that appeared on the
 - 15 BBC at the time, 2nd April 2009? It said that you paid
 - 16 back US\$2 million.
 - 17 A. That's wrong.
 - 18 Q. But are you familiar with this article?
 - 19 A. No, I'm not familiar with this article. It's the first
 - time I've ever heard of it.
 - 21 Q. Last subject on which I would have a few questions for
 - you, sir.
 - 23 When you left the ministry, you became a BSGR
 - 24 consultant?
 - 25 A. Yes.

- 10:31 1 Q. I believe you did that for a rather long period, between
 - the end of 2007 up until the beginning of 2009?
 - 3 A. For one year.
 - 4 Q. During that period, did the BSGR leaders tell you that
 - 5 they had signed contracts with Mamadie Touré?
 - 6 A. They never said that to me.
 - 7 Q. Did they say that there were other companies that had
 - 8 signed contracts with Mamadie Touré on behalf of BSGR?
 - 9 A. Never.
 - 10 Q. Did they inform you about anything -- or in any way did
 - 11 they inform you that Mamadie Touré had influenced their
 - dossier in their favour?
 - 13 A. They never told me. But I knew that Mamadie Touré
 - 14 continued her lobbying activities.
 - 15 Q. During that period did you see any evidence, any proofs
 - 16 that Mamadie Touré was working for BSGR?
 - 17 A. I never saw any proof. I was an independent consultant.
 - I was no longer -- I no longer held any governmental
 - 19 position. I had my office in the city. I set up
 - 20 a company called Guinea Consult, and I would work with
 - other companies, also German companies, in the area of
 - 22 the energy. So once a week I would go to BSGR. So
 - I wasn't really handling any one specific case.
 - 24 Q. Did BSGR turn to you in order to exert some pressure or
 - 25 influence on former colleagues at the ministry?

- 10:33 1 A. No, not at all. I never had to meet my successor in
 - 2 order to talk to him about anything. My role was simply
 - 3 to provide advice to the company in the area of mining
 - 4 diversification. That was precisely the purpose of my
 - 5 work.
 - 6 Q. You were taken on as consultant for your technical
 - 7 capacities?
 - 8 A. Indeed, sir.
 - 9 Q. And that's the only thing you did for BSGR during that
 - 10 period?
 - 11 A. Indeed that is the case. I wanted that company -- and
 - 12 I gave her that advice several times -- I wanted that
 - 13 company to focus on diamonds, which is their core
 - 14 activity, diamonds. I wanted them to get more involved
 - in diamonds, where they were very powerful.
 - 16 Q. Did you ever meet Mamadie Touré during that period?
 - 17 A. No, I never saw her during that period. As I told you,
 - I only met her once, with the President of the Republic.
 - 19 Q. Do you know whether there were any meetings between
 - 20 Mamadie Touré and BSGR during that period?
 - 21 A. I can't affirm that, I do not know. I am not aware of
 - 22 any such meetings.
 - 23 Q. In any case, you never had a meeting with, say, the
 - 24 President as regards the BSGR dossier?
 - 25 A. I had no meetings with the President on that dossier.

- 10:34 1 Q. The thesis advanced by the Guinean Government is that in
 - fact BSGR is a corrupting company.
 - 3 A. A what?
 - 4 Q. A company of people who give out bribes and who try and
 - 5 bribe Guinean officials. Would you be ready to work for
 - a company that pays out bribes?
 - 7 A. With my training, with my background that everybody is
 - 8 aware of, I would never work for a company that is
 - 9 paying bribes. But I cannot know what a company does;
 - 10 I am not there all the time. I cannot be aware of all
 - of the activities undertaken by a company that I give
 - 12 advice to.
 - 13 Q. However, in your term as minister and now as consultant,
 - 14 you've never seen any evidence that BSGR had paid any
 - 15 bribes to anyone?
 - 16 A. No, I have no such evidence. And I myself was never
 - 17 bribed by anyone.
 - 18 Q. Well, you say that you prepared reports on the evolution
 - of the mining sector, bauxite, iron ore, gold, diamonds,
 - 20 and that you had worked on the project to export iron
 - ore through Liberia. So that means that BSGR was
 - 22 actually working on these feasibility studies out in the
 - 23 field.
 - 24 A. Well, that's the advice I would give them. And
 - 25 I particularly worked with a geologist, Mr Nassirou Bah;

- 10:36 1 I mentioned him in the statement. In the meantime he
 - 2 has passed away.
 - 3 Q. But you were under the impression that it was a serious
 - 4 company that wanted really to develop the mines that it
 - 5 had titles on?
 - 6 A. Well, I wanted to give advice for the company for it to
 - 7 move into its strongest area, which for me was diamonds,
 - 8 and that was the goal I pursued.
 - 9 Q. During that period as consultant, did you also have any
 - 10 official positions?
 - 11 A. No, I wasn't officially a minister. I didn't have any
 - 12 official duties. I left the government, and as soon as
 - 13 I left the government I opened my own consulting firm.
 - 14 Q. And you did not give advice on mining projects to the
 - 15 Ministry of Transport?
 - 16 A. The Ministry of Transport, I did give them advice on the
 - 17 Trans-Guinean Railway, I gave advice to the minister,
 - 18 and also on port activities.
 - 19 Q. This was as what?
 - 20 A. As consultant. I never had any salary from the Ministry
 - of Transport. Mr Touré, who was the minister at the
 - 22 time, could testify to that.
 - 23 Q. Do you remember whether you set up your company before
 - 24 you started working with BSGR or did you set it up
 - 25 after? BSGR may have asked you to do so.

- 10:38 1 A. No, no, no, it existed in advance of that. I left the
 - 2 government in 1992 and I set up Guinea Consult with two
 - 3 other partners, and so the company existed well before
 - 4 that. And I would also give advice to German companies.
 - 5 The consulting office already existed when I was
 - 6 appointed director, and then ambassador and then
 - 7 minister. But my partners continued running the company
 - 8 up until today; it still exists with the partners, the
 - 9 co-founders.
 - 10 Q. But you say it was Mr Avidan who contacted you?
 - 11 A. That's right.
 - 12 Q. Even though Mr Avidan -- he is coming tomorrow -- but he
 - 13 told me that it was you who actually, perhaps not
 - 14 entered into contact with him, but you saw him on
 - a flight between Paris and Conakry. Does that ring
 - 16 a bell? That is where he spoke to you for the first
 - 17 time?
 - 18 MR JAEGER: Is that information in this arbitral proceeding?
 - 19 MR DAELE: Well, it is in the testimony.
 - 20 THE PRESIDENT: I believe that's the second statement,
 - 21 paragraph 8.
 - 22 Perhaps you could ask the question.
 - 23 A. Your Honour, may I answer the question?
 - I had already left the government. I had no longer
 - 25 any officials duties. My German friends asked me to go

- 10:40 1 see them in Cologne at Siemens, where I worked. On the
 - 2 way back, at Airport Charles de Gaulle, on the bus
 - 3 taking us to the airplane, I saw Mr Asher Avidan. I am
 - 4 giving you all these details so if you see him tomorrow,
 - 5 he might corroborate this.
 - 6 He greeted me -- I was a minister; he was from
 - 7 BSGR -- and he said, "Mr Minister Sylla, what are you
 - 8 now?" And [I] said, "I'm now a consultant and coming
 - 9 from Germany, where my former partners asked me to go
 - see them". "Are you back in Guinea? Do you have any
 - 11 official duties?" "No, no, I have no official duties in
 - 12 Guinea. I am now in private business". "Well, would
 - 13 you be interested in giving us advice, as a consultant?"
 - 14 And I said, "With pleasure, with pleasure. If you
 - believe that I can be of use to your activities, give
 - 16 you advice that would make you go along a line that
 - 17 would be of profit to the country, I would be pleased to
 - do so". And this is how Mr Asher Avidan asked me to
 - 19 provide that kind of work for them.
 - 20 This is what happened on that bus going from the
 - 21 terminal to the airplane. That's when it all took
 - 22 place.
 - 23 MR DAELE: The next-to-last paragraph of your second
 - statement, paragraph 11, you say that BSGR put an end to
 - 25 the cooperation with you in January 2009, and you state

- 10:42 1 that you were:
 - 2 "... under the impression that I had become useless
 - 3 to them, because they had find new influential support."
 - 4 So you seem to be suggesting here that they were
 - 5 working with you because you were a source of support,
 - 6 an influential support.
 - 7 A. No.
 - 8 Q. Well, then explain this paragraph 11.
 - 9 A. Well, I worked as a consultant for them for a year, and
 - 10 as soon as Mr Dadis Camara took power, Mr Avidan told
 - me, "Mr Sylla, we no longer need you". Does it mean
 - that I was influential? I was just a private
 - 13 consultant. That means that my services were no longer
 - 14 useful since Mr Dadis took power. And BSGR then got
 - 15 into contact with a new power, and things were moving on
 - 16 well for them, so they no longer needed advice for any
 - 17 other field.
 - A company is free to put an end to its cooperation
 - 19 with a consultant, with a freelancer, saying, "We no
 - 20 longer need your services". My supposition at the time
 - 21 was: well, I'm not influential. Dadis is in power, they
 - 22 have excellent relations with Dadis, and this is why
 - they are telling me they no longer need my services. It
 - doesn't mean that I held any position of influence.
 - 25 Q. Well, I was just asking this question because I wanted

- 10:43 1 to clarify matters. I wanted to make sure that there
 - 2 was no suggestion here on your side that you were
 - 3 working with BSGR in order to move forward their
 - 4 interests.
 - 5 A. No, no.
 - 6 MR DAELE: [No, okay.] Well, then I have no further
 - 7 questions for you, and I should like to thank you.
 - 8 DR SYLLA: Thank you.
 - 9 THE PRESIDENT: Well, I believe this is the right time for
 - 10 a break, because you have been testifying for almost two
 - 11 hours. After that, do you think you will have any
 - 12 questions?
 - 13 MR OSTROVE: We would like to check among us.
 - 14 THE PRESIDENT: Yes, you can tell me after the break.
 - 15 MR OSTROVE: There's one thing that would help me, however.
 - 16 I was looking for a document to which Mr Daele referred
 - 17 today, and yesterday as well, but we have not reacted to
 - 18 that yet. It's a reference to a BBC article which
 - 19 apparently said that we had reimbursed a great deal of
 - 20 money. I haven't found this. If you can tell me what
 - 21 the annex number is, because I would like to read the
 - document myself, since you have referred to this
 - 23 document.
 - 24 MR DAELE: There is no annex reference number, because that
 - was not part of our file. I saw it yesterday, and

- 10:45 I didn't even submit that to the Tribunal; I just asked
 - 2 the witness whether he was aware of an article that
 - 3 appeared on the BBC website.
 - 4 MR OSTROVE: Madam President, I believe that's somewhat
 - 5 anomalous, the fact that the document is being quoted to
 - 6 ask the witness to make a comment on it. However, we
 - 7 cannot check on the contents of that document, what that
 - 8 document said, so that later, in re-direct, we could
 - 9 mention it. That makes it possible for a certain amount
 - of suspicion to be trailing along, which we don't
 - 11 believe is normal.
 - 12 THE PRESIDENT: I believe that both witnesses have said that
 - 13 they were not aware of that article, and that that
 - 14 wasn't at all the amount in question. So from that
 - particular vantage point, I don't think there is
 - 16 a difficulty.
 - 17 But it is true that in principle, Mr Daele, if you
 - ask a question of a witness, it should be in connection
 - 19 with a document on our case file; or in that case you
 - 20 draw attention to the fact that the document is not in
 - 21 the case file and you ask for authorisation to refer to
 - 22 it. Because it could be useful for your adversaries to
 - take a look at the document, and the witness also to
 - 24 consult that document if needed.
 - 25 MR OSTROVE: But if there's no implication trailing along --

- 10:46 1 we thought that the witnesses had been called to pay
 - 2 back millions. But if that is not present in the case
 - 3 file anymore ...
 - 4 MR DAELE: I'd like to apologise if necessary. I will no
 - 5 longer ask any questions on that to other witnesses, if
 - 6 you have a problem with that.
 - 7 THE PRESIDENT: It is true that there are still two other
 - 8 witnesses who might be asked these questions. It is
 - 9 better perhaps to give up that line of questioning
 - 10 already.
 - 11 MR DAELE: Very well then.
 - 12 THE PRESIDENT: Mr Ambassador, I will ask you during the
 - 13 break, please, to refrain from speaking to anyone about
 - 14 your testimony. So it would be better indeed, sir, to
 - 15 refrain from speaking to anyone at all.
 - 16 DR SYLLA: No, I will remain seated here and I will wait for
 - 17 you to come back.
 - 18 THE PRESIDENT: No, of course not, sir. You can go out of
 - 19 the room, go out for a breath of fresh air. 15 minutes.
 - 20 DR SYLLA: Your Honour, I would like to draw your attention,
 - 21 with your permission, that I have to go to Brussels.
 - 22 THE PRESIDENT: Yes, you have to leave here when?
 - 23 DR SYLLA: I would have to leave at 1.00 pm at the very
 - 24 latest.
 - 25 THE PRESIDENT: Oh, fine, there's no problem. You will be

- 10:47 1 finished way before that. Thank you.
 - 2 DR SYLLA: Thank you very much, madam.
 - 3 (10.48 am)
 - 4 (A short break)
 - 5 (11.07 am)
 - 6 THE PRESIDENT: I believe we are all ready to resume.
 - 7 Ambassador, are you ready?
 - 8 DR SYLLA: Yes, ma'am.
 - 9 MR OSTROVE: I have several items of good news to announce
 - 10 for Guinea.
 - 11 First of all, it would seem that the bank strike has
 - 12 been settled. The good news is that Mr Nabé will be
 - able to travel tonight. So there won't be any video
 - 14 conferencing; he will be able to be here for his
 - 15 testimony on Thursday.
 - Another piece of good news is that I have no
 - 17 questions for the ambassador.
 - 18 THE PRESIDENT: Do my co-arbitrators have any questions for
 - 19 Ambassador Sylla?
 - 20 (11.08 am)
 - 21 Ouestions from THE TRIBUNAL
 - 22 THE PRESIDENT: I must say that in the answers you provided
 - to the questions put to you by the counsel for [BSGR]
 - 24 you had covered, sir, practically everything I had, that
 - I was interested in more particularly.

- 11:08 1 In your first statement, however, you do mention in
 - 2 paragraph 13 that during your second term, beginning in
 - 3 May 2006, President Conté was already very ill. What
 - 4 was the impact of that on the discharge of your duties
 - 5 as member of the government?
 - 6 A. Thank you, your Honour.
 - 7 His state of health at the time was really
 - 8 declining. He had gone to Geneva several times for
 - 9 treatment. He was very ill. And he had entrusted the
 - 10 coordination of governmental activities first of all to
 - 11 the Prime Minister and then to someone who was
 - 12 Coordinator -- the official title -- Coordinator of
 - Governmental Activities, because he himself was very
 - 14 weak and also psychologically he was very vulnerable,
 - 15 easy to influence, because he no longer had all his wits
 - 16 about him. He was already in a very serious state of
 - 17 health. Things weren't really going well at all for
 - 18 him.
 - This is what I wanted to say here.
 - 20 THE PRESIDENT: You said that he was surrounded by
 - 21 a veritable mafia?
 - 22 A. Yes, these were people who took advantage of his
 - 23 position. You know that when the head of state is ill,
 - and the royal court -- and I'm sorry to be using these
 - words; you will allow me to use these words -- everybody

- 11:10 1 is trying to get things going in their way, what will
 - 2 best suit them.
 - 3 Unfortunately that is what is happening. Otherwise,
 - 4 madam, there wouldn't be a decree issued in the morning,
 - 5 and then in the evening another decree issued to repeal
 - 6 the morning decree. Sadly that was the state of affairs
 - 7 at the time.
 - 8 THE PRESIDENT: Yes. This was a period that lasted several
 - 9 years?
 - 10 A. Well, the very critical years were 2006, 2007 and 2008.
 - 11 And after that, he passed away on 22nd December 2008.
 - 12 He suffered tremendously.
 - 13 THE PRESIDENT: You told us that you were the "father" --
 - 14 I think this was the word you used -- of the strategy?
 - 15 A. No, I apologise, your Honour. I said I was the founding
 - 16 father of the first Mining Code of Guinea.
 - 17 THE PRESIDENT: Yes, of the Guinean mining strategy.
 - 18 A. Well, madam, in 1986, when President Conté called upon
 - 19 me, I came in and I realised that my country had no
 - 20 mining code and no environmental code, and I got the
 - 21 support of the World Bank in order to draft the very
 - first Mining Code of the Republic of Guinea.
 - 23 THE PRESIDENT: Was that the 1995 Mining Code?
 - 24 A. No, 1986. He asked me to come and join him in 1985. On
 - 25 1st January 1986 I stepped into office. Prior to that,

- 11:12 1 I was chief of department at Siemens.
 - 2 THE PRESIDENT: Yes, this is what I had read. I thought
 - 3 that you had a very interesting career.
 - 4 A. Thank you very much, your Honour.
 - 5 THE PRESIDENT: You also spoke to us about the mining
 - 6 strategy, you explained the pillars of that strategy:
 - 7 processing of raw materials, diversification.
 - 8 I am perhaps going beyond the subject at hand here,
 - 9 the various facts that you mentioned in your testimony;
 - 10 I may be overstepping that particular ambit. However,
 - 11 I am interested in your answer, because you left the
 - ministry after some ten years.
 - 13 How do you assess the progress made in the
 - implementation of that strategy? Is it the same
 - 15 strategy? Is it moving forward? How do you view
 - 16 things, sir?
 - 17 A. Well, I must say, if I can speak honestly, very, very
 - honestly, ever since the arrival of his Excellency the
 - 19 President of the Republic -- because I don't want you to
 - 20 say this is the ambassador speaking.
 - 21 THE PRESIDENT: No, no, I'm putting the question to
 - 22 Dr Ousmane Sylla.
 - 23 A. Well, then I shall answer in that capacity.
 - 24 Ever since the arrival of the President of the
 - 25 Republic Alpha Condé, the reforms undertaken in the

11:13

1 mining sector had been highly courageous reforms. The
2 present government has noticed that in order to
3 implement the strategy that I mentioned earlier, there
4 is one essential element to that my country needs, and
5 that is energy. Without energy, we can't speak of
6 processing raw materials.
7 So the head of state, with his government, have

1.3

So the head of state, with his government, have launched a very wide-ranging campaign to construct hydroelectric dams in order to have the necessary power in order to process raw materials. That is the key element right now.

Second, the President wants to create special economic areas in order to develop the processing of raw materials; that is to say, not just to focus on mining the raw materials, but also the agro industry which is of importance to the country. He always says this: it's not mines that is the key element, but agriculture. Mining can be used as one of the levers -- not the lever, but one of the levers -- for economic development.

Therefore, by creating special economic development zones, we cannot only get a mining industry, an aluminium factory set up, but also the processing of our agricultural raw materials which for the timing are not really being used properly, like mangoes and others, that are allowed to rot if the harvesting is not done in

- 11:15 1 due time.
 - 2 This is why a lot is being done right now. In
 - 3 mining, obviously mining has gone forward very strongly
 - in the area of aluminium, for instance. Two/three
 - 5 factories are now being set up, at the present time. We
 - 6 need to go down the aluminium path definitely,
 - 7 definitely, but for that we need a great deal of power.
 - 8 Therefore we have to have new hydroelectric dams, one of
 - 9 them which is almost on the verge of being inaugurated.
 - So I'm being optimistic, with everything that has
 - 11 happened today. I'm optimistic that in the years to
 - 12 come, between now and 2020, 2022, 2024, we shall have in
 - Guinea an industrial boom, which is already in the
 - offing. However, our partners would also have to play
 - 15 the game along with us; in other words, that they would
 - 16 accept that we cease exporting raw materials and that we
 - 17 process them in the country.
 - I can give you a story, with your permission, madam.
 - 19 When I stepped into office in 1986, the CBG, which was
 - 20 under the stewardship of Alcoa, which was the biggest
 - 21 aluminium company in the world, in their first
 - 22 agreements had promised to Guinea that in the ten years
 - 23 to come, they would have an aluminium factory. But in
 - 1986 I noticed that the aluminium factory wasn't there.
 - 25 So I went to see Mr Parry, who was the chief

- 11:17 1 executive officer of Alcoa, and I showed him the file
 - 2 and said, "You had promised this, and so far we haven't
 - 3 seen that aluminium factory anywhere". So I asked Alcoa
 - 4 to fulfil their pledge and to build that aluminium
 - 5 factory. So the aluminium factory unfortunately, up
 - 6 until my departure from the mining industry, had not yet
 - 7 been set up, and they are now promising that they will
 - 8 set up that aluminium factory.
 - 9 So this is what I said, and I repeat: right now
 - there's a tremendous amount of dynamism, there's
 - 11 a momentum going forward, and I hope that with the new
 - 12 hydroelectric dam, we will be able to get to process
 - 13 bauxite into aluminium in the country. But iron ore is
 - not just exporting raw iron ore; we should have steel
 - 15 mills in the country. We must have added-value
 - 16 possibilities in the country. It is tremendously
 - important for us.
 - 18 THE PRESIDENT: But you speak to us about aluminium; that is
 - 19 bauxite.
 - 20 A. Yes, definitely.
 - 21 THE PRESIDENT: From the viewpoint of exploiting the other
 - 22 mining resources, what is your assessment of the
 - 23 situation?
 - 24 A. My assessment is positive, because my government is keen
 - 25 to see to it that this processing is done. In the

- 11:18 1 negotiations to come, I'm sure that the Mine Ministry
 2 will be asking -- will be concentrating on processing.
 - 3 Processing should be the priority.

17

18

19

20

21

22

23

24

25

- When our partners realised that there are other

 companies also -- well, as I told you, there are two

 aluminium factories in the pipeline -- the partners will

 no longer come to us to say, "You have to export

 bauxite". They will know that we will be exporting

 aluminium.
- There we also need railways. We need that long
 railway line that we need in our country that is going
 to be the backbone for the industrial development for
 the country, from the jungle to the coast. It will be
 fantastic: it will create thousands of jobs.
- 15 And we should stop exporting raw iron ore; we should 16 begin and start processing iron on the spot.
 - In diamonds, this is another one of the projects which has been reactivated by the ministry. Guinea has very top-grade diamonds, but Guinea has another advantage: we have a very good Mining Code right now.

 We are surrounded by some diamond-producing countries, like Sierra Leone, Côte d'Ivoire, Liberia in smaller quantities. One of our ideas was to create in Guinea a place where diamonds would be cut and polished. We wanted even to set up a diamond undertaking for all four

- 11:19 1 countries.
 - 2 Going to gold, gold also for almost a century.
 - 3 We've been producing gold ever since the Mandinka
 - 4 Empire. A lot of our gold was exported even all the way
 - 5 to Mecca. So why not have a smelter in Conakry, try and
 - 6 recover the raw gold, take it to Conakry, have
 - 7 a smelting factory there and process our gold there?
 - 8 This is all part of the present plans of the
 - 9 government. I'm rather optimistic as regards the
 - 10 further industrial development of the mining sector.
 - 11 THE PRESIDENT: Well, thank you very much indeed, sir. It
 - 12 was very interesting listening to you. This takes us
 - 13 away from the immediate concerns of this file, but it is
 - 14 also good every once in a while to have a much broader
 - 15 view.
 - 16 Thank you very much, Ambassador. That brings your
 - 17 testimony to an end -- no, perhaps I was rushing.
 - Mr Daele, you may perhaps have other questions
 - 19 arising from the questions by the Tribunal.
 - 20 MR DAELE: Yes, I do have one question, a very short one.
 - 21 (11.21 am)
 - 22 Further cross-examination by MR DAELE
 - 23 Q. You said that because of the President's illness, there
 - 24 were persons who sought to take advantage of his
 - 25 illness. While you were minister and while you were

- 11:21 1 a consultant, did you see that BSGR attempted to take
 - 2 advantage of the President's illness?
 - 3 A. No.
 - 4 MR DAELE: That was my only question.
 - 5 THE PRESIDENT: Thank you.
 - 6 This time we have truly come to the end of your
 - 7 examination, Mr Ambassador. Thank you.
 - 8 DR SYLLA: Your Honour, thank you very much. It was very
 - 9 interesting for me too, and I can only hope that truth
 - 10 will be revealed.
 - 11 THE PRESIDENT: [Thank you very much.] I believe that we
 - can move on to the next witness without a pause.
 - 13 MR OSTROVE: Minister Kanté is here and he's ready to come
 - in. (Pause)
 - 15 (11.26 am)
 - 16 MINISTER AHMED KANTÉ (called)
 - 17 (Evidence interpreted)
 - 18 THE PRESIDENT: Mr Minister, good morning. For the purposes
 - 19 of the transcript, could you please confirm that you are
 - 20 Ahmed Kanté?
 - 21 A. Yes.
 - 22 THE PRESIDENT: Are you director general of SOGUIPAMI?
 - 23 A. Yes.
 - 24 THE PRESIDENT: You were Minister of Mines and Geology
 - during a period of interest to us: that is, March 2007

- 11:26 1 to August 2008. Is that correct?
 - 2 A. Yes, it is.
 - 3 THE PRESIDENT: You have submitted a written witness
 - 4 statement dated December 8th 2015?
 - 5 A. Yes.
 - 6 THE PRESIDENT: Do you have it with you?
 - 7 A. Yes.
 - 8 THE PRESIDENT: You are heard as a witness. As a witness,
 - 9 you have the obligation to tell the truth. Can you
 - 10 please confirm that this is so by reading the witness
 - 11 [declaration] that you have before you.
 - 12 MINISTER KANTÉ: I solemnly declare upon my honour and
 - 13 conscience that I shall speak the truth, the whole
 - truth, and nothing but the truth.
 - 15 THE PRESIDENT: Thank you.
 - We will first hear from Guinea's counsel for
 - 17 questions, and then for cross-examination, counsel for
 - 18 BSGR will be putting questions to you.
 - 19 Mr Ostrove, you have the floor.
 - 20 MR OSTROVE: [Thank you, Madam President.]
 - 21 (11.27 am)
 - 22 Direct examination by MR OSTROVE
 - 23 Q. Good morning.
 - 24 A. Good morning.
 - 25 Q. Do you have a copy here of your statement, RWS-4?

- 11:28 1 Before we begin, are there any changes or corrections
 - 2 that you would like to make to this statement?
 - 3 A. Yes.
 - 4 O. What are these?
 - 5 A. Paragraph 22.
 - 6 Q. What is the correction that you would like to make?
 - 7 A. Instead of "September 2008", it's "August 2007".
 - 8 Q. I'm sorry, could you repeat that?
 - 9 A. "August 2007".
 - 10 Q. Are there any other changes or corrections you wish to
 - 11 make to your witness statement?
 - 12 A. No.
 - 13 MR OSTROVE: Madam President, I have no further questions.
 - 14 THE PRESIDENT: Mr Daele.
 - 15 MR DAELE: [Thank you very much.]
 - 16 (11.29 am)
 - 17 Cross-examination by MR DAELE
 - 18 Q. Good morning, Mr Kanté. Welcome. My name is
 - 19 Karel Daele, I am one of the lawyers representing BSGR.
 - 20 I will endeavour to examine you in French, although
 - 21 this is not my mother-tongue, but I believe it will help
 - 22 to improve our discussion. If at any moment I lapse
 - into using the "tu", the informal form, with you, I do
 - 24 apologise. I shall endeavour to use the formal form,
 - 25 the "vous" form. So if I use "tu", it is not out of

- 11:29 1 a lack of respect.
 - 2 I propose to go through your witness statement, and
 - 3 if I refer to the paragraphs in your statement, I shall
 - 4 endeavour to do it chronologically. I will also
 - 5 indicate the paragraph number, to facilitate things.
 - In paragraph 5 you say that you worked for the
 - 7 Central Bank from 1984 to 2007, and you say that you
 - 8 left the Central Bank to become Minister of Mines. Does
 - 9 this mean that you had no particular expertise in the
 - 10 mining sector when you were appointed minister?
 - 11 A. No. When I was working for the Central Bank, I was
 - 12 responsible for the relations between the Central Bank
 - 13 and the mining companies. I was a member of the board
 - for the SMD, and I was responsible for all of the
 - operations involving the transfer of gold with respect
 - to the different mining companies.
 - 17 Q. Was your experience then limited to gold, or did you
 - have broader experience, or were you experienced with
 - iron ore and bauxite while you were with the
 - 20 Central Bank?
 - 21 A. No, I did not have operational experience. But as you
 - 22 can imagine, as a member of the board of a mining
 - company in a country that has significant mining
 - 24 resources, one of course has knowledge over all of the
 - 25 resources, and that was my case.

- 11:31 1 Q. Were you appointed by President Conté?
 - 2 A. Yes, I was appointed by President Conté. But it was the
 - 3 Prime Minister of the time, Mr [Kouyaté], who saw me,
 - 4 along with other officials, to have a discussion with me
 - 5 and to offer the position.
 - 6 Q. When you were appointed, did you receive instructions or
 - 7 directions from President Conté in terms of your
 - 8 policies as future Minister of Mines?
 - 9 A. No. As you know, at the time, unlike the previous
 - 10 governments, the Prime Minister was the head of
 - 11 government. So the responsibilities and expectations
 - 12 for ministerial portfolios were drafted and we all saw
 - 13 what our responsibilities were, as well our road map.
 - 14 Actually these were established during a retreat
 - that was organised at the Bel Air Hotel in Boffa, and
 - this took place over a period of four days. Some
 - 17 embassies were also invited to this retreat and they
 - were able to follow how the new governmental team was
 - 19 starting off.
 - 20 O. But the President wasn't there?
 - 21 A. The President was not the head of government.
 - 22 Q. The head of government would be then the Prime Minister,
 - the then Prime Minister, Lansana Kouyaté?
 - 24 A. That's correct.
 - 25 Q. Did the Prime Minister give you directions at the

- 11:33 1 beginning of your tenure?
 - 2 A. Yes, of course.
 - 3 Q. Could you tell us: what were those directions that you
 - 4 received?
 - 5 A. Allow me to summarise the situation.
 - 6 The directives given to the government as a whole
 - 7 were clearly set out in the tripartite agreement that
 - 8 was signed between the trade unions, the employers and
 - 9 the government. This tripartite agreement put an end to
 - 10 the crisis, the violent crisis that was afflicting
 - Guinea in the period 2006/2007. And during this period
 - of crisis, all of the governmental infrastructure,
 - 13 particularly everything to do with law enforcement and
 - justice, were destroyed across the country.
 - 15 So in order to restore calm, there was a letter, and
 - this is what we call the "tripartite agreement". And
 - 17 under this agreement, the mining sector had to review
 - all of the agreements in place and had to review as well
 - 19 the conventions, because it was well known that Guinea
 - 20 was not sufficiently benefiting financially from the
 - operations of these natural resources.
 - 22 And then we had to clean up the mining cadastre. It
 - 23 was also well known that the granting of permits was
 - 24 simply irrational, and that many companies that had
 - gotten mining permits had neither the technical

- 11:35 1 capability nor the financial capability necessary to
 - 2 honour the twelve commitments that are to be found in
 - 3 each one of the decrees whereby permits are granted.
 - 4 And then there was the issue of reorganisation. We
 - 5 needed to reorganise the ministerial departments, whose
 - 6 performance as public service providers were being
 - 7 impugned by the population. So this was this measure
 - 8 that was cross-cutting for the whole government, but it
 - 9 also affected the mining sector. And we also had to
 - 10 clean up the way the mining sector worked and also the
 - 11 relationship between the mining companies and the mining
 - 12 administration.
 - 13 So this is a broad outline of what directions were
 - 14 given to the Minister of Mines.
 - 15 Q. I will attempt to summarise. Is it fair to say then
 - 16 that the government's objective and policy was to
 - 17 promote real investment in the mining sector?
 - 18 A. Yes, of course. That's it.
 - 19 Q. And this was also the will of the Guinean people?
 - 20 A. Yes, it was. But it also had to go hand-in-hand with
 - 21 a cleaning-up exercise of what existed.
 - 22 Q. Did you receive specific directives on the BSGR or
 - 23 Rio Tinto dossiers?
 - 24 A. Not specifically, especially because for the purposes of
 - 25 implementing these directives there was

- 11:37 1 an inter-ministerial committee that was created called
 - 2 CIRCOM(?), with representatives of all the ministries
 - 3 that were involved in the mining sectors, but also
 - 4 representatives of trade unions and civil society. So
 - 5 this committee could not receive directives or
 - 6 directions from any company. They were tasked with
 - 7 looking at all of the conventions and all of the
 - 8 agreements signed by the Republic of Guinea and that
 - 9 were in force at the time.
 - 10 Q. Would it be an overstatement to say that because of the
 - 11 President's illness, some of the President's power had
 - 12 somehow shifted to the Prime Minister and the committee
 - 13 that you've just referred to, whose name I didn't quite
 - 14 grasp?
 - 15 A. No, this committee was not just involved with the mining
 - 16 sector. I always say: look to the tripartite agreement.
 - 17 The President agreed to waive some of his powers, to
 - grant it to the government, that was labelled the
 - "Government of Consensus". It was completely
 - 20 understood.
 - 21 Q. When you were appointed, did you talk to your
 - 22 predecessor, Mr Souaré?
 - 23 A. No, it was Mr Sylla.
 - 24 Q. Did you speak with Mr Sylla?
 - 25 A. Yes, I did.

- 11:39 1 Q. Did you prepare the transition and did you talk with him
 - 2 to this purpose?
 - 3 A. Yes, we talked.
 - 4 Q. Did you talk about the BSGR situation?
 - 5 A. We talked about all dossiers, including BSGR, of course.
 - 6 Q. Do you recall the content of this discussion? Do you
 - 7 recall what Mr Sylla said about BSGR?
 - 8 A. No, not specifically. The directives that were being
 - 9 implemented by Mr Sylla's ministry were different from
 - 10 the directives that we had. So I don't see why he could
 - 11 talk to me specifically about a given company. We know
 - 12 they are the major companies, major players, and any
 - 13 Minister of Mines would be aware of this. And on the
 - 14 major dossiers, of course there was the Simandou case,
 - there was CBG, there was the ASAG(?) and so on.
 - 16 Q. So in terms of Simandou, do you remember what Mr Sylla
 - 17 said?
 - 18 A. No, I do not recall specifically what he said. You
 - should think that when you pass on your portfolio to the
 - 20 next minister, you spend a day together. We spoke for
 - 21 five to ten minutes, and since our instructions were to
 - 22 pass on the ministerial portfolios as quickly as
 - 23 possible, we basically got together to make the
 - necessary speeches, to sign the relevant documents.
 - 25 Q. In paragraph 9 of your statement, you say that:

- 11:41 1 "In March 2011 [you were] appointed
 - 2 Minister-Councillor in charge of Mines within the
 - 3 Presidency ..."
 - 4 Who appointed you to this position?
 - 5 A. It was President Condé.
 - 6 Q. The current President?
 - 7 A. Yes.
 - 8 Q. This was in March 2011. Did you advise him on the
 - 9 agreement between Rio Tinto and the government that was
 - 10 signed on April 22nd; that is, six weeks after your
 - 11 arrival in your position?
 - 12 A. No.
 - 13 Q. In paragraph 11 you say that:
 - "[You] learned about the BSGR company a few months
 - 15 after [your] arrival ..."
 - 16 The timeframe that you give here, a few months after
 - 17 you became minister, first of all this confirms what you
 - just said: namely that when you were appointed, there
 - was no talk about BSGR, and it was a few months later
 - 20 that you learned for the first time that BSGR existed.
 - 21 Is that correct?
 - 22 A. No --
 - 23 Q. Because you say:
 - "I became aware of the existence of [this company]
 - 25 a few months after my arrival at the ministry ..."

- 11:43 1 So let me reword my [question]. Did you learn of
 - 2 the existence of BSGR before this period that you refer
 - 3 to here?
 - 4 A. No. We simply cannot remember word by word what was
 - 5 said at this moment, this very heightened moment. But
 - 6 subsequently, the companies themselves ask to come and
 - 7 see the minister, and of course you schedule these
 - 8 visits because this is tradition.
 - 9 Q. In terms of timing, when would this be, when you say
 - 10 "a few months after [you] arrived at the ministry"? You
 - 11 became minister in March. So a few months later, would
 - this be in the summertime, July/August?
 - 13 A. I think towards August 2007.
 - 14 Q. This means that before then, BSGR didn't solicit
 - a meeting with you, didn't try and meet with you in
 - order to explain the situation, between the time you
 - became a minister and the month of August?
 - 18 A. No. As I told you, there was a letter sent by BSGR
 - 19 before this. But in the context of the time, there were
 - 20 close to 100 companies that want to meet with the
 - 21 minister, and it's based on your agenda that you can
 - 22 schedule such meetings.
 - 23 Q. Here you are referring to a letter, so it was formal.
 - 24 BSGR had sent a letter saying that they wished to see
 - you. And you said that this was standard procedure?

- 11:45 1 A. Yes, that's correct.
 - 2 Q. During this meeting that was held in August 2007, BSGR
 - 3 explained what they did, and you say in paragraph 13
 - 4 that Mr Avidan was there and that Mr Ibrahima Sory Touré
 - 5 was there as well.
 - 6 Do you recall whether Mr Sory Touré mentioned during
 - 7 this meeting that he was linked in any way to the
 - 8 President's family?
 - 9 A. No.
 - 10 Q. Was Mamadie Touré present at this meeting?
 - 11 A. No.
 - 12 Q. In paragraph 14 you say that BSGR explained the work
 - that they'd been doing, and in paragraph 15 you say that
 - 14 Mr Avidan also said that BSGR was keen in getting the
 - 15 blocks held by Rio Tinto?
 - 16 A. Yes.
 - 17 Q. Then you give an explanation on Rio Tinto's zones. You
 - go into some technical detail in paragraph 16.
 - 19 As regards this concession, can you explain to us
 - 20 what are the different stages corresponding to
 - 21 Rio Tinto's rights?
 - 22 A. Rio Tinto's rights?
 - 23 Q. Yes, because here you talk about Rio Tinto's rights.
 - 24 Maybe I can help you. Is it correct that Rio Tinto
 - 25 received the first permit in 1997, the first permit that

- 11:47 1 covered a three-year period?
 - 2 A. Yes, that is correct.
 - 3 Q. When this came up for renewal in 2000, what should have
 - 4 happened? How should this have happened, to renew the
 - 5 permit?
 - 6 A. What the 1995 Mining Code stipulated -- and that was the
 - 7 Mining Code that was still in force, and this applied to
 - 8 Rio Tinto and to any other company -- [was] that after
 - 9 three years the results of studies had to be submitted,
 - 10 and if possible a feasibility study. So all of the
 - 11 information collected within the perimeter of the zone
 - 12 had to be submitted, along with a plan for retroceding
 - or returning half of the perimeter that had been
 - 14 granted. So Rio Tinto, a few years later, did that.
 - 15 Q. It did all of that?
 - 16 A. Well, what they did is they submitted a plan for
 - 17 retrocession, reducing their initial perimeter by half.
 - 18 This was done. As for the results of their work that
 - 19 they had to submit to the state, they did submit
 - 20 something, and I have to say I later came to consider
 - 21 that this was incomplete.
 - 22 Q. Do you consider that the renewal of the permit, given
 - 23 the absence of results, do you consider that it was done
 - 24 legally?
 - 25 A. No, the renewal is legal, because there is not a list of

- 11:49 1 actual results that have to be submitted. We have the
 - 2 Mining Law, and then you have implementing decrees that
 - 3 lay out everything, the detail of each article. But if
 - 4 you don't have implementing legislation, then the mining
 - 5 companies had a certain amount of leeway: they could
 - 6 either give some information or not give some
 - 7 information they thought was more strategic.
 - 8 So what I can say is that the retrocession that was
 - 9 done by Rio Tinto was formally acceptable.
 - 10 Q. Did you not announce in 2009 that the renewal was
 - 11 actually not legal, during the mining forum?
 - 12 A. No, not for the first renewal. We said something about
 - 13 the subsequent renewal.
 - 14 Q. So we are coming to the second renewal. This would be
 - in 2002. Did you consider that that renewal was legal
 - or in accordance with the Mining Law?
 - 17 A. What does the Mining Law say? It says that you have
 - 18 three years, then you have to retrocede half the
 - 19 perimeter and you have to give results. Then you have
 - 20 two more years to actually deliver on the perimeter and
 - 21 to come up with a feasibility study. If you're unable
 - 22 to produce the feasibility study, then you have to
 - 23 return once again half of what you have left, and you
 - 24 keep only half, the other half.
 - 25 What happened in Rio Tinto's case was that given

- 11:51 1 that the two additional years had come to an end and
 - 2 they still hadn't produced a feasibility study, they
 - 3 simply directly went for a concession and a convention,
 - 4 because if they had a concession or convention, it meant
 - 5 that they would not have to retrocede anything further.
 - 6 And this is precisely what was being contested.
 - 7 Q. But the process that you're describing now, was this in
 - 8 accordance with the Mining Law?
 - 9 A. What was done?
 - 10 Q. Yes.
 - 11 A. It depends on the interpretation.
 - On the one hand, Rio Tinto told the government that
 - mobilising the finances necessary for such a project was
 - 14 conditional on the consolidation of the mining rights
 - vis-à-vis those who would be financing them, and that
 - 16 was understandable. On the other hand, there were those
 - 17 who were very strict about applying the Mining Code, and
 - 18 they said that two years later, if you didn't have
 - 19 a real feasibility study, then you had to retrocede
 - 20 a second time.
 - 21 Q. So in 2002 they should have retroceded 50% of the zone?
 - 22 A. Can you say that again?
 - 23 Q. In the commission that was signed, there was no such
 - 24 retrocession?
 - 25 A. That's exactly it. It's as if one stage had been

- 11:52 1 skipped over, and that was exactly what was challenged.
 - 2 Q. Then there was the concession granted in 2006. Did you
 - 3 consider that this was done in accordance with the law?
 - 4 A. At the time it was not my role to pass judgment on this.
 - 5 When I did consider was that under normal circumstances,
 - 6 that in 2002 they should have retroceded the 50% for the
 - 7 second time, and I believe that's what was done later
 - 8 on.
 - 9 Q. Did you describe this concession as "paradoxical" --
 - I think this is the word that you used -- in 2009?
 - 11 A. In 2009 it was not me; there was a committee. The
 - 12 committee produced a report that was highly relevant,
 - 13 and in fact this debate was public, and I did not chair
 - 14 that commission.
 - 15 Q. In paragraph 18 you say that you understood at the time
 - 16 that BSGR did not have the technical nor the financial
 - 17 resources in order to carry out the prospecting work.
 - But the permits that they got were granted in 2006 and
 - 19 2007 on the basis of the positive recommendation of the
 - 20 CPDM.
 - 21 Are you suggesting in this paragraph that the CPDM
 - is not competent?
 - 23 A. No, you have to look at things in the proper context.
 - I am passing judgment, but after making certain
 - observations. The titles were granted, they had two

- 11:54 1 years to perform. So I had evidence to justify whether
 - or not they had the financial or technical capability.
 - 3 At the time we were talking about a company that
 - 4 didn't have two or three permits; they had 23 permits.
 - 5 BSGR had 23 permits: four for uranium, about 12 for
 - 6 bauxite, and the rest for iron ore. You can understand
 - 7 that one company might have some trouble with one or two
 - 8 permits, but that they be stumbling over 23 permits,
 - 9 this clearly was evidence that they did not have the
 - 10 technical or financial capability in order to be able to
 - 11 carry out the necessary prospecting in all areas.
 - 12 Q. But you will agree that CPDM, when it makes its
 - recommendation, is forming a judgment or is evaluating
 - 14 the technical and financial conditions of BSGR?
 - 15 A. The CPDM's appreciation is just at that particular
 - 16 moment. And for us within the mining administration
 - 17 it's to look at the performance of the company not just
 - on the basis of its background and its history, all over
 - 19 the world, but what they've actually delivered in
 - 20 Guinea.
 - 21 You can be a good performer in Brazil, Australia,
 - 22 wherever, but if in Guinea the twelve obligations that
 - you have undertaken by virtue of the permit that's been
 - granted to you, if you don't comply with these twelve
 - 25 commitments -- nobody is challenging the technical and

- 11:56 1 financial capability elsewhere. What is being
 - 2 challenged is just your capability vis-à-vis the
 - delivery on the permits you've been given. They were
 - 4 capable, they had money, maybe they were performing
 - 5 elsewhere. But in Guinea, for 23 permits, they were not
 - 6 performing.
 - 7 Q. But this is a retrospective look?
 - 8 A. My view was that they had the permits, they had enough
 - 9 time to develop.
 - 10 Let me give you an example. If a company really has
 - 11 the financial and technical capabilities, for instance,
 - 12 with a bauxite permit, they can go to develop and they
 - can complete development in six months. Here,
 - 14 20 permits for over two years, and clearly there was no
 - 15 result; nothing was delivered.
 - 16 We had at the time established a sort of classifying
 - 17 system for the companies, and BSGR was in the category
 - of companies that had too many permits, 23 permits for
 - 19 three strategic resources, iron ore, bauxite and
 - alumina, and they had not performed.
 - 21 Q. But when the CPDM is making this positive recommendation
 - 22 and your predecessors grant the permit, at that
 - 23 particular moment you did not criticise the CPDM or your
 - 24 predecessors; in other words, you're not critical of
 - 25 them for having given this permit?

- 11:57 1 A. No, one cannot be critical of them, because the
 - documents were provided by the company then were
 - 3 historical documents. In other words, they say, "This
 - 4 is what we've done for the last three years. Here are
 - our profit and loss statements. This is our bank
 - 6 holdings. These are the guarantees and the surety we
 - 7 can provide". CPDM should, under normal circumstances,
 - 8 grant the permits. Then it is only through trial and
 - 9 error and actual delivery that we see whether the
 - 10 company can do it or not.
 - Because a company can get a permit in a given
 - 12 country, and even though it may have the financial and
 - 13 technical capabilities to develop it, but for strategic
 - 14 reasons it may be wanting to freeze the resources, not
 - 15 to develop them. We are all familiar with this process.
 - 16 Q. Do you know if the President or Mamadie Touré or
 - 17 Ibrahima Sory Touré, acting on behalf of Mamadie Touré,
 - exerted pressure on the CPDM or on your predecessors in
 - order to get these permits?
 - 20 A. No. I did not manage what happened before I became
 - 21 a minister.
 - 22 Q. Under paragraph 18 you mention the general state and the
 - progress of the work. I presume that this has to do
 - with the cleaning-up process that you were referring to
 - earlier.

- 11:59 1 The general statement, was that something that was
 - 2 done on a regular basis? Was it done on a quarterly
 - basis, on a half-yearly, or ...?
 - 4 A. We would do that once a year. Once a year we would
 - 5 assess the situation. So this was the initial
 - 6 assessment that enabled us to see, not only for BSGR but
 - 7 for all of the permits on the territory, the state of
 - 8 progress, and to compare the state of progress vis-à-vis
 - 9 the twelve undertakings that can be found in the
 - 10 decisions, in the granting decisions.
 - 11 And before that, we had a meeting with all of the
 - 12 stakeholders saying, "This is what we're going to do".
 - 13 We said we'd look at each of the permits, to enable them
 - 14 to be present on each of the permits, in order to avoid
 - alleging, "At the time you did this, I wasn't there and
 - therefore I couldn't have proven my work". So this was
 - done for all of the permits.
 - 18 Q. This was an enormous job?
 - 19 A. Yes, indeed. It took us 45 days, but we did achieve it:
 - 20 30 days in the field, 15 days to draft the reports, and
 - 21 two more weeks to decide accordingly.
 - 22 Q. Do you remember more or less what date this general
 - 23 survey was completed, finalised? Was it at the
 - 24 beginning of your tenure?
 - 25 A. No, it was not at the beginning. It was most probably

- 12:01 1 during the last quarter of 2007, this sort of thing.
 - 2 I don't have the exact date. But if you like, we can
 - 3 look for the exact date.
 - 4 Q. You say that this report was based on field visits, or
 - 5 did I mistake what you said? Okay, let me reword my
 - 6 question. On the basis of what data did you establish
 - 7 these reports?
 - 8 A. What was done was to ask CPDM, to start with, to give us
 - 9 an assessment of all of the reports that had been
 - 10 presented by all of the mining companies in the research
 - 11 phase and those that were already exploiting the
 - 12 deposit. You know there is a document that grants the
 - permit, and within that there are quarterly reports that
 - have to be presented by each of the companies.
 - 15 So to start with, one had to assess the state of --
 - 16 well, the documentary assessment, because it was
 - 17 presented by the company. And secondly, there were
 - financial obligations that were linked to the holding of
 - 19 the permits; for instance, the surface tax that would go
 - 20 back to the communities, that sort of thing. Here again
 - 21 it was one of the columns, and you have twelve-odd
 - 22 columns in which you had obligations to supply the
 - documents.
 - So to start with, one would have the assessment of
 - 25 all of the companies that submitted the documents on

- 12:03 1 a regular basis and others that haven't. So we didn't
 - 2 stop there. We established four teams -- there are four
 - 3 general regions, so four regional teams -- and they went
 - 4 and worked in the field for one month and they came back
 - 5 and reported back.
 - 6 So it's work in the field, but also on the basis of
 - 7 the documents. It's the summary of those two that would
 - 8 lead to withdrawal or maintenance or validation of the
 - 9 titles.
 - 10 Q. How many permits were included? You said all of the
 - 11 permits. Are we talking about hundreds? Do you have
 - 12 an order of magnitude?
 - 13 A. There were more than 800, and we have withdrawn between
 - 14 180 and 220 such permits; for which, by the way, there
 - were BSGR permits.
 - 16 Q. So you withdrew permits from BSGR?
 - 17 A. Yes, for permits for which practically nothing had
 - 18 moved.
 - 19 Q. Do you know whether BSGR opposed or objected to the
 - withdrawal of the permits?
 - 21 A. Nobody objected, because it was done on a totally
 - transparent basis. In other words, they were
 - associated -- well, first of all, we called everybody to
 - say, "This is what we purport to do. These are your
 - 25 contractual obligations: there are twelve such

- 12:05 1 obligations. For each of these undertakings, we are
 - going to tick the box for those that have been fulfilled
 - 3 and those that haven't". So I can tell you there was no
 - 4 criticism at the time.
 - 5 Q. Do you know in what matter the BSGR permits were
 - 6 withdrawn? Was it bauxite?
 - 7 A. Well, it must have been bauxite, but also something
 - 8 else -- what's the name? -- uranium. But I have no
 - 9 precisions on this.
 - 10 Q. But you didn't withdraw any iron permits?
 - 11 A. Can you repeat?
 - 12 Q. Yes. North and South iron ore permits were not
 - 13 withdrawn?
 - 14 A. At the time, no.
 - 15 Q. Because you deemed that they were doing their job?
 - 16 A. Not all of the job. You know, we had determined
 - 17 a certain number of points because we had given each
 - line a certain number of points. So it means that BSGR,
 - 19 on the totality, had the average mark that had been
 - 20 chosen by the commission on those permits. But it
 - 21 doesn't mean to say that they did all of the job.
 - 22 Q. So on the permits that are the subject of our
 - 23 proceedings here, North and South, apparently they
 - passed, they got a pass, didn't they?
 - 25 A. Apparently, yes.

- 12:06 1 Q. But you were the ones to put them through the exam?
 - 2 A. No. No, no.
 - 3 Q. There is a service: you said, "together with my
 - 4 services". So your services did withdraw permits. So
 - 5 at the end of the day it's your services, because you
 - 6 were Minister of Mines. So your services decided to
 - 7 give them a pass on the permits that we're talking about
 - 8 today?
 - 9 A. It doesn't mean to say that I was there to hand out good
 - 10 marks or bad marks. This was done by the services in
 - 11 the field who carried out the censuses.
 - 12 Q. But you described the system with the columns.
 - 13 A. Yes, this is a suggestion to know on what basis a permit
 - 14 would be validated or not, because we were starting
 - 15 a new era where all of the questions could be raised,
 - 16 whatever the level.
 - 17 Q. Do you know whether BSGR tried to influence or to put
 - pressure on your services when you were in the process
 - of putting this assessment together?
 - 20 A. Look, attempts at influencing this or that, I cannot say
 - 21 anything about. But what is certain is that we made
 - 22 sure, through the work that was carried out, that the
 - 23 procedure be totally transparent, and anybody who would
 - 24 disagree may have the possibility of complaining about
 - 25 it as need be.

- 12:08 1 Q. Fine. So let me continue. We have reached your first
 - 2 meeting with BSGR in August 2008.
 - 3 A. 2007.
 - 4 Q. Sorry, yes, 2007, when they expressed their interest in
 - 5 the Rio Tinto blocks and you said, under paragraph 19,
 - 6 "No, you first need to work in the zones that you've
 - 7 already got". And you say under paragraph 20 that BSGR
 - 8 didn't react. Is it that they didn't say a thing? Did
 - 9 they object during the meeting, when you said no?
 - 10 A. You know, when you make such a proposal and you're being
 - 11 told that you need to perform better before you get
 - 12 anything else, and that you shouldn't apply for
 - something which is legally granted to somebody else, you
 - 14 can't say anything else. You can't say a thing.
 - 15 Q. Do you know whether BSGR then went to see the President
 - or Mamadie Touré to complain about your position?
 - 17 A. No. I considered it. If at a later stage I was asked
 - to go to the presidency and I met with them, it's not by
 - 19 accident; it's because they mentioned it.
 - 20 Q. But during that meeting they didn't say oh no, beware,
 - 21 because we're going to go and report this to the
 - 22 President or to Mamadie Touré, who is supporting us; you
 - 23 should be careful"?
 - 24 A. No, they couldn't speak this way to me.
 - 25 Q. You say under paragraph 21 that it's only after this

- 12:10 1 first encounter that you became aware that Mr Ibrahima
 - 2 Sory Touré was the brother of one of the President's
 - 3 wives. How did you hear about this?
 - 4 A. Well, these are rumours that were going around. I mean,
 - 5 when you have a hearing of that sort, especially when
 - 6 people are unhappy, they tend to gossip, and it gets
 - 7 back to me.
 - 8 Q. You say, "one of the wives of the President". Did the
 - 9 gossip say which wife was concerned? He was the brother
 - of which wife, since there were several?
 - 11 A. Well, look, as far as I was concerned, this was of no
 - importance whatsoever; none.
 - 13 THE PRESIDENT: What was of no importance?
 - 14 A. The fact that he should be the brother of the
 - 15 President's wife.
 - 16 THE PRESIDENT: It was of no importance, whatever the wife?
 - 17 A. None. And this was the case throughout the management
 - of the President. He was not the only one. I had to
 - 19 deal with a lot of other people who had permits who
 - 20 claimed that they were linked to Tom, Dick or Harry, but
 - 21 it was of no importance.
 - 22 MR DAELE: In paragraph 22 you describe your encounter with
 - 23 the President and BSGR in September. This is where you
 - 24 want to make your modification, isn't it? So it's
 - 25 September 2007, right?

- 12:12 1 A. Yes, because in September 2008 I wasn't there anymore.
 - 2 I was no longer there.
 - 3 Q. No, no, no, I'm not criticising you. I just want to
 - 4 make sure that I take a note of the right modification.
 - 5 PROFESSOR MAYER: (Interpreted) Is it September 2007 or
 - 6 August?
 - 7 A. August.
 - 8 MR DAELE: So you met with the President, he had called this
 - 9 meeting himself, and when he called you, did he explain
 - 10 why he wanted you to go and see him, on the phone?
 - 11 A. Oh, no, it wasn't a phone call.
 - 12 Q. You said, "I was called by the President". Did he call
 - you personally, or Mamadie Touré, or the President's
 - 14 services?
 - 15 A. I don't remember.
 - 16 Q. You say that he was sick during that period. But
 - 17 although he was ailing, were you under the impression
 - 18 that he was still aware of business, of what was
 - 19 occurring for instance in the mining sector, when you
 - 20 met with him?
 - 21 A. When I met with him at that particular time, yes.
 - 22 Q. And he was still capable of giving directives or
 - indications? He was still speaking clearly?
 - 24 A. The answer that he gave me proves this, yes.
 - 25 Q. And therefore he was also capable of understanding what

- 12:14 1 you were explaining to him?
 - 2 A. Yes, that's what I believe.
 - 3 Q. Was Mamadie Touré present at this meeting?
 - 4 A. No.
 - 5 Q. Were there other people present at this meeting?
 - 6 A. There were other people, but I can't remember who they
 - 7 were.
 - 8 Q. Because I think that you've already testified that there
 - 9 were always people around the President.
 - 10 A. Absolutely.
 - 11 Q. So it was not exceptional that there should be lots of
 - 12 people in the room?
 - 13 A. It was not a room; we were outside.
 - 14 Q. Yes, I apologise. So it wasn't exceptional that there
 - be people around the President, even if there were
 - a meeting with BSGR or yourself?
 - 17 A. No.
 - 18 Q. The fact that other people -- well, who was there?
 - 19 A. I don't remember.
 - 20 Q. Could it have been his attaché, his personal secretary?
 - 21 Even if you don't remember the names, what sort of
 - 22 people were around the President?
 - 23 A. You know, when you're asked to go to such a meeting and
 - 24 you find your President sitting under a tree with people
 - 25 around him, and immediately you see the BSGR

- 12:16 1 representatives, the rest doesn't count anymore, because
 - 2 what comes back to mind is your meeting with them and
 - 3 the fact that you were convoked by the head of state as
 - 4 a consequence of this meeting. Since it was a meeting
 - 5 that didn't in fact fare very well for them, you
 - 6 concentrate on the head of state, and the people around
 - 7 him don't really count very much. That's in those
 - 8 circumstances. So I can't tell you.
 - 9 Q. But are we talking about two people, ten people?

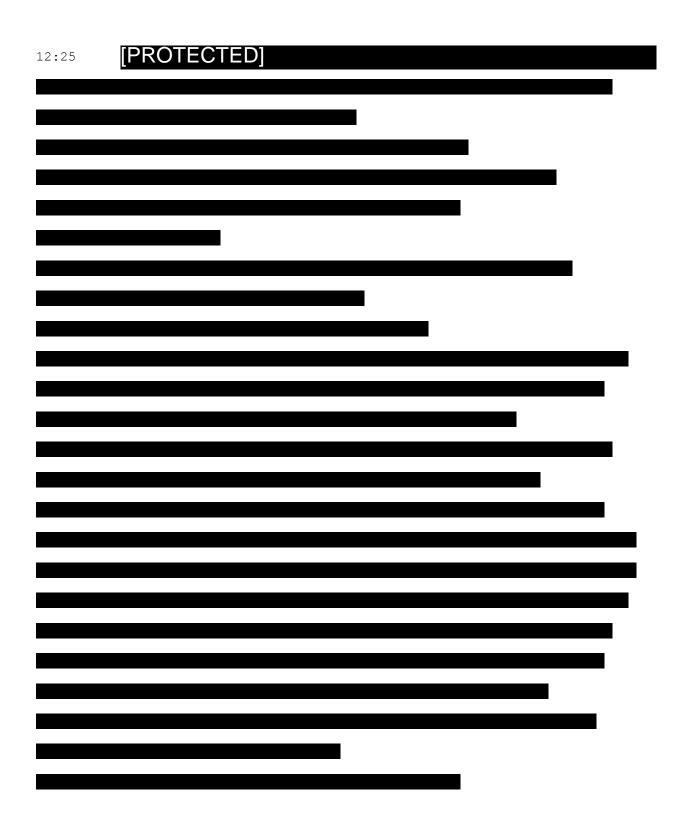

- 15 A. Well, look, when you arrive, he's seated there in front
- of you; maybe there could be two or three people behind
- 17 him, others on the side. It's not something that's
- formal, where everybody is sitting down; not at all.
- 19 You've got a few on one side, you've got bodyguards,
- 20 this and that. It was purely informal.
- 21 Q. The fact that they were there means that they have
- 22 a certain influence on the President?
- 23 A. I cannot judge this.
- 24 Q. You have never testified that people around the people
- 25 would put any pressure on the President?

- 12:17 1 A. If none of these people took the floor, you can only
 - 2 believe what you discussed yourself. If somebody else
 - 3 had spoken one way or another, you could have construed
 - 4 something or construed that there was a will to
 - 5 influence the President or not. But there it was only
 - 6 an exchange between the President and myself; nobody
 - 7 else took the floor.
 - 8 Q. In paragraph 24 you said that:
 - 9 "Asher Avidan made the introduction and came to
 - 10 speak about his problem."
 - 11 A. Yes, at the beginning.

- 7 Q. You also say in that paragraph that you don't know how
- 8 they had access to the President. So you don't know
- 9 whether the meeting was organised by Mamadie Touré or
- 10 Ibrahima Sory Touré?
- 11 A. Look, when you're dealing with a company of this type,
- 12 one of the PRs of which happens to be the brother of one
- of the President's wives, and you find yourself face to
- 14 face with this gentleman, with Asher Avidan, facing the
- President, the rest is just left to your imagination,
- unless you launch a police investigation to establish
- 17 the facts. So you imagine, obviously, that if this
- 18 meeting is taking place, it's because there was this
- 19 relationship.
- 20 Q. In your declaration you said:
- 21 "I don't know how they had access to the President."
- Do you maintain this?
- 23 A. Yes, I maintain, and it was of no interest to me.
- 24 Q. Mr Ibrahima Sory Touré was present too?
- 25 A. Yes. For this meeting, yes.

- 12:21 1 Q. We heard on several occasions that he was part of the
 - 2 President's family, right? During that meeting, were
 - 3 there warm contacts between Ibrahima and the
 - 4 President --
 - 5 A. Not at all.
 - 6 Q. -- since he belongs to the family?
 - 7 A. No, not at all. I told you that during this meeting,
 - 8 exchanges only took place between the President and
 - 9 myself. At no point in time did they interfere.
 - 10 Q. They didn't say "tu" to each other? After all, they
 - 11 were brothers or ...
 - 12 A. No.
 - 13 Q. So it would seem that Mr Avidan explained his problem.
 - 14 Just to make sure, can you clarify what the problem was?
 - 15 A. Well, I spoke bluntly with the President; I didn't beat
 - 16 about the bush.
 - 17 Q. Yes, but in your first phrase it says:
 - "[Mr] Avidan made the introductions and said that he
 - was talking about the problem."
 - 20 A. I went straight to the subject matter. The problem is
 - 21 that I had been to the offices that introduced -- that
 - 22 presented their companies that wished to extend their
 - 23 mining permits to those that are owned by Rio Tinto.
 - I explained to the President that Rio Tinto didn't
 - 25 have a research, they had a convention and a concession,

- 12:23 1 and that a decision of the minister could not contradict
 - 2 a convention that had been ratified by the National
 - 3 Assembly, nor a mining concession which has been signed
 - 4 by the head of state. These are the explanations that
 - 5 I gave them.
 - 6 Q. And the reaction of the President can be found in your
 - 7 paragraph 26, when you say that:
 - 8 "The only indication that the President gave me was
 - 9 to take decisions that comply with the nation's
 - 10 interest."
 - 11 A. Absolutely.
 - 12 Q. And how did you apply this?
 - 13 A. Well, my position -- it means that my position towards
 - 14 that problem was right, because had it been wrong, he
 - 15 could have conveyed so to me.
 - 16 Q. So this directive was perfectly normal?
 - 17 A. Yes, it complies. You will never see a minister attack
 - 18 the documents that have been signed by the head of
 - 19 state, nor the National Assembly.

12:28 [PROTECTED]

Q. Then you mentioned a second meeting with BSGR which took
place immediately after that meeting with the President,
in the course of which the President simply told you to
take the interest that would best serve the interests of
the country.

Then you say, therefore, in paragraphs 27 and 28,

- 12:30 1 that you have another meeting, and in the course of
 - 2 which:
 - 3 "Asher Avidan spoke to me as though the President
 - 4 had given formal instructions that I was to carry out
 - 5 concerning Simandou."
 - 6 Can you clarify? What was it that Mr Avidan said
 - 7 specifically?
 - 8 A. Well, I would simply say that some time after that, they
 - 9 came to see me in my office, and the feeling was like,
 - "Well, we've come to put the final touches on this,
 - 11 we've come to finalise this". So I had to remind
 - 12 them --
 - 13 Q. To finalise what?
 - 14 A. Well, no, that was their request, that we had to accede
 - 15 to their requests, and it was in that state of mind that
 - they came to see me. Now, obviously I had left them
 - 17 there; I don't know what they had discussed later. But
 - from what I saw myself personally, and from what I got
 - 19 from Mr Touré and from Mr Avidan --
 - 20 Q. Well, apparently Mr Avidan interpreted the instructions
 - 21 of the President in a different manner from you, because
 - 22 for you it was a general thing, sort of a leitmotif,
 - whereas he interpreted that differently.
 - 24 A. Well, that is a possibility.
 - 25 Q. Is there another possibility?

- 12:31 1 A. Well, the other possibility was that -- well, I left
 - 2 them there and I don't know what happened after I left.
 - 3 So I don't know.
 - 4 Q. Yes, but Mr Avidan didn't say, "Well, once you left,
 - 5 I kept discussing with the President, and he told me
 - 6 that I was to tell you that this is what's got to be
 - 7 done"?
 - 8 A. No, I think that you would have to [ask] Mr Avidan --
 - 9 Q. No, but you were there. You're making a statement here as
 - 10 to what Mr Avidan said. So I'm asking you what
 - 11 Mr Avidan actually said.
 - 12 A. Well, that's what you find in the text, in paragraph 28.
 - You see, "Mr Minister, we have come to finalise this".
 - 14 Q. I'm sorry, I'm sorry. You are saying that it really is
 - 15 possible that Mr Avidan perhaps didn't quite interpret
 - 16 correctly the instructions from the President, that's
 - 17 one possibility; and you're suggesting that there may be
 - another possibility, and that is that once you had left,
 - 19 the President gave other instructions to Mr Avidan,
 - 20 different from those that he had given you?
 - 21 A. Well, because it was surprising that, having been at the
 - 22 same conversation with the President, now Mr Avidan
 - 23 comes over and gives an interpretation which is totally
 - 24 different from what had happened.
 - 25 Q. But what is it Mr Avidan said exactly? Didn't he say,

- 12:33 1 for instance, the decision was general: "take the best
 - 2 decision in the interest of the country". So what is in
 - 3 the best interest of the country?
 - 4 A. That is respecting the law, not pronouncing on an act
 - 5 that has already been attributed to others, and
 - 6 therefore -- and precisely Mr Avidan's approach was to
 - 7 get something that he was not entitled to. That's not
 - 8 possible. The interest of the country, it's very clear.
 - 9 What Mr Avidan was asking for was inadmissible.
 - 10 Q. What was the request?
 - 11 A. Well, the request was that they had claims on Simandou
 - 12 blocks which at the time had already been legally
 - 13 attributed to Rio Tinto. So that particular request was
 - 14 illegal.
 - 15 Q. So then he said what? He said expressly, in the course
 - of that meeting with you, "You heard the President,
 - 17 before both of us, giving me access to these permits"?
 - 18 A. No, he didn't say so in so many words. He didn't say it
 - 19 explicitly, but this is what was meant. Coming over to
 - 20 say, "We have come here to finalise": what is there to
 - 21 finalise apart from the requests? But the requests were
 - 22 inadmissible to begin with. Both as far as the form and
 - 23 the substance thereof was concerned, it was illegal.
 - 24 And they could then have Rio Tinto actually suing them,
 - 25 because nobody has the right to put forward a claim

- 12:34 1 concerning a mining title which is still valid and which
 - 2 has been attributed to somebody else. It's as simple as
 - 3 that.
 - 4 Q. Well, in any case, those were not the instructions that
 - 5 you heard from the President?
 - 6 A. The instructions from the President was to do what was
 - 7 in keeping with the best interest of the country. And
 - 8 what was in keeping with the best interest of the
 - 9 country was scrupulously respecting the law of the
 - 10 country. What does the law of the country say? That
 - 11 you cannot do anything about a mining title which is
 - 12 still in force and belongs to another company.
 - 13 And therefore BSGR's approach was illegal, their
 - 14 request was illegal, both as far as the form and the
 - 15 substance thereof is concerned. I must repeat: it was
 - inadmissible, it was illegal.
 - 17 Q. How did BSGR react?
 - 18 A. Well, they couldn't react, because BSGR knew the laws
 - 19 very well.
 - 20 Q. So they didn't say anything?
 - 21 A. Well, they couldn't have said anything else.
 - 22 Q. They said nothing? They said nothing? They didn't say,
 - 23 "Well, we have just received instructions from the
 - 24 President"?
 - 25 A. Oh, no, not at all. My answer was extremely clear.

- 12:35 1 Q. Yes, well, your answer may have been clear --
 - 2 THE PRESIDENT: Well, you have been overlapping for some
 - 3 time. I think really you must give time to the witness
 - 4 to finish the answer before you ask the following
 - 5 question.
 - 6 MR DAELE: Your answer to my question, if I understood
 - 7 correctly -- my question was: how did BSGR react when
 - 8 you gave that answer? Did BSGR then say, "Well, wait
 - 9 a minute, it was the President himself who had decided
 - 10 this", or they said nothing at all?
 - 11 A. They said nothing.
 - 12 Q. Do you know whether afterwards they complained to the
 - 13 President?
 - 14 A. I do not know.
 - 15 Q. Or to Mamadie Touré?
 - 16 A. That I don't know.
 - 17 Q. In paragraph 30 you speak of another meeting which took
 - 18 place in December 2007. You got a phone call from the
 - 19 Prime Minister asking you to go see the President, so
 - you went to see the President.
 - In paragraph 31 you said that there was a lady. Did
 - that lady speak in the course of that meeting?
 - 23 A. No.
 - 24 Q. Was BSGR present at that meeting?
 - 25 A. No.

- - 2 A. Well, I don't know. Maybe his aide-de-camp was present.
 - 3 I can no longer remember.
 - 4 Q. Did the President introduce that lady?
 - 5 A. I came with the Prime Minister. You remember the
 - 6 context was that I was called. Leaving my office,
 - 7 I didn't know that I was going to come to discuss that
 - 8 matter. When I got to the office of the Prime Minister,
 - 9 the Prime Minister said, "We are going to see the
 - 10 President", and it was during the trip over to the
 - 11 President's residence that he spoke to me about the BSGR
 - 12 case.
 - 13 It just so happens that I have a certain number of
 - 14 sensitive files that I always keep with me in my car.
 - 15 So we went in, and he asked me to give explanations to
 - 16 the President concerning the BSGR situation. So
 - 17 I unfolded the maps and I gave explanations on that.
 - 18 Q. But my question was whether the President had introduced
 - 19 the lady.
 - 20 A. No, it wasn't he who introduced.
 - 21 Q. Was it the Prime Minister who introduced the lady?
 - 22 A. He asked me to speak.
 - 23 THE PRESIDENT: No, the question was whether the President
 - 24 or the Prime Minister introduced that lady, saying who
 - 25 she was.

- 12:39 1 A. No, I'm sorry, I understood something else. No, there
 - were no introductions, madam.

18 Q. But in paragraph 31 of your statement in the framework

of this procedure, you say that you had already heard

- 20 about her. In the last sentence you say:
- 21 "... I told myself that must have been the sister
- 22 ... about whom I had heard."

19

- What is it that you had heard about her?
- 24 A. Well, as I explained, in the course of my first meeting
- with BSGR it had been pointed out to me that the person

- 12:41 1 in charge of the public relations of BSGR was a brother
 - of one of the wives of the President. So that's it.
 - 3 Quite naturally, these are things that you keep in mind.
 - 4 O. These are discussions in the corridors?
 - 5 A. Yes, these are corridor conversations.
 - 6 Q. Something like a half-hour before, in the corridors of
 - 7 the ministry, you had heard?
 - 8 A. Yes, it wasn't formal at all.
 - 9 Q. So there was this meeting then. In paragraph 32 you
 - 10 say:
 - "The Prime Minister introduced me ..."
 - 12 And then you discussed or explained the BSGR case:
 - 13 that they had done nothing in their zones and that you
 - 14 couldn't understand why they would be granted additional
 - 15 permits.
 - 16 Then you say in paragraph 33:
 - 17 "The explanation I gave seemed convincing."
 - And therefore, again, the President didn't give you
 - 19 any specific directives or instructions on that dossier
 - 20 or the status of the permit or the request for permits
 - 21 by BSGR.
 - 22 What did the President answer when you explained
 - your position?
 - 24 A. Well the President actually spoke to the lady, not to
 - 25 me, saying "Don't get involved in these mining -- in

- 12:43 1 this mining business".
 - 2 Q. But she didn't say anything?
 - 3 A. No, she didn't say anything.
 - 4 Q. The President said, "Shut up", more or less; he said,
 - 5 "Don't get involved"?
 - 6 A. Yes, "Don't get involved in these mining problems".
 - 7 Q. But the President himself did not give you any
 - 8 instructions?
 - 9 A. There was nothing, there was no instruction to give me.
 - 10 He had nothing to say about the explanations I had
 - 11 given.
 - 12 Q. Because they were clear?
 - 13 A. Yes. In my opinion, yes, because he could have said the
 - opposite if he had wanted to.
 - 15 Q. But doesn't this show that in fact Mamadie Touré had no
 - influence on the President?
 - 17 A. Well, listen here. This problem of influence for
 - 18 someone who lives outside the Presidential Palace is
 - 19 very difficult to apprehend, because the influence --
 - 20 I understand in that context "influence" as being the
 - 21 power that someone can have on a decision-maker to get
 - 22 a decision taken which is not a conventional or
 - 23 traditional decision, that is a decision departing from
 - the usual rules, and you have that influence that you
 - 25 can bring to bear in certain number of cases.

- 12:45 1 Having influence -- or this lady having an influence
 - 2 on the President is something very difficult to assess
 - from the outside, because don't forget we are in the
 - 4 context of a head of state who is ill, and it was well
 - 5 known that he had moments of lucidity and others where
 - 6 he would be struck with amnesia.
 - 7 So people with that kind of pathology, with dire
 - 8 consequences on those people's memory, you have to
 - 9 realise that there are some assertions that somebody may
 - 10 be making at one point in time and which can be
 - 11 contradicted immediately afterwards. So you cannot
 - 12 really know what is due to the illness or what is due to
 - influence. I personally could not pass judgment on that
 - 14 at all.
 - 15 PROFESSOR MAYER: Mr Daele, I'm sorry, I should like to ask
 - for a clarification.
 - 17 She didn't speak at all, Mamadie Touré, during that
 - 18 meeting?
 - 19 A. No, not at all.
 - 20 PROFESSOR MAYER: Then how can you explain what the
 - 21 President said, "I have told you not to get involved in
 - this"? What was he referring to?
 - 23 A. Well, it probably means that they had been talking about
 - 24 it before, and it was not the first warning he was
 - giving her, that is for sure.

- 12:47 1 PROFESSOR MAYER: Thank you.
 - 2 MR DAELE: So on that day the President was lucid.
 - 3 A. It seems to me he was.
 - 4 Q. Are you saying there may be different interpretations,
 - 5 but your interpretation was that she had an influence,
 - or not at all, when you hear an answer such as that one?
 - 7 Because after all, it's rather aggressive.
 - 8 A. Once again, when someone is ill, it's very difficult
 - 9 really to know what's going on in his mind.
 - 10 Q. Yes, but that means --
 - 11 A. Well, in my opinion he was lucid. But there was nothing
 - that could tell me whether he was not actually
 - 13 undergoing tremendous pain that could even have
 - an influence on the way in which he would address the
 - people around him. It is only a medical doctor who
 - 16 could tell you, could give you such an answer.
 - 17 Why do I say [he was] lucid? Because the decision
 - 18 he took was certainly in keeping with the decision that
 - 19 normally he should take in that type of conversation,
 - 20 where you have somebody close to you who is getting
 - 21 involved in public matters.
 - 22 Q. Do you know that we asked your government to produce
 - documents explaining the physical state of the
 - 24 President, and the Tribunal even ordered that these
 - documents be produced, but that we haven't received any

- 12:48 1 documents establishing really the state of health of the
 - 2 President?
 - 3 A. Well, perhaps we are two entirely different societies,
 - 4 you see. A pathology -- and it is even the case in some
 - 5 western societies. Discussing a President's health in
 - 6 public is not a very usual thing. As to the pathology,
 - 7 I don't know whether they even know, whether they have
 - 8 had access to any documents.
 - 9 Q. Well, you say that perhaps he was suffering, undergoing
 - 10 tremendous pain at the time. Do you think that he would
 - 11 have organised a meeting when he was undergoing such
 - 12 tremendous pain?
 - 13 A. Well, you know, that man is a former military man: he
 - has tremendous endurance. So in the discharge of his
 - 15 duties, very often one could see him stay in the car in
 - 16 order to discharge some of his obligations. These are
 - 17 suppositions. But I believe that he was doing his very
 - 18 best, considering his health, in order to carry out his
 - 19 duties.
 - 20 Q. How much power [did he have] at the time? Because at
 - 21 the beginning you said that because of the tripartite
 - 22 agreement, in fact the power was no longer [vested] in
 - 23 the President but in somebody else. So what power did
 - 24 he still have?
 - 25 A. Well, in the tripartite agreements it was established

- 12:50 1 that the Prime Minister was to appoint the members of
 - 2 the government, but that they had to be confirmed by
 - 3 presidential decree, which wasn't the case before. And
 - 4 afterwards it was the Prime Minister who would have to
 - 5 appoint people to the essential functions, i.e. the
 - 6 various ministries, et cetera. That was the substance
 - of the tripartite agreements. In other words, there
 - 8 were a certain number of powers that the President still
 - 9 has at his level, but the tripartite agreements forced
 - 10 him to delegate these powers, at least on paper.
 - 11 Q. Madame Mamadie Touré didn't speak in the course of the
 - meeting, when the President told her not to get
 - involved? What was her reaction, even non-verbal
 - 14 reaction?
 - 15 A. Well, in all the meetings I ever attended with the
 - President, nobody ever spoke after the President,
 - no one.
 - 18 Q. Did she look shocked or astonished, neutral?
 - 19 A. When you are facing the President and there is a lady
 - 20 next to him, you concentrate on the President.
 - 21 Q. Was she physically close to him: 1 metre away from him,
 - 22 2 metres? She was sitting next to him? They were right
 - in front of you?
 - 24 A. No, no, she was to the right of the President.
 - 25 Q. So then you actually didn't see her non-verbal

- 12:52 1 expression?
 - 2 A. No.
 - 3 Q. So after that meeting, 24 hours after that -- and I have
 - 4 reached now paragraph 35 -- the Prime Minister, Prime
 - 5 Minister Lansana Kouyaté, asked to see you, and when you
 - 6 went to see him, he was with Mamadie Touré.
 - 7 Did they try to explain what had happened the day
 - 8 before?
 - 9 A. To some extent.
 - 10 Q. So again you had to explain what you had explained on
 - 11 the day before. Was BSGR present at that meeting?
 - 12 A. No.
 - 13 Q. At this meeting, did Mamadie Touré speak?
 - 14 A. No.
 - 15 Q. Did the Prime Minister indicate that he had received
 - instructions from the President?
 - 17 A. No.
 - 18 Q. Doesn't that incident show that in fact Mamadie Touré
 - 19 had to go behind the President's back if she wanted to
 - get something done?
 - 21 A. Well, I think that goes without saying.
 - 22 Q. Sorry, I didn't quite understand. But the fact that she
 - has to go behind his back means that she has no
 - influence, because otherwise it wouldn't be necessary
 - for her to go behind somebody's back; you do that in

- 12:54 1 front of the President when you wield influence, as she
 - 2 had tried on the day before.
 - 3 A. No, that means, in my opinion, that the presidential
 - 4 word wasn't a limit to her.
 - 5 Q. That meeting was also in December 2007. And you were
 - 6 Minister for Mines until August 2008 --
 - 7 A. [Yes.]
 - 8 Q. -- so a further eight months?
 - 9 A. Yes, but in the meantime the Prime Minister changed.
 - 10 Q. Yes, but still eight months. And during those eight
 - months, December 2007 to August 2008, did you have any
 - other meetings with the President on the BSGR
 - 13 activities?
 - 14 A. No.
 - 15 Q. Any other meeting with Mamadie Touré?
 - 16 A. No.
 - 17 Q. Any other meeting with other people who would say that
 - they were acting on behalf of Mamadie Touré?
 - 19 A. No.

12:56 **PROTECTED**

- 5 Q. That means that between December 2007 and the end of
- 6 your term of office, you never again had any contacts
- 7 with BSGR or Mr Ibrahima Sory Touré or Mr Avidan?
- 8 A. No physical contact. There was exchange of emails, yes,
- 9 exchange of letters.
- 10 Q. Were there any phone calls?
- 11 A. No. I don't remember any.
- 12 Q. In that period were there other people trying to bring
- pressure to bear upon you?
- 14 A. Of course, because the request on the Simandou blocks
- was put forward again.
- 16 Q. But you had no contacts with Mamadie Touré or with
- 17 Mr Avidan or meetings with BSGR, in spite of which there
- 18 was still pressure which you felt? You're saying that
- there was still pressure?
- 20 A. Well, I don't consider that really to be pressure. They
- 21 were simply expressing what they wanted to do, and we
- 22 were just telling them that in light of the regulation
- 23 it was not feasible.
- 24 Q. In paragraph 41 you speak of the withdrawal of
- 25 Rio Tinto's rights.

- 12:58 1 A. Yes.
 - 2 Q. And you say that withdrawal of rights -- well, really
 - 3 you were not minister at the time, at the time of the
 - 4 withdrawal?
 - 5 A. Well, I was there, yes. I was there. The withdrawal
 - 6 was in July.
 - 7 Q. No, that is the suspension of the concession.
 - 8 A. You're saying what?
 - 9 Q. The suspension of the concession in July.
 - 10 THE PRESIDENT: Perhaps you may not be using the same
 - 11 terminology. That is a decision taken in July 2008 to
 - 12 withdraw the concession, Rio Tinto's concession.
 - 13 MR DAELE: To clarify matters with the witness, sir, you
 - 14 mention here "withdrawal": you mean the presidential
 - decree of 8th July 2008, or are you referring to the
 - 16 decision taken by the Council of Ministers of
 - 17 4th December concerning the retrocession?
 - 18 A. No, I'm referring to the July decree.
 - 19 Q. So then you're saying that the withdrawal and the
 - 20 granting of permits were two different problems.
 - 21 Then this is something I find quite interesting: you
 - 22 say the fact of being able to withdraw Blocks 1 and 2
 - from Rio Tinto did not give any rights to BSGR over
 - those permits. When I read this, this means that you
 - 25 actually do recognise that the government was entitled

- 13:00 1 to withdraw those blocks from Rio Tinto.
 - 2 A. But of course.
 - 3 Q. However, on the subsequent granting of those rights to
 - 4 BSGR, there you say: no, that is not acceptable.
 - 5 A. Yes, because they immediately wrote -- immediately after
 - 6 the decree, they wrote a letter, asking this time for
 - 7 Blocks 1, 2 and 3. They were asking for three out of
 - 8 the four blocks.
 - 9 And the answer I gave, with the very last letter
 - 10 I wrote before I left the ministry, was to tell them
 - 11 that the conditions for the granting of those blocks had
 - 12 to be very specific because we had entered a phase of
 - 13 negotiation of a global agreement which meant that the
 - 14 counterpart -- or rather, as a counterpart to the
 - granting of mining rights or mining permits, there had
 - 16 to be financing made available to the state so as to
 - 17 cover infrastructures other than the mining
 - 18 infrastructures.
 - 19 This is what I reminded them of in that letter.
 - They may have had the technical and financial
 - 21 capabilities, but there were other things that they had
 - 22 not shown they had in Guinea; and then later, in the
 - conditions to grant those blocks, there was that.
 - 24 Q. So the last thing you did, I believe that you actually
 - 25 set up a committee in your ministry, a [committee] made

- 13:02 1 up of officials, on 27th August?
 - 2 A. What committee of officials?
 - 3 Q. I hope that we find the document in the file.
 - 4 THE PRESIDENT: C-176.
 - 5 MR DAELE: It's your decision dated 27th August 2008,
 - 6 tab 19.
 - 7 A. Yes, 19.
 - 8 Q. I think that this is the document showing that you set
 - 9 up a Technical Committee in order to review Rio Tinto's
 - 10 mining titles. Do you remember having set up that
 - 11 committee?
 - 12 A. Yes.
 - 13 Q. I think this was on your last day as minister?
 - 14 A. Yes, because the rights had been suspended and we had to
 - give an opinion on the implementation of the suspension
 - or the enforcement of the suspension of those rights.
 - 17 So the decree granting the four titles had been
 - 18 suspended. It was -- how is that called? There is
 - 19 a legal term that escapes me right now. It was revoked,
 - 20 so to speak. So now we had to put forward a proposal to
 - 21 see which blocks could be taken back by the state and
 - 22 which blocks could be given to Rio Tinto.
 - 23 Q. The nine people here, did you choose them yourself, on
 - the basis of their capacity?
 - 25 A. Yes, on the basis of their capacity. [Mr Bangoura] was

- 13:04 1 the National Director for Geology and he chaired the
 - 2 commission that was responsible for cleaning up the
 - 3 mining titles. So he was there, as well as the head of
 - 4 the CPDM, as you have observed. Altogether these were
 - 5 people who were competent to have an opinion on this.
 - 6 So it wasn't just the minister saying "I recommend
 - 7 taking two or three permits". We needed to have people
 - 8 there who could, on the basis of the work that had
 - 9 already been done, tell us what the permit was within
 - 10 which Rio Tinto had effectively done prospecting, and
 - 11 the zones where less work had been done. Because the
 - 12 permits in the areas where they had actually performed,
 - 13 we couldn't remove those permits, leaving them the other
 - ones. So that was the work to be done by the
 - 15 commission.
 - 16 Q. Thereafter you were no longer minister, so I imagine you
 - 17 don't know a great deal about what occurred later on.
 - But generally speaking, you were confident in the work
 - 19 that had been done by these people during this period?
 - 20 A. It was entirely normal, because all of this was also
 - 21 part of catching up with the second retrocession that
 - 22 should have been done by Rio Tinto. So I think that
 - 23 they did actually outstanding work. The company was
 - 24 keeping the permits where they had performed well,
 - Blocks 3 and 4, whereas in Blocks 1 and 2 they had done

- 13:07 less work; they had just done some reconnaissance work.
 - 2 Q. The presidential decree of July 2008, did it grant
 - 3 permits to BSGR?
 - 4 A. No. No, the decree does not concern BSGR.
 - 5 Q. I have two or three final questions.
 - 6 Did you receive any bribes from BSGR?
 - 7 A. No. Perhaps you should ask them who they bribed.
 - 8 Q. Do you know any other officials who received bribes from
 - 9 BSGR?
 - 10 A. No.
 - 11 Q. Have you heard, or did you hear at the time, rumours
 - that people had received bribes?
 - 13 A. These are things that you hear on the web and the
 - 14 newspapers. Personally, I have no judgment on this
 - 15 question.
 - 16 Q. Did you reach any decisions that you should not have
 - 17 taken were it not for the pressure exerted by
 - 18 Mamadie Touré?
 - 19 A. I did not completely understand your question.
 - 20 Q. Did you make some decisions during this period --
 - 21 because we heard the allegation that there was pressure
 - 22 being exerted. So my question is: had there not been
 - 23 such pressure, are there any decisions that you took at
 - the time that would have different?
 - 25 A. No, it changed nothing as far as I'm concerned, because

- 13:08 1 for me my consistent line of behaviour was being in
 - compliance with the Mining Code. So no decisions were
 - 3 taken that were not in accordance with the Mining Code.
 - So, for instance, it's the Mining Code that says you
 - 5 can't grant permits when there are already permits
 - 6 there. And for a company that did not have the
 - 7 financial or technical capability in Guinea, there again
 - 8 the decision was foregone, because a company that had
 - 9 23 permits and did not perform on any of these permits
 - 10 simply could not claim that it exercised the technical
 - 11 and financial capabilities on Guinean soil.
 - 12 Q. But you had the ability to sanction this by withdrawing
 - the permits, as you had done with other permits, but you
 - 14 didn't do it because BSGR had passed the test.
 - 15 A. You have to understand what that means, that BSGR passed
 - 16 the test. The permits where they had done some work,
 - 17 there was some performance, well, we were waiting,
 - 18 because they had been working for two years, and the
 - 19 first major milestone for [companies] that are actually
 - 20 working on the ground is three years after the granting
 - of the first permit.
 - 22 So we were not yet in the third year following the
 - granting of the permit for iron ore. The other ones,
 - they hadn't done anything, so we weren't going to wait
 - for the end of the third year to come to a decision. So

- 13:10 1 that's an important detail.
 - 2 Q. Would you please go to tab 7.
 - 3 A. I have it.
 - 4 Q. This is a letter dated April 30th 2008, document C-195.
 - 5 You constantly say that BSGR had 23 permits and they
 - 6 did nothing.
 - 7 A. Yes.
 - 8 Q. In this letter they are now saying that they are
 - 9 returning nine permits and then another four permits,
 - 10 and again five permits. Do you see this? Iron ore,
 - 11 uranium and bauxite. Altogether, 18 permits that are
 - 12 being returned to the government.
 - 13 A. But how many did they keep?
 - 14 Q. Five. It's not 23. You say that it was unacceptable
 - 15 because they had 23 permits and they didn't do anything.
 - Here, on April 30th 2008, they returned 17 permits,
 - 17 I believe. So they actually had five permits. This is
 - 18 at the time of the decision.
 - 19 A. Did you clearly read this letter? This letter doesn't
 - 20 return them. They say, "We will be ready to return them
 - 21 if you give us Simandou". That is a big nuance.
 - 22 Q. Where do you see this condition?
 - 23 A. What we have here is the result of the evaluation, and
 - 24 they say:
 - 25 "... the extension of the permits for iron ore on

- 13:13 1 Mount SIMANDOU ..."
 - You see the link there is between their willingness
 - 3 to return these permits and the granting of the permits
 - 4 for Mount Simandou.
 - 5 Q. No --
 - 6 A. So first of all they are talking about:
 - 7 "Returning to the portfolio of the State as soon as
 - 8 the signing of the extension permits ... of Mount
 - 9 SIMANDOU of over nine ... permits for prospecting ..."
 - 10 Have you read this? This is very different from
 - saying, "We're just giving back to you these permits".
 - 12 That's not what they're saying. They're saying, "We
 - will return them if you give us Simandou". This was
 - 14 a conditional letter, and it's not all of the permits
 - that they're offering to return.
 - 16 Q. Is there a reference to the Rio Tinto permits?
 - 17 A. All of Simandou was held by Rio Tinto. So if you're
 - 18 talking about Simandou, then you're talking about
 - 19 Rio Tinto.
 - 20 Q. But there was Simandou North and Simandou [South].
 - 21 A. Everything was under permit with Rio Tinto at the time.
 - 22 Q. April 30th 2008, BSGR did not hold permits in
 - 23 Simandou North and Simandou South?
 - 24 THE PRESIDENT: We need to read the beginning of the letter
 - 25 that talks about Blocks 1 and 2.

- 13:14 1 MR DAELE: Yes, indeed.
 - 2 THE PRESIDENT: So they requested extension for Blocks 1 and
 - 3 2, and then it goes on to talk about returning the nine
 - 4 prospecting permits.
 - 5 MR DAELE: Isn't one of the reasons for not giving Blocks 1
 - and 2 to BSGR because, as you've said several times,
 - 7 that they had too many permits and they were doing
 - 8 nothing with them?
 - 9 A. There was a fundamental and legal reason, and that is
 - 10 that these permits were still valid, they were still in
 - 11 effect, they were part of Rio Tinto's portfolio, so they
 - 12 had no cause to vie for them. But in addition to this,
 - 13 there were 23 permits for which they hadn't performed,
 - so why would they go and ask for something else? And
 - 15 that was the substance of the conversation that we had
 - directly with them.
 - 17 When you look at what's written here, we're talking
 - about returning five out of 13 bauxite permits. So for
 - 19 bauxite they had 13 permits. They had four permits for
 - 20 uranium. And then look at all the permits they had
 - 21 around Simandou. So altogether they had 23.
 - 22 Q. But in your testimony you told the President that they
 - 23 could not apply for additional permits because they
 - 24 already have enough permits and they're not doing
 - 25 anything. That is what you said?

- 13:16 1 A. Yes, that's for prospecting permits.
 - 2 Q. [Yes, absolutely.]
 - 3 A. [And this is even less so for --]
 - 4 Q. [And what they're doing here --]
 - 5 A. May I finish? This is even less so for a mining
 - 6 concession that belongs to another company. That was
 - 7 completely illegal.
 - 8 Q. Why is applying for a permit illegal? I mean, the
 - 9 simple fact of applying for a permit, to what extent is
 - 10 that illegal?
 - 11 THE PRESIDENT: When Mr Daele says "applying for it", he
 - 12 means making an application for it.
 - 13 MR DAELE: The mere fact that BSGR had made an application,
 - 14 this is something you qualify as being illegal. How is
 - 15 this illegal? If the application is not in compliance,
 - 16 clearly it will be rejected. But the simple fact of
 - 17 applying is not illegal. It may be inadmissible. But
 - in what way is the simple fact of applying illegal?
 - 19 A. There are several reasons. Granting a mining title to
 - 20 a company, whether it's a prospecting permit or a mining
 - 21 convention, is a decision that is public. Everybody
 - 22 knows that a given permit belongs to a given company.
 - 23 And the period during which this mine is set for
 - 24 a prospecting permit is three years, with two possible
 - 25 two-year extensions. And the permit is opened up to

- 13:18 1 other competitors if it is withdrawn by the state.
 - 2 So until such time that it's withdrawn, you cannot
 - 3 apply for it, nor can you even set foot in that
 - 4 perimeter without being authorised. There have been
 - 5 cases where helicopters have overflown perimeters, and
 - 6 that actually led to legal action. Rio Tinto was
 - 7 entitled to its rights had it decided to go after BSGR
 - 8 for applying for a permit that was still in effect and
 - 9 was still valid.
 - 10 Q. Did the Mining Law provide for a sanction for those who
 - 11 would apply for a permit for a zone that was already
 - 12 under permit?
 - 13 A. No, not formally so. But it was something that was
 - 14 clearly expressed to the players in the mining sector.
 - 15 Q. Was there a specific prohibition in the Mining Law?
 - 16 A. No. It's in the tradition, the way it was implemented.
 - 17 As I said before, there was no implementing decree for
 - 18 the Mining Law.
 - 19 Q. So BSGR was not in violation?
 - 20 A. No, they should not have done it. Yes, they have --
 - 21 it's intangible, the perimeter that is granted to
 - 22 a company is intangible. But the simple fact that
 - anybody would come and set foot on territory is illegal.
 - 24 Q. But there's no sanction, there's no consequences under
 - 25 law?

- 13:20 1 A. No. If there had been a complaint, then there would
 - 2 have been a sanction.
 - 3 Q. What type of sanction?
 - 4 A. I don't know. I'm not the one who is going to judge
 - 5 this.
 - 6 Q. Would it be prison? Would it be a fine?
 - 7 A. That would be up to the judge to decide.
 - 8 Q. But the judge has to base him or herself on a legal
 - 9 text; correct?
 - 10 A. Yes. I can assure you there have been such cases and it
 - 11 always ends up with a problem.
 - 12 THE PRESIDENT: Mr Daele, I think we've gone beyond the two
 - hours. I would like to break. Do you have many
 - 14 questions left?
 - 15 MR DAELE: No, just a few.
 - 16 THE PRESIDENT: I think maybe then it would be good to stop
 - and allow everybody to have a bite to eat. That is
 - 18 perhaps not what I should have said; I'm very sorry,
 - 19 Mr Kanté.
 - 20 So we shall resume at 2.15, if you all agree.
 - 21 I think we will finish fairly early today with the
 - 22 minister.
 - I have understood that you need to leave by 5.00 pm;
 - is that correct?
 - 25 MINISTER KANTÉ: Yes.

- 13:21 1 THE PRESIDENT: I think we will be finished much earlier.
 - Is that correct, Mr Daele? Can you confirm that?
 - 3 MR DAELE: Yes, I believe that's correct.
 - 4 MR OSTROVE: It would be very good for the rest of the week
 - 5 if we could start with the examination of Mr Bouna
 - 6 Sylla. He's in Paris and he's available this afternoon.
 - 7 So we could possibly even complete this examination, to
 - 8 free up the rest of the week.
 - 9 MR DAELE: This is a problem, because Mr Sylla was scheduled
 - 10 for Thursday and I still need those two days to conduct
 - 11 his examination. I have prepared myself based on the
 - 12 chronology as had been set out, first starting with
 - 13 Mr Nabé, then Mr Tinkiano, and Mr Bouna Sylla was the
 - last one. I'm sorry, I'm not ready.
 - 15 THE PRESIDENT: I have understood that Mr Tinkiano is not
 - here yet or has not arrived?
 - 17 MR OSTROVE: I think he flew last night. He may already be
 - in Paris. But he hadn't planned to spend the night on
 - 19 a plane and then be heard.
 - 20 THE PRESIDENT: I don't think it's very fair. So I see no
 - 21 other solution than to finish with Mr Kanté's hearing
 - 22 and adjourning until tomorrow.
 - 23 MR DAELE: I'm sorry, I am ready to examine Mr Tinkiano.
 - 24 THE PRESIDENT: But apparently that's not going to work
 - either.

- 13:24 1 MR DAELE: I just want to avoid giving the impression that
 - I don't want to be cooperative.
 - 3 THE INTERPRETER: Apologies, the President is speaking
 - 4 without her mic.
 - 5 (A discussion re the order of witnesses
 - 6 took place off the record)
 - 7 THE PRESIDENT: I am still on the record.
 - 8 Mr Minister, I must ask you not to talk about your
 - 9 testimony during the lunch break to anyone, and the best
 - 10 way to respect this instruction is simply not to speak
 - 11 to anyone.
 - 12 MR OSTROVE: Mr Kanté's wife has come to Paris to see him
 - and has planned to have lunch with him, and I think, to
 - 14 my knowledge, she knows nothing about the case. Can he
 - 15 be authorised to have lunch with his wife if they don't
 - 16 talk about the case?
 - 17 MR DAELE: I am trying to express this in a neutral way.
 - I have no objection.
 - 19 MR OSTROVE: Thank you for your understanding.
 - 20 THE PRESIDENT: So, yes, you can have lunch with your wife,
 - 21 but without talking about the case at all.
 - 22 MINISTER KANTÉ: Thank you very much.
 - 23 THE PRESIDENT: See you later.
 - 24 (1.27 pm)
 - 25 (Adjourned until 2.30 pm)

- 14:36 1 (2.36 pm)
 - 2 THE PRESIDENT: Before we start, Mr Minister, I just have
 - 3 one question for the Claimants.
 - 4 (In English) We have received the exchange of
 - 5 correspondence with respect to the FBI declaration at
 - 6 issue, and we note that among the attachments there is
 - 7 one email that does seem to attach the declaration
 - 8 itself. So we would like to know whether we are
 - 9 supposed to read this declaration or not. What is the
 - 10 Claimants' view?
 - 11 MR DAELE: (In English) Not yet. The declaration itself,
 - 12 not yet.
 - 13 THE PRESIDENT: Not yet. So we should first make a decision
 - 14 as to whether it is in. Fine. So we will have to
 - 15 discuss this among the Tribunal members in a later
 - 16 break.
 - 17 That is all I needed to say now, before we continue.
 - 18 MR OSTROVE: (Interpreted) I think there was a technical
 - 19 problem that you might have noted this morning, in that
 - 20 the French livenote had stopped operating for one and
 - 21 a half hours --
 - 22 THE PRESIDENT: Yes, mine stopped rather early.
 - 23 MR OSTROVE: Since I wanted to refer to what has been said,
 - 24 we have asked the court reporters if they could send us
 - 25 this morning's transcript by email, so that everybody

- 14:37 1 has it available for this afternoon.
 - 2 THE PRESIDENT: Yes. Fine, thank you. And I see that now
 - 3 it is working.
 - 4 Maître Daele, you have the floor for the
 - 5 continuation of your examination.
 - 6 MR DAELE: (Interpreted) Good afternoon, Minister Kanté.
 - 7 I hope that you had a pleasant lunch with your wife.
 - 8 I still have two questions to put to you before
 - 9 I finish.
 - Just before the break I asked you whether you
 - 11 yourself had taken decisions that you would not have
 - 12 taken had pressure not been exerted upon you. So I'd
 - 13 like to repeat the same question, but not as far as you
 - 14 are concerned but as far as the President is concerned.
 - 15 According to you, did the President take decisions
 - 16 in this case that he would not have taken had pressure
 - by Mamadie Touré not been exerted upon him?
 - 18 A. I don't know what decision you're talking about.
 - 19 Q. In general, would you be aware of decisions or
 - 20 directives that the President did give, but would not
 - 21 have given had he not been under the pressure of
 - 22 Mamadie Touré?
 - 23 A. I'd like you to be more precise.
 - 24 Q. The directive which consisted in taking decisions in the
 - 25 interests of the country, was that a decision that he

- 14:39 1 gave under pressure of Mamadie Touré?
 - 2 A. In fact I think that the directives that he gave
 - 3 complied with his responsibilities.
 - 4 Q. And did your government take decisions that it would not
 - 5 have taken had it not been under the pressure of
 - 6 Mamadie Touré?
 - 7 A. I think that the decisions that were taken by the
 - 8 government complied with the law and regulations that
 - 9 were in force at the time.
 - 10 Q. Without pressure, would the government have taken the
 - 11 same decisions?
 - 12 A. I couldn't tell you.
 - 13 MR DAELE: Okay, thank you. I have no further questions.
 - 14 THE PRESIDENT: Mr Ostrove, do you have any questions?
 - 15 MR OSTROVE: Yes, Madam President.
 - 16 (2.41 pm)
 - 17 Re-direct examination by MR OSTROVE
 - 18 Q. Mr Daele has just mentioned a question that he asked
 - 19 just before the break; in other words, whether you had
 - 20 taken decisions that you would not have taken in the
 - 21 absence of pressure from Mamadie Touré or anyone else.
 - 22 I'd like to know: when you were a minister, did you
 - grant any permits to BSGR?
 - 24 A. No.
 - 25 Q. Did you take any decisions in favour of BSGR when you

- 14:41 1 were a minister?
 - 2 A. No.
 - 3 Q. I'd now like to turn to another item which is linked
 - 4 with two different things: first, Mr Ibrahima Sory Touré
 - 5 and his role.
 - 6 First, a general question. The question is the role
 - 7 of the members of the presidential family in Guinea, or
 - 8 intrigues around the presidential family. For you as
 - 9 a minister, is that of any importance at all?
 - 10 A. No. For me, as I said earlier, it had no importance
 - 11 whatsoever.
 - 12 Q. From your experience, these questions of the members of
 - 13 the presidential family are important for other
 - ministers in Guinea or other officials?
 - 15 A. Well, hypothetically it could be the case.
 - 16 Q. I'd now like to turn to a subject that took quite
 - a while this morning, i.e. your answer to the
 - 18 applications for permits over Simandou, the BSGR
 - 19 applications. To sum up, we heard that you were being
 - asked certain things, you were called to see the
 - 21 President, and you explained that it wasn't possible to
 - 22 grant these permits.
 - 23 If we look at your testimony, for instance at
 - 24 paragraph 25, you were asked about this paragraph:
 - 25 "I explained to the President what problem we were

- 14:44 1 talking about, i.e. Simandou and the fact that the zones
 - 2 had been attributed to Rio Tinto. I repeated that BSGR
 - 3 had to give its proof of its worth on the deposits that
 - 4 had already been granted and that, whatever the case,
 - 5 Simfer already held the mining concession on blocks 1
 - 6 to 4 in Simandou."
 - 7 Had you wanted to grant a research permit to BSGR on
 - 8 these blocks, would that be in your power?
 - 9 A. No.
 - 10 Q. Why?
 - 11 A. Because the Simandou blocks at the time were the subject
 - 12 of a concession and a mining convention. These are
 - documents that are ranked by order of importance, signed
 - by the National Assembly, as far as the convention is
 - 15 concerned, and by decree of the head of state as far as
 - 16 the concession is concerned. So a ministerial decision
 - 17 can only rank third.
 - 18 Q. So if BSGR wanted to come to you or any other Minister
 - of Mines to ask for a permit on this zone which was
 - 20 already the subject of concession, what would they have
 - 21 had to obtain before they could?
 - 22 A. Two things. First, the application would have to deal
 - 23 with a parameter which is not the subject of a mining
 - 24 title, a valid mining title, that's the first thing,
 - 25 because you can't superimpose titles.

- 14:46 1 Q. So when we're talking about Blocks 1 to 4 at Simandou,
 - 2 in order to free these perimeters, to release them from
 - 3 any other rights, what would BSGR have to obtain?
 - 4 A. It's not BSGR that could have obtained it. Rio Tinto
 - 5 would have had to default, and this would have had to be
 - 6 appreciated by the state and, given the legislation,
 - 7 this should lead to the withdrawal of one or several
 - 8 blocks.
 - 9 Q. Who could withdraw? Could the Minister of Mines
 - 10 withdraw the concession from Rio Tinto?
 - 11 A. No, he couldn't.
 - 12 O. Who could?
 - 13 A. On the basis of a report of the ministry and
 - 14 recommendation from the inter-ministerial decree that
 - would only have been possible.
 - 16 Q. On the basis of a ministerial report, before
 - 17 a concession was withdrawn, what type of report from the
 - 18 ministry would be required?
 - 19 A. No, it's a report that assesses the situation of the
 - 20 block in question and that identifies potential flaws in
 - 21 the management of that perimeter, in the light of the
 - 22 regulation, and that may propose to the President of the
 - 23 Republic in fact to reverse the decision.
 - 24 Q. If I understand you correctly, that would have required
 - a report from the ministry sent to the head of state?

- 14:47 1 A. Yes.
 - 2 Q. Can we look at tab 13, which is C-92. Did you see that
 - 3 decree at the time?
 - 4 A. Yes.
 - 5 Q. Can you depict it for us?
 - 6 A. It is the decree that reversed the previous decree that
 - 7 had granted a Simandou concession to Rio Tinto.
 - 8 Q. Who signed this document, is the question?
 - 9 A. The President of the Republic at the time:
 - 10 General Lansana Conté.
 - 11 O. You have described the state of health of President
 - 12 Conté in 2007. In the summer of 2008, had his situation
 - improved? What was his health like at the time?
 - 14 A. As far as I know, he -- according to the opinion, his
 - 15 pathology evolved.
 - 16 Q. What do you mean by this?
 - 17 A. His state of health was deteriorating.
 - 18 Q. You were Minister of Mines at the time, and you
 - 19 mentioned a report earlier that should have been sent by
 - 20 the Minister of Mines to support a decree such as this.
 - Do you have knowledge of the existence of such a report?
 - 22 A. At the time we did draft a report.
 - 23 Q. After this decree which revokes the concession -- and in
 - 24 Article 3 it says that:
 - 25 "Consecutive with the withdrawal of the mining

- 14:50 1 concession, the rights of Company SIMFER will be defined
 - 2 by a Decree of the Minister of Mines and Geology
 - 3 pursuant to the law."
 - 4 After this decree was issued, legally you had the
 - 5 power to withdraw the research permit from [Rio Tinto]
 - 6 and grant it to BSGR?
 - 7 Forgive me, I think I went a bit too fast. After
 - 8 this decree, what was the legal regime of Blocks 1 to 4
 - 9 at Simandou?
 - 10 A. This is the transitional period, because it is said in
 - 11 that very decree that they should be granted to the said
 - 12 company, so within the limitations of rules and
 - 13 regulation. This is why I said that a commission had
 - 14 been set up in order to be able to define on the basis
 - of the results of the work which application to be given
 - 16 to this instruction.
 - 17 Q. Could you read for yourself Article 3.
 - 18 A. Yes:
 - 19 "The rights of SIMFER Company, consecutive with the
 - 20 withdrawal of the mining concession, are those of the
 - 21 holder of the permit while respecting the legal system
 - 22 governing which shall be defined by a Decree of the
 - 23 Minister of Mining and Geology pursuant to the law."
 - Q. Can you explain what this means?
 - 25 A. You have a decree that's already been the subject of

- 14:52 1 a report. So this concerns Simandou. It is now said
 - 2 that the rights of Simfer will go to a company that has
 - 3 the benefit of a research permit.
 - 4 Q. And if you read Article 2 of this decree, can you read
 - 5 it for yourself and just explain what it means?
 - 6 A. It says that:
 - 7 "There will be granted a mining concession to the
 - 8 said Company for the development of iron in Simandou in
 - 9 conformity with the prescriptions of the Mining Code
 - defining the rights and obligations of the mining
 - 11 entrepreneur, the duration of the concession and the
 - 12 details of its renewal."
 - 13 Q. "The said Company" means whom?
 - 14 A. Simfer.
 - 15 Q. Simfer is the joint venture company that was created?
 - 16 A. Yes, with Rio Tinto.
 - 17 PROFESSOR MAYER: Forgive me. Before we leave this, I would
 - 18 have a question on Article 1 of this decree.
 - "Is and remains in effect the ... 30 March 2006
 - 20 [Decree], granting ...", et cetera.
 - 21 Was there truly a decree that already granted this
 - 22 right, or does it mean that we are reporting this decree
 - 23 under this way and it remains in effect?
 - 24 A. This was the abrogation decree, as I see it, of the
 - 25 mining titles that had been granted to Rio Tinto.

- 14:54 1 PROFESSOR MAYER: It's Article 1 that states so in so many
 - 2 words?
 - 3 A. Yes.
 - 4 PROFESSOR MAYER: Thank you.
 - 5 MR OSTROVE: If you now go to tab 15 of the bundle,
 - 6 i.e. C-98. One week after this decree, on 5th August
 - 7 2008, you see the letter from Mr Asher Avidan. Do you
 - 8 remember that letter?
 - 9 A. Yes.
 - 10 Q. From what you understood, what is BSGR asking from you
 - 11 at this stage?
 - 12 A. In fact, BSGR is renewing its prior application with
 - 13 an extension to Block 3. Because if you remember, the
 - 14 first application had to do with 1 and 2, for which they
 - 15 stated that there had been no work; but now, since the
 - state has expressed its wish to abrogate the Simfer
 - 17 rights on those blocks, they might have deemed it
 - 18 necessary to think that all of the blocks were concerned
 - 19 and therefore applied in this way by extending the
 - 20 request from 1 and 2 to 3 also.
 - 21 So it is 1, 2 and 3 that are concerned here, and at
 - 22 the time the state had not determined the fate, because
 - the decree had been published, a commission had been set
 - up to see what could be put at the disposal of Simfer,
 - and this is the meaning of the answer that gave this

- 14:56 1 letter.
 - 2 Q. We'll turn to this answer in a moment, but if we remain
 - 3 with this letter following the publication of the
 - 4 decree, the famous decree dated 20th July, relating to
 - 5 the expression of the decree that was granted to Simfer
 - on the monopoly of the Simandou mountain range:
 - 7 "... we have the honour of very respectfully
 - 8 approaching you, to request your intervention in favour
 - 9 of our application filed with your Department under
 - 10 No. 0738 dated 17 July 2007 concerning the extension of
 - 11 our research and exploration permits on Blocks 1, 2
 - 12 and 3 ..."
 - 13 Do you remember this request dated 27th July 2007,
 - one year earlier?
 - 15 A. Yes, I do.
 - 16 Q. How did you react to the fact that they were insisting
 - 17 on a request or an application that had been filed in
 - July 2007 concerning the Simandou block?
 - 19 A. Well, the argument that we had given them concerning the
 - 20 validity of the titles over the Simandou blocks had just
 - 21 disappeared, because of the decree that abrogated
 - 22 Rio Tinto's rights on the total on all of the blocks.
 - 23 Therefore they repeated a prior letter that, even so,
 - their appetite had become greater and they wanted all
 - 25 four blocks.

- 14:58 1 Q. You mentioned your answer to this letter, which can be
 - 2 found at tab 16, just behind, which is Exhibit C-198,
 - 3 your letter dated 19th August 2008. I think you
 - 4 mentioned this answer this morning without looking at
 - 5 it. Can you simply read it for yourself to refresh your
 - 6 memory and explain to us what you are trying to achieve
 - 7 with this letter?
 - 8 A. In that letter I try to repeat the answer I had given
 - 9 them at the beginning of the year, on 30th April the
 - same year, where I had announced a certain number of
 - 11 principles relating to the granting of research permits.
 - 12 Therefore I was explaining also that the decree that had
 - just been adopted, and which cancelled the attribution
 - 14 decree in favour of BSGR, asked the ministry to now
 - 15 determine the conditions for its implementation. And at
 - 16 that point of time these blocks were not yet available,
 - 17 because some work had to be done to implement the decree
 - and to propose to the authority a fate for the four
 - 19 blocks, and that work was not yet completed.
 - 20 I also tried to explain to them that the terms for
 - 21 attribution of these blocks which would potentially be
 - 22 released had changed. Further to the technical and
 - 23 financial capacity, the logic was that a relation that
 - 24 we had talked -- a global package should be forthcoming.
 - In other words, we wanted to put at their disposal

- 15:00 1 a certain number of permits in exchange for the
 - 2 availability by the state of funding aiming at
 - 3 infrastructures that had nothing to do with mining
 - 4 infrastructures. So in our view these terms also had to
 - 5 be fulfilled.
 - 6 So we tried to be totally transparent and to tell
 - 7 them where we stood at the time when they wrote to us.
 - 8 Q. If I understand correctly this last point that you have
 - 9 just mentioned, this is a point covered by the fourth
 - 10 paragraph of this letter?
 - 11 A. Yes.
 - 12 Q. "The Government's strategy in order to develop the
 - 13 substances of particular interest ..."
 - 14 Including, therefore, iron ore:
 - 15 "... is henceforth to have partners ...", et cetera.
 - 16 A. Yes, that's right.
 - 17 Q. The government strategy, who set up that strategy?
 - 18 A. Well, it was the government.
 - 19 To give some background, we had reached a point
 - there where the mining registry was completely
 - 21 saturated, so we had to clear that up. And what the
 - 22 government decided at the time was that the discussions
 - 23 engaged already with the Chinese should get to the point
 - 24 where a certain number of permits would be identified,
 - and as consideration for these permits there would be

- 15:02 1 some finance of some \$23 billion that were made to be
 - 2 available to the Government of Guinea.
 - 3 And if you notice the consistency of that position,
 - 4 I never signed a single exploration permit during the
 - 5 whole of my term of office: 15 months in the government
 - 6 and never granted a single exploration permit, because
 - 7 I totally kept to that strategy.
 - 8 Q. Concerning this strategy now that you are describing in
 - 9 this paragraph, was it your opinion at the time that
 - 10 BSGR met that strategy or that its requests complied
 - with the government strategy?
 - 12 A. Well, the point was also to tell BSGR that under the
 - conditions at the time, their offer did not comply with
 - 14 all the consideration that had to be given in order to
 - be able to have any claims on those blocks.
 - 16 Q. Well, then if you had not been removed from your
 - 17 position as Minister of Mines and Geology at the time,
 - in your opinion would you afterwards have granted
 - 19 an exploration permit to BSGR on Blocks 1 and 2 in
 - 20 Simandou?
 - 21 A. Under present conditions -- well, there are two things.
 - 22 First of all, the first limitation, taking into account
 - 23 what BSGR had asked for in the past. Remember, here
 - 24 we're talking about financing that has got to be made
 - 25 available to the government and on which there can be no

- 15:04 1 ambiguity. So I would say at that level the problem of
 - 2 granting the permit went beyond the competence of the
 - 3 minister. This is a decision that had to be taken by
 - 4 the Council of Ministers, with the support of all
 - 5 members of the government.
 - 6 Q. Well, then one last question on the nature of that
 - 7 decision. If you look at the second paragraph of this
 - 8 letter, where you recall your first answer and you say
 - 9 that, "I had told you about some principles pertaining
 - 10 to the granting of the exploration permits, retrocession
 - and renewals that cannot be possible without submitting
 - 12 the results of previous exploration permits", well, had
 - 13 you seen a presentation of previous exploration permits
 - 14 by BSGR?
 - 15 A. No. No. I think that at that particular juncture there
 - 16 were some conditions with which it was not possible to
 - 17 start playing around. There was a consideration to be
 - given in exchange for the permit, making available to
 - 19 the government substantial amounts in order to cover
 - 20 a big programme of the building infrastructures the
 - 21 country needed, and therefore I cannot see how BSGR,
 - 22 under the conditions of that strategy, could accede to
 - those blocks.
 - 24 MR OSTROVE: Thank you.
 - 25 Thank you very much, Madam President. I have no

- 15:06 1 further questions.
 - 2 THE PRESIDENT: Do my colleagues have questions?
 - 3 (3.06 pm)
 - 4 Questions from THE TRIBUNAL
 - 5 PROFESSOR MAYER: I have a question on something that has
 - just been said, and which I can still see on the screen,
 - 7 a question by Mr Ostrove:
 - 8 "If you had not been repealed from your position as
 - 9 Minister of Mines, would you, in your opinion, have
 - 10 thereafter granted an exploration permit to BSGR on
 - 11 Blocks 1 and 2 of Simandou?"
 - 12 In your answer you said that first of all you had to
 - 13 make sure of the question of financing. But then you
 - 14 added:
 - 15 "I would say that at that level, the problem of the
 - 16 granting of the permit went beyond the mere competence
 - 17 of the ministers. These are decisions that had to be
 - taken by the Council of Ministers and with the approval
 - of the whole of the government."
 - 20 Well, according to what I've understood, when it's
 - 21 a matter of an exploration permit, you don't really have
 - 22 to go all the way up. So would you mind clarifying
 - 23 this?
 - 24 A. Well, yes, there are different categories of permit, you
 - 25 see. There are permits on which you have absolutely no

15:07 1 information, and which do not have any strategic value,
2 and which a minister can very easily grant by himself.
3 But there are other permits, like the Simandou permits,
4 for instance, on which there was enough information, and
5 in respect of which the reserves announced actually were
6 in the hundreds of millions of tonnes of iron.

1.3

And since we were dealing here with a strategy, an overall strategy -- because the infrastructure that was going to be financed because of the consideration given over these permits, these were infrastructures going right across all the economic sectors of the country. So one ministry alone couldn't take that decision. The decision had to be taken by the full Council of Ministers, as had been done in fact for the permits that were part and parcel of the global package signed with China in 2008.

So we have here a world-class permit that we're talking about, and the estimate of its value was feasible on a preliminary basis. But on the other hand you have permits that are not that substantial, and in respect of which a minister alone could take a decision, without needing to report to the authorities above him.

PROFESSOR MAYER: If you know the answer, can you answer

whether the exploration permits for North Simandou and
South Simandou were permits of that very high level,

- 15:09 1 which entailed a decision by the full Council of
 - 2 Ministers, or not?
 - 3 A. Are you talking about the permits granted to BSGR?
 - 4 PROFESSOR MAYER: Yes, those pertaining to the surroundings
 - of Simandou North and South.
 - 6 A. Well, those at the extremes of Simandou granted to BSGR
 - 7 didn't have a study level at the time which justified
 - 8 their being included among the strategic permits.
 - 9 PROFESSOR MAYER: Thank you.
 - 10 THE PRESIDENT: Your witness statement, sir, paragraph 43:
 - 11 you speak of your integrity, you speak of your
 - 12 reputation as an incorruptible person, which may have
 - been an obstacle to some.
 - 14 Can you further develop this subject? Were you
 - 15 subjected to bribery attempts which made you think that
 - 16 you were incorruptible? Why are you writing this?
 - 17 A. Well, I am describing there the overall perception
 - 18 people have of my person. And in that position
 - obviously you are exposed, not just to pressure of all
 - 20 kinds, whether they be political or social, which
 - 21 actually may affect even your family, and some people
 - 22 also attempted to bring financial pressure to bear upon
 - 23 you.
 - 24 THE PRESIDENT: And you were the subject of financial
 - 25 pressure during your term of office as Minister of

- 15:11 1 Mines?
 - 2 A. Not openly. Not openly.
 - 3 THE PRESIDENT: Well, that kind of thing is rarely open.
 - 4 A. Well, you see, madam, their strategy also depends on the
 - 5 person that they're dealing with. But they cannot say
 - 6 directly. They can cover it up with all kinds of
 - 7 things, but you will be able to see nonetheless that
 - 8 they tell you, "Oh, we'll be very grateful to you if you
 - 9 do this, that or the other"; words don't really carry
 - 10 that much meaning, but you will immediately understand
 - 11 that they are trying to influence you in order to take
 - 12 an undue decision, either materially or financially.
 - 13 THE PRESIDENT: If I understand correctly the meaning of
 - 14 your written statement, that was the reason for the fact
 - that you were removed from the position of Minister of
 - 16 Mines?
 - 17 A. Yes, because if you place yourself in the context of our
 - arrival when we got to office and the work we had to do,
 - 19 I was the only Minister of Mines who, during 15 months,
 - 20 never signed a single contract, never granted a single
 - 21 permit, and the country withdrew permits in order to
 - rebuild the state's portfolio.
 - 23 So you must understand that trying to get a permit
 - goes together with a certain amount of privileges: tax
 - 25 privileges, the importing of capital goods and other

15:13 forms of privilege, even in the purchase of the fuel that you have to use for your exploration work; you buy all of that duty free. And when you're deprived of that -- because you realise that most of the forms of privilege and the advantages you were granted, instead of being oriented towards the development of the permits so that you can discharge your twelve obligations, at times you haven't even got back to the perimeter of your permit and you've made fantastic inputs.

1.3

So all of this was removed. This was a tremendously painful work because some of these people were completely brushed aside.

And secondly, those who claim to have access to titles unduly will henceforth be refused. And so you have a lot of people behind them. Not to mention the fact that you were in a system there where -- let's put it this way: the perimeter of the mining activities is permeable to all, because you have parents, you have friends here and there, everybody is interested, and it's up to you to take the decision either to satisfy them -- and in that case obviously you would jump from one introduction to the next, because you won't be able to satisfy everyone -- or then you try and get the law applied. And in that case obviously your life there is not going to be very lengthy.

- 15:15 1 THE PRESIDENT: Well, the decision to remove you was
 - 2 a decision by the President? Was it taken by
 - 3 a presidential decree?
 - 4 A. It was a decision through a presidential decree. That
 - 5 could be different from a presidential decision.
 - 6 THE PRESIDENT: Who makes the proposal then?
 - 7 A. I think that in my case it was the Prime Minister.
 - 8 THE PRESIDENT: And his proposal is then approved by the
 - 9 President; is that the normal procedure?
 - 10 A. That's what the decree says in any case.
 - 11 THE PRESIDENT: Could you now turn to tab 6, which is
 - 12 document C-169. This is a note by Mr Sakho. He was, if
 - I understand correctly, a legal advisor to the Ministry
 - of Mines at the time.
 - 15 The note is dated 15th February 2008; that's to say
 - 16 the time you were minister. Is that not the case?
 - 17 You are aware of the existence of this note?
 - 18 A. Not particularly.
 - 19 THE PRESIDENT: Not particularly?
 - 20 A. No, not particularly.
 - 21 THE PRESIDENT: You saw it at the time?
 - 22 A. Generally, the documents that I see, I usually jot
 - 23 something down on them.
 - 24 THE PRESIDENT: So what is it: you are discovering it now,
 - or since then you have come across it?

- 15:17 1 A. No, I just saw it now. I would have to read it to see
 - whether anything comes back to my memory.
 - 3 THE PRESIDENT: Please go right ahead and read it if you
 - 4 want to. Take your time. (Pause)
 - 5 My questions are not questions on specific points,
 - 6 but just on the document in general. You will have
 - 7 noticed that it deals with irregularities in the Simfer
 - 8 agreement on the Simandou deposits.
 - 9 Mr Sakho was indeed the legal advisor to the
 - 10 ministry?
 - 11 A. Yes.
 - 12 THE PRESIDENT: He therefore was under your authority?
 - 13 A. Yes.
 - 14 THE PRESIDENT: You asked him to examine the irregularities
 - in the Simfer agreement?
 - 16 A. I don't remember. But an advisor does the work that you
 - 17 ask him to undertake, but on his own initiative he can
 - look into a dossier and then send you the results of his
 - 19 work.
 - 20 THE PRESIDENT: Are there any other people that give
 - 21 instructions to the legal advisor of the ministry, apart
 - 22 from you?
 - 23 A. Not another person, but on his own initiative he can
 - look into a matter falling within his remit. On this
 - dossier, for instance, you could have the legal advisor

- 15:19 1 writing to you, but also you have the results of
 - 2 investigations made by the inter-ministerial committee,
 - 3 where you have representatives of various key
 - 4 ministries, the trade unions and civil society.
 - 5 THE PRESIDENT: If you would be kind enough to go to the
 - 6 next tab, or rather the one after that, tab 8. This is
 - 7 Exhibit R-228. The Secretary General of the Presidency
 - 8 writes here a letter to Simfer.
 - 9 Are you aware of the existence of this letter?
 - 10 A. I think I have seen it before yes.
 - 11 THE PRESIDENT: This was during your period as Minister of
 - 12 Mines, 22nd May 2008?
 - 13 A. Yes.
 - 14 THE PRESIDENT: A letter mentioning the subject of mining
 - 15 concessions. Does it seem normal to you that the
 - 16 Secretary General of the Presidency should be writing
 - directly to a mining company?
 - 18 A. No, but you see, in an environment where there were so
 - many things that were not normal, the fact that
 - 20 a representative of a company should appeal directly to
 - 21 the head of state -- we were not in a normal
 - 22 environment.
 - 23 THE PRESIDENT: We were not in a normal environment. But
 - 24 this is not a representative of a company; this is the
 - 25 Secretary General of the President who is writing to

- 15:22 1 a mining company. I would have thought that that was
 - 2 part of your powers; in other words, relations with
 - 3 mining companies and the concessions, that was something
 - 4 that was within your remit.
 - 5 A. Well, madam, you know, the way the Presidency of the
 - 6 Republic works is rather peculiar and we're not in
 - 7 an ideal position to pass judgment on that. The
 - 8 Secretary General can take advantage of practically any
 - 9 dossier, the Secretary General of the Presidency can use
 - 10 practically any dossier he wants to, because if you can
 - 11 call him thus, he's sort of the President's right arm.
 - 12 THE PRESIDENT: Yes, but then if he takes a dossier that
 - 13 belongs to one ministry in particular, would he tell the
 - 14 minister in question? Would he tell the minister in
 - 15 question before he starts handling one of his dossiers,
 - 16 before he takes it upon himself to take an action which
 - is not innocuous? Because here he is actually
 - 18 withdrawing the concession decree.
 - 19 A. Well, theoretically he can't. There are some documents
 - 20 that he receives because, as I was telling you, at the
 - 21 time there was some work that was being done at the
 - 22 level of the committee, and those documents that were
 - addressed to the government obviously would eventually
 - 24 fall on the lap of the Secretary General of the
 - 25 Presidency. He had the rank of a minister.

- 15:23 1 THE PRESIDENT: I just want to make sure that I've asked all
 - 2 my questions. I believe that is the case, so I have no
 - 3 further questions.
 - 4 Parties, any questions, following the questions from
 - 5 the Tribunal?
 - 6 MR DAELE: Yes, I would have a few short questions.
 - 7 (3.24 pm)
 - 8 Further cross-examination by MR DAELE
 - 9 Q. Under tab 16 (C-198) you have the document where we see
 - 10 your reaction to BSGR's request to obtain the permits
 - for Blocks 1, 2 and 3. Before the break you had said
 - 12 that that request was illegal.
 - 13 Do you find here in this letter an explanation to
 - 14 BSGR of the fact that what they were doing was illegal?
 - 15 Is that word "illegal" being used?
 - 16 THE PRESIDENT: Mr Daele, if I understand correctly, you are
 - 17 engaging in re-cross; these are not questions resulting
 - from the Tribunal's questions. There's no problem if
 - 19 you want to engage in re-cross, but we simply have to
 - 20 know what you're doing, and then I could authorise you
 - 21 to ask any re-cross questions. They don't particularly
 - 22 flow from the questions that we had put, and authorising
 - you to do re-cross is not to be taken for granted, sir.
 - It doesn't matter that you can't ask the questions, but
 - 25 you have to ask for the apposite authorisation.

- 15:25 1 MR DAELE: Well, I'm thinking about it. In that case I have
 - 2 no further questions.
 - 3 THE PRESIDENT: (In English) I didn't mean to cut you off
 - 4 necessarily. I meant to say that if we do
 - 5 a re-cross-examination, it is with the leave of the
 - 6 Tribunal. I thought you were asking questions that
 - 7 resulted from the questions of the Tribunal members, but
 - 8 then you went into a different topic. So that is why
 - 9 I raise the question.
 - 10 MR DAELE: (In English) So I was raising this question
 - 11 because I discussed this with the witness this morning,
 - 12 then there were a number of questions. The witness was
 - 13 taken by counsel for Guinea to this document, and that's
 - 14 why I --
 - 15 THE PRESIDENT: Yes, fine. So this is
 - 16 a re-cross-examination. You can ask the questions.
 - 17 MR DAELE: Thank you, madam.
 - 18 (Interpreted) You said before the break that the
 - 19 fact that this request had been put forward was illegal.
 - 20 This is what you said. Do I find here in this letter
 - 21 that position? Are you explaining in this letter to
 - BSGR, "What you're doing is illegal"?
 - 23 A. No. No. We're not talking about the same moment in
 - 24 time. Before the validity of titles was confirmed --
 - and here this is 19th August, when the state has taken

- 15:27 1 into account the validity of those titles on the blocks.
 - Q. But at what time do we move from a situation of
 - 3 illegality to a situation of legality?
 - 4 A. Illegality proceeds from the situation in which you put
 - 5 forward a request on a permit that already has a holder
 - and which hasn't got back to the state's portfolio.
 - 7 Q. So at the time of the presidential decree of 28th July
 - 8 there was no longer any holder on Blocks 1 to 4. And
 - 9 therefore at that time the request from BSGR would have
 - 10 become legal, it would be legal, because there was no
 - 11 longer any prohibition against such a request, since the
 - 12 presidential decree had already been issued, the
 - 28th July decree, and it is that decree that removed the
 - 14 illegality?
 - 15 A. Well, in fact we move from illegality to availability.
 - 16 It is as of the time the decree is actually issued, then
 - the availability of one or another block has not yet
 - been asserted by the state. There is work that has to
 - 19 be done by the mining industry in order to be able to
 - 20 say what goes back to the company that was the former
 - 21 holder. Because the decree says that. The decree
 - 22 doesn't say that everything was withdrawn. And what
 - 23 we're being asked is to implement that decree. And
 - therefore, as I was saying, there is a committee that
 - 25 had to do its work for this, and it was definitely the

- 15:29 1 work of that committee that led to the retrocession [by]
 - 2 Rio Tinto of Blocks 3 and 4 and the withdrawal of
 - 3 Blocks 1 and 2.
 - 4 Therefore, when it is illegal, it's not feasible,
 - 5 and when it's not available, it's not feasible. You
 - 6 can't pronounce on it because it was not available at
 - 7 the time. Definitely they have been withdrawn from
 - 8 Rio Tinto, but none of the blocks was yet available
 - 9 because the state hadn't yet pronounced on which
 - 10 particular blocks would be going back to Rio Tinto and
 - 11 which blocks would be freed.
 - 12 Q. Well, then the request of 5th August -- this is tab 15
 - 13 (C-98) -- after the presidential decree, this particular
 - 14 request is not illegal?
 - 15 A. In my opinion, this application is dealing with
 - 16 a perimeter which is not available.
 - 17 Q. But that was not my question to you. I wanted to ask
 - 18 whether, in itself, this application is illegal.
 - 19 A. In my opinion, yes, yes. Because you see at that level,
 - 20 you can put forward the application you want to, but the
 - 21 administration can't give you an answer because the
 - 22 administration knows that none of those blocks was
 - 23 really available.
 - 24 Q. However, in your letter, your answer, [tab] 16 (C-198),
 - 25 you're not saying to BSGR that their application was

- 15:31 1 illegal. I already asked the question, and you said no.
 - 2 You said it was normal because at the time --
 - 3 A. Well, yes, this is just what I repeated right now. When
 - 4 it's illegal, it's something that we already told them.
 - 5 But we find ourselves now in a situation, in a phase
 - 6 where the rights had been already withdrawn; however,
 - 7 the permits were not available for anybody. So we
 - 8 couldn't take any decisions at all concerning the
 - 9 permits at that point.
 - 10 Q. Tab 11 (C-78). This is your letter dated 10th July.
 - 11 This is prior to the presidential decree.
 - 12 Are you accusing BSGR in this letter of undertaking
 - illegal action?
 - 14 A. I didn't use the term "illegal" in the letter, but
 - I said that it wasn't feasible.
 - 16 Q. However, there is a difference between being feasible
 - 17 and being legal. Unfeasible and illegal is not quite
 - 18 the same thing.
 - 19 A. Well, I don't see where you draw that difference from.
 - When it is legal, it is feasible.
 - 21 Q. Oh, for you it's the same thing, unfeasible and illegal
 - is the same thing?
 - 23 A. Well, they both have the same effect.
 - 24 MR DAELE: I have no further questions. Thank you very
 - 25 much.

- 15:33 1 THE PRESIDENT: Does the Respondent have any further
 - 2 questions?
 - 3 MR OSTROVE: If you would please give me a moment.
 - 4 (Confers) We have no further questions.
 - 5 THE PRESIDENT: Very well.
 - 6 Thank you. This is the end of your testimony,
 - 7 Mr Minister, and thank you for your explanations.
 - 8 MINISTER KANTÉ: Thank you, Madam President. (Pause)
 - 9 (3.34 pm)
 - 10 THE PRESIDENT: My apologies, sir, you may leave. I wasn't
 - 11 particularly clear.
 - 12 The Tribunal now has to deliberate on the matter of
 - 13 the FBI affidavit. Claimants were to give us additional
 - information on the grounds for the objection to
 - 15 transparency. I don't know if this is something that
 - 16 you wanted to handle now or later. Again, this has to
 - do with the Freeh report.
 - 18 (In English) Maybe the first thing would be good for
 - 19 the Tribunal first to retire to consider this issue of
 - 20 the FBI declaration.
 - 21 MR DAELE: (In English) So you want me first to deal with
 - the Freeh report?
 - 23 THE PRESIDENT: If you can do it, then the Tribunal can
 - consider everything together. But if you're not ready,
 - 25 then we can do it otherwise.

- 15:35 1 MR DAELE: I can do both.
 - 2 THE PRESIDENT: Fine.
 - 3 MR DAELE: In relation to the Freeh report, we set out what
 - 4 we had to say in the email I think yesterday, and we
 - 5 just defer to the wisdom of the Tribunal to take the
 - 6 decisions it deems appropriate.
 - 7 THE PRESIDENT: (Interpreted) Does Respondent want to add
 - 8 anything before the Tribunal deliberates on these two
 - 9 matters? Because now we have everything that we
 - 10 require.
 - 11 MR OSTROVE: Yes, we looked back at Article 7 of the Rules
 - 12 on Transparency and we don't believe that here is
 - any motion being made, so we don't quite understand why
 - 14 the Freeh report should be considered as being
 - 15 confidential in this case.
 - 16 THE PRESIDENT: Thank you. The Tribunal needs some time.
 - 17 It's hard for us to say exactly how long it might take,
 - 18 but the Secretary will come and get you when we are
 - 19 ready. Thank you.
 - 20 (3.37 pm)
 - 21 (A short break)
 - 22 (4.14 pm)
 - 23 THE PRESIDENT: (In English) Do we understand that
 - 24 Mr Tinkiano is available for examination this afternoon?
 - 25 MR OSTROVE: Yes, he's ready and he's here.

- 16:15 1 THE PRESIDENT: Are you prepared?
 - 2 MR DAELE: We're prepared, extremely well prepared! (Pause)
 - 3 THE PRESIDENT: Before we call him in, just the procedural
 - 4 points that are pending.
 - 5 On the FBI declaration, we have reviewed the
 - 6 correspondence between counsel and it seems difficult
 - 7 for us to assess the weight and relevance of the issues
 - 8 that are being discussed without seeing the declaration
 - 9 itself. So the Tribunal orders its production into the
 - 10 record, and the Tribunal invites both parties to make
 - any comments they wish on this declaration orally
 - tomorrow at the time of the mini-openings.
 - We should also give it an exhibit number: that will
 - 14 be R -- I don't know what, but you will tell us.
 - 15 MR OSTROVE: Pending confirmation, it should be R-586.
 - 16 THE PRESIDENT: I think that R-586 has already been given
 - 17 out.
 - 18 MR OSTROVE: We had a previous document that was R-585. We
 - 19 will look into it, we'll check.
 - 20 THE PRESIDENT: Yes indeed, thank you. You will tell us
 - tomorrow morning.

[PROTECTED]

5

6 has used a translation in the examination today of the 7 LCIA transcript of Mr Kanté's examination by the LCIA 8 tribunal. For the record, it would be good if that is 9 being filed and given an exhibit number as well. I mean, we have the original in English, but we don't 10 have the translation. 11 MR DAELE: We have not been able to verify, let's say, the 12 quality of the translation. We don't know whether it 13 was --14 15 THE PRESIDENT: Yes. It can be filed, and you would still 16 have an opportunity. Yes, let's put this on the record, 17 that you have not verified the accuracy of the translation and that you may wish at some point to make 18 comments or make your own suggestions of the 19 20 translation. 21 MR DAELE: Thank you. THE PRESIDENT: Good. (Interpreted) Is there anything else? 22 23 MR OSTROVE: First of all, for the translation of the LCIA 24 transcript, of course we rely on what was said here 25 because the translation was already reviewed by the

Then there is a further minor point. The Respondent

- 16:19 1 parties in that arbitration. So the translation into
 - 2 French was provided just for the facility of the
 - 3 witness, because the French was not the original.
 - 4 THE PRESIDENT: In that case we could also not produce it,
 - 5 and we have the English version and I think that that
 - 6 suffices.
 - 7 MR OSTROVE: Fine.
 - 8 MR DAELE: That's fine with me as well.
 - 9 THE PRESIDENT: (In English) That simplifies matters.

[PROTECTED]

- 19 MR DAELE: But I would
- 20 think that one week from the end of the hearing seems
- 21 reasonable to me. So my proposal would be, I don't
- 22 know, either Friday of next week or the following
- 23 Monday, like one week or something, the time for us to
- go back to London and ... somewhere around 10th June.
- I don't have a calendar.

- 16:21 1 MR OSTROVE: The following Monday would be June 12th.
 - 2 THE PRESIDENT: Good. And depending on the answer, we'll
 - 3 have to take it from there. Good.
 - 4 (Interpreted) Can we call Mr Tinkiano in then.
 - 5 MR OSTROVE: Madam President, while we're waiting, would you
 - 6 like a paper version of the FBI statement? Would you
 - 7 like it in paper form, hard copy?
 - 8 THE PRESIDENT: Yes, thank you. (Pause)
 - 9 (4.22 pm)
 - 10 MR LANSANA TINKIANO (called)
 - 11 (Evidence interpreted)
 - 12 THE PRESIDENT: (Interpreted) Good afternoon, sir.
 - 13 MR TINKIANO: Good afternoon.
 - 14 THE PRESIDENT: Thank you for coming to testify.
 - 15 For the transcript, can you confirm that you are
 - 16 Lansana Tinkiano?
 - 17 A. Yes, I am Lansana Tinkiano.
 - 18 THE PRESIDENT: You are currently [a clerk] at the Fourth
 - 19 Chamber of the Appeals Court of Conakry?
 - 20 A. Yes.
 - 21 THE PRESIDENT: At the time under examination here, you were
 - 22 chief clerk at the Tribunal de lère Instance of
 - 23 Conakry [II]?
 - 24 A. That is correct.
 - 25 THE PRESIDENT: You presented a written statement dated

- 16:24 1 9th January 2015; is this correct?
 - 2 A. Yes, it is.
 - 3 THE PRESIDENT: Do you have your statement with you?
 - 4 A. Yes, I do.
 - 5 THE PRESIDENT: You are heard as a witness. As a witness,
 - 6 you are under the obligation to tell the truth. I would
 - 7 like to ask you to confirm that you intend to do this by
 - 8 reading the witness declaration.
 - 9 MR TINKIANO: I solemnly declare upon my honour and
 - 10 conscience that I shall speak the truth, the whole
 - 11 truth, and nothing but the truth.
 - 12 THE PRESIDENT: Thank you.
 - 13 You will first answer the questions of the counsel
 - 14 for the Republic of Guinea, and then you will answer the
 - 15 questions posed by counsel for BSGR.
 - 16 MR OSTROVE: Thank you to Mr Tinkiano. Thank you,
 - 17 Madam President. We have no questions on his witness
 - 18 statement.
 - 19 THE PRESIDENT: Thank you.
 - 20 Mr Daele.
 - 21 MR DAELE: [Thank you, Madam President.]
 - 22 (4.25 pm)
 - 23 Cross-examination by MR DAELE
 - 24 Q. (Interpreted) Good afternoon, Mr Tinkiano. My name is
 - 25 Karel Daele, I am a lawyer representing BSGR.

- 16:25 1 I shall endeavour to conduct this examination in
 - 2 French, to facilitate matters. I apologise for any
 - 3 mistakes I might make; this is not my native language.
 - I will endeavour to use the "vous" form of address. If
 - 5 at some point I lapse into using the "tu" form, the
 - 6 informal form, I apologise; it's not for lack of
 - 7 respect, it's sometimes in the heat of action.
 - 8 I will be going through your statement, and when
 - 9 I ask you a question, I will refer you to the numbered
 - 10 paragraph of the statement that you have before you.
 - I would like to ask a first question about
 - 12 paragraph 3. You say that you were chief clerk. How
 - many chief clerks were there, or are there, in the
 - 14 Tribunal de lère Instance of Conakry II? Were you the
 - 15 only chief clerk?
 - 16 A. Yes, I was the only chief clerk from 2004 to 2010.
 - 17 Q. So there's only one head clerk?
 - 18 A. That's correct, and it's still true today.
 - 19 Q. Are there other clerks?
 - 20 A. Yes, there are other clerks.
 - 21 Q. But those are ordinary clerks?
 - 22 A. Yes, for the civil section, for the criminal section.
 - 23 Q. And the fact that you were chief clerk, it means that
 - the other clerks were under your authority? Was there
 - 25 a hierarchy?

- 16:27 1 A. I'm sorry?
 - 2 Q. The fact that you were chief clerk, this means that
 - 3 there was a hierarchy and they were under your
 - 4 authority? So the other clerks, did they come under
 - 5 your authority?
 - 6 A. Yes.
 - 7 Q. So you really were the chief clerk, as in the head of
 - 8 that service?
 - 9 A. Yes.
 - 10 Q. What are the responsibilities of a chief clerk?
 - 11 A. There are multiple responsibilities. The chief clerk
 - 12 coordinates the work of the clerks' office. He signs
 - the transcripts. He is a trainer at the centre.
 - 14 Q. What are the duties of a regular clerk?
 - 15 A. The other clerks help the judges in holding the
 - hearings.
 - 17 Q. You were not present during hearings?
 - 18 A. No.
 - 19 Q. Did you have your own office?
 - 20 A. Yes, I had my office.
 - 21 Q. A person wanting to have a document legalised had to
 - 22 come to your office?
 - 23 A. Yes.
 - Q. Was it necessary to make an appointment?
 - 25 A. To do what?

- 16:29 1 Q. To make an appointment.
 - 2 A. What, to come and see me? No, it's not necessary.
 - 3 Q. So people could just come to the court?
 - 4 A. No, I did not need to give an appointment.
 - 5 Q. Are there a lot of people coming to your office?
 - 6 A. Yes.
 - 7 Q. So you have a stamp that's marked "Chief Clerk"?
 - 8 A. Yes.
 - 9 Q. Nobody else has a similar stamp?
 - 10 A. No. No, nobody else has one, unless it's been made
 - 11 somewhere else. Somebody else would have it simply
 - 12 because I would be unable to perform my function, in
 - 13 which case somebody could be appointed to replace me and
 - 14 they would have it.
 - 15 Q. So if you're not there, one of the other clerks would
 - 16 become sort of a substitute or an interim chief clerk?
 - 17 A. Yes, if in the case of illness or death or simply
 - inability to be present.
 - 19 Q. You are also in charge of tax stamps?
 - 20 A. No, that's handled by the Treasury, the Office of the
 - 21 Treasury.
 - 22 Q. So if there is a fiscal stamp on a document, it doesn't
 - 23 mean that you necessarily put it on the document?
 - 24 A. Could you repeat your question?
 - 25 Q. If a document has a tax stamp on it, it doesn't mean

- 16:31 1 that you're the one who would have put it on the
 - 2 document?
 - 3 A. I don't have these stamps in my office. Everybody goes
 - 4 to the Public Treasury, pays for the stamp, and affixes
 - 5 it on the document themselves.
 - 6 Q. So you first have to pay for the stamp?
 - 7 A. Yes, that's correct.
 - 8 Q. In paragraph 4 you say that you were often asked to
 - 9 legalise the signatures.
 - 10 A. Yes.
 - 11 Q. When you use this term "regularly", could you say how
 - many times you do it: every week or every day?
 - 13 A. On a weekly basis, on a daily basis; it's hard to say.
 - 14 Q. But would it be once or ten times a day?
 - 15 A. It could be three times, it could be two times, it could
 - 16 be four times.
 - 17 Q. But something along those lines: somewhere between one
 - and ten? Sometimes it may be not at all.
 - 19 A. Well, it never went to ten.
 - 20 Q. Could you briefly explain the process used to legalise
 - 21 signatures? The process to legalise signatures, how
 - does this work?
 - 23 A. In my time, a person would come with a document,
 - 24 a signed document, it's a document between parties, and
 - 25 we simply legalise the signature.

- 16:33 1 Q. Do they sign in front of you?
 - 2 A. No, the document is already signed.
 - 3 Q. So the document is signed before they appear before you?
 - 4 A. Yes.
 - 5 Q. So when a person comes, does that person have to give
 - 6 proof of identity?
 - 7 A. Yes, when a person comes, and at times, yes, I do check
 - 8 identity. Sometimes I may ask whether they are the
 - 9 persons who have signed the document, and they confirm
 - 10 that this is a document that they drew up, in which case
 - I can legalise the document.
 - 12 Q. So you say that sometimes you check and sometimes [you]
 - don't check; in other words, sometimes you ask that,
 - "You are Mr X or Madam Z?", and if the person says that
 - 15 that's who they are, you take them at their word and
 - then you legalise the document?
 - 17 A. I think I've answered regarding legalisation.
 - 18 Q. No, not yet. How do you establish the identity of the
 - 19 people who come before you, if tomorrow I come before
 - you and I say, "I am Donald Trump"?
 - 21 A. Tomorrow, if you come to see me tomorrow to establish
 - 22 your identity, I ask for your ID, I ask for a copy of
 - your ID papers.
 - 24 Q. So without an ID card, it is not possible to have
 - 25 a document legalised?

- 16:35 1 A. Without an ID card -- in this particular case I think it
 - 2 was the authority that was there.
 - 3 Q. I'm actually not talking about our specific case. I am
 - 4 just talking about the general process to legalise
 - 5 a document. You said that people must present ID?
 - 6 A. Yes, that is what I said.
 - 7 Q. Is it possible to come before you with somebody else's
 - 8 ID papers? Let us say that I want to legalise
 - 9 a document that was signed by my mother, and my mother
 - 10 gives me her ID and she sends me to court. Must the
 - person must be physically present?
 - 12 A. You're asking if the person is physically present? Yes.
 - 13 Q. In paragraph 5 you refer to two documents that are
 - Annexes A and B. These are annexes that are appended to
 - 15 your statement.
 - 16 If I look at the document under tab 1 (R-25), it was
 - 17 annexed to your statement, and if we turn the page, we
 - see at the bottom to the right your stamp. This is the
 - 19 official stamp. I see a signature, but the signature is
 - 20 hard to read.
 - 21 How do you sign? What am I looking at here? What
 - is your signature: do you sign your first name and
 - 23 surname, just your surname? On this document.
 - 24 A. My signature is "Lansana".
 - 25 Q. So the first letter would be the letter L, and at the

- 16:38 1 very end a flourish?
 - 2 A. Yes.
 - 3 Q. So that's how you sign the documents?
 - 4 A. Yes
 - 5 Q. You say in paragraph 6 that you remember when a woman
 - 6 came in the company of some military personnel, a white
 - 7 person, and they came to see you in order to have their
 - 8 signatures legalised. You did not recognise the lady,
 - 9 but there were red berets in company. And you said
 - 10 that:
 - 11 "Having read the documents, I asked whether those
 - were their signatures."
 - 13 You do not say here whether you asked them to
 - 14 produce their ID papers. Do you recall if you asked for
 - 15 ID?
 - 16 A. If you continue to read, you will see that in
 - paragraph 8 ...
 - 18 Q. Yes, please go ahead. I read what you have in
 - 19 paragraph 8, but that is not quite what my question was.
 - 20 My question was: did you identify the people who came to
 - 21 see you?
 - 22 A. I answered earlier: it was the authority who came and --
 - 23 THE PRESIDENT: Mr Tinkiano, this is the question: did you
 - ask the persons who came to see you to produce their ID
 - papers, ID cards, passports?

- 16:41 1 A. No.
 - 2 THE PRESIDENT: How then were you able to establish the fact
 - 3 that the signatures on the documents were indeed their
 - 4 signatures?
 - 5 A. Based on their answers.
 - 6 THE PRESIDENT: Because they assured you that was so, based
 - 7 on what they said?
 - 8 A. They asked me -- I asked them: had they signed it? They
 - 9 said yes. And it's on that basis that it was done.
 - 10 MR DAELE: It is alleged that the document was signed by
 - 11 Mamadie Touré. You were not shown ID papers for
 - 12 Mamadie Touré. Could it could have been another person
 - who claimed to be Mamadie Touré?
 - 14 A. I don't know. When I asked who was this woman, I was
 - 15 told that she was Mamadie Touré, a lady under the
 - 16 protection of the former President of the Republic
 - 17 Conté.
 - 18 Q. But whom did you ask? Because in paragraph 8 you say:
 - 19 "... I asked people who were there at the
 - 20 tribunal..."
 - 21 A. Yes, I had people around me, I had the other clerks who
 - 22 knew the people over there.
 - 23 Q. But you didn't know the people over there. How was it
 - that they knew who she was and [you didn't]?
 - 25 A. I didn't know them because I'm not in the inner circle.

- 16:43 1 Q. But the other people in the tribunal, they were part of
 - 2 the close entourage?
 - 3 A. When a person comes, and their red berets with them --
 - 4 and it was the first time that this happened -- I mean,
 - 5 why should I raise questions?
 - 6 Q. Did you know that the President had four wives?
 - 7 A. Really? That's what you're saying.
 - 8 Q. This is what is being claimed in these proceedings.
 - 9 Let us suppose the President had several wives. Do
 - 10 they all have presidential protection, presidential
 - 11 security detail?
 - 12 A. Yes.
 - 13 Q. So the fact that there is, you know, a presidential
 - 14 security detail, theoretically it would be possible for
 - it to be one of the other wives?
 - 16 A. But this is what I was told. This is what I was told.
 - 17 They are his wives: there was Aria, there was another,
 - and Mamadie. I didn't know that there were four.
 - 19 Q. Let's talk now about Mr Lev Ran. Did you check his ID,
 - 20 Mr Lev Ran's ID?
 - 21 A. Where is he?
 - 22 Q. On page 2 at the bottom you see there is:
 - 23 "... Pentler Holdings ... represented by ...
 - 24 LEV RAN".
 - 25 A. He's not the one who signed.

- 16:45 1 Q. The question was: did you check Mr Lev Ran's identity?
 - 2 A. Well, I told you that since madam was accompanied by the
 - 3 elite guard, I didn't want to check that situation.
 - 4 Q. So it is possible that it might not have been
 - 5 Mr Lev Ran, but it could have been somebody else who
 - 6 claimed to be Lev Ran?
 - 7 A. I did say, "accompanied by a white man". I didn't say
 - 8 whether this man was called this or that.
 - 9 Q. Where do we find Mamadie Touré's signature on this
 - 10 document?
 - 11 A. We don't.
 - 12 Q. Can you repeat?
 - 13 PROFESSOR VAN DEN BERG: What document are you talking
 - 14 about?
 - 15 MR DAELE: The same document.
 - My question was: did you show us Mamadie Touré's
 - 17 signature?
 - 18 A. I can't see it.
 - 19 Q. But you say that the people came and introduced each
 - other with a signature, you checked.
 - 21 So what Mamadie Touré signature did you legalise, if
 - there's no signature on that document?
 - 23 A. There is not one.
 - 24 Q. So why did you put the stamp, the legalisation stamp, if
 - 25 there's a signature that's missing?

- 16:48 1 A. I think that Pentler Holdings here signed.
 - 2 Q. I'm sorry, I didn't understand.
 - 3 A. Well, you see Pentler Holdings.
 - 4 Q. Yes, Pentler is one party. As you can see, it's
 - 5 a contract between two parties: one party is Pentler,
 - 6 and we see the signature; the other party is
 - 7 Mamadie Touré.
 - 8 We can turn to the next document. I think on this
 - 9 document you've answered my questions.
 - 10 Let me turn to the document under tab 2. This is
 - 11 R-26. On the first page we see there's a letter of
 - 12 undertaking between Mamadie Touré and again
 - 13 Pentler Holdings as a company.
 - 14 MR OSTROVE: I don't think it is "a letter of undertaking
 - 15 between". Can you read it properly?
 - 16 MR DAELE: Yes. It's a letter of undertakings towards
 - 17 Mrs Mamadie Touré from Pentler Holding.
 - I have the same question for you: where do I find
 - 19 Mamadie Touré's signature?
 - 20 A. It's the same document, isn't it? It bears the same
 - 21 title.
 - 22 Q. No, it's not the same document. These are two different
 - 23 documents. So I repeat my question.
 - 24 A. There is none. There is none.
 - 25 Q. For this document you checked the identity of

- 16:50 1 Mr Lev Ran?
 - 2 A. Of who?
 - 3 Q. Mr Lev Ran. The white man, Mr Lev Ran.
 - 4 A. You mean Pentler or Lev Ran?
 - 5 Q. Yes, the gentleman -- well, there is a signature next to
 - 6 Pentler. It says:
 - 7 "... Pentler Holdings ... represented by Mr ...
 - 8 LEV RAN".
 - 9 My question is: did you check the identity of
 - 10 Mr Lev Ran for this document?
 - 11 A. No.
 - 12 Q. Under tab 3 of the same folder (R-27) -- you say in your
 - paragraph 9 that:
 - "[You were] also shown an MOU between [BSGR], signed
 - 15 by its CEO, and ... Matinda & Co ... signed by Mamadie
 - 16 Touré, dated 20 June 2007 and legalised on 20 July ..."
 - 17 Did you, upon the opportunity of the legalisation of
 - 18 this document, check the identity of Mamadie Touré, the
 - woman who signed?
 - 20 A. I told you that this document was presented to me, and
 - 21 I say later that I don't recollect whether this was in
 - 22 my file or not.
 - 23 Q. But isn't it a bit strange that just one year earlier
 - you remember having seen this woman? Because she was
 - 25 surrounded by red berets.

- 16:53 1 A. Yes.
 - Q. So one year later it would seem that she came back to
 - 3 you, and you have no recollection of that?
 - 4 A. No, I have no recollection of that.
 - 5 Q. And who appeared to sign in the name of BSG Resources
 - 6 Guinea?
 - 7 A. It's the general manager. That's what it says.
 - 8 Q. Who was the general manager? Whose signature is this?
 - 9 A. I don't know. I told you I have no recollection of
 - 10 this.
 - 11 Q. So it could be anybody who claims that they are general
 - 12 manager of BSGR? It could be anybody; there's not even
 - 13 a name here.
 - 14 A. Why do you think that way?
 - 15 Q. Well, to check that it is actually somebody's signature,
 - 16 you need to know who that person is, surely? Name,
 - 17 surname or ID card.
 - 18 MR OSTROVE: I think he's already said, Madam President,
 - 19 that he doesn't remember this document. So I don't know
 - 20 how he can be asked questions on checking that he did,
 - 21 when he has no recollection of the occurrence.
 - 22 THE PRESIDENT: If I understand you rightly, Mr Tinkiano,
 - 23 you have no recollection of the document itself. Is
 - that right? Is that what you told us? You don't
 - 25 remember either that people would have come to see you

- 16:55 1 later, so after the first visit?
 - 2 A. No, I don't have any recollection, madam.
 - 3 THE PRESIDENT: You don't remember that this woman who you
 - 4 were told was Mamadie Touré would have come back to you?
 - 5 A. No, I have no recollection.
 - 6 THE PRESIDENT: Had she come back, do you think you would
 - 7 remember?
 - 8 A. I don't understand you.
 - 9 THE PRESIDENT: If she'd come back approximately one year
 - 10 after the first visit, would that be something you would
 - 11 recollect?
 - 12 A. No, I don't remember. Given my advanced age, no, I'm
 - not -- I'm no longer able to think about this.
 - 14 THE PRESIDENT: I'm not talking about your age. There are
 - 15 some events that one remembers, others that one forgets.
 - 16 The visit from Mamadie Touré, is that something that one
 - 17 recollects or is it something one forgets?
 - 18 A. No.
 - 19 THE PRESIDENT: Mamadie Touré's visit, is that something you
 - 20 remember?
 - 21 A. Mamadie Touré's visit?
 - 22 THE PRESIDENT: Yes.
 - 23 A. In my office?
 - 24 THE PRESIDENT: [Yes.]
 - 25 A. Yes.

- 16:56 1 THE PRESIDENT: Had she come back a second time, would you
 - 2 remember that?
 - 3 A. Well, the first document, I remember when it occurred.
 - 4 But here, no.
 - 5 THE PRESIDENT: That is understood, and I understand also
 - that you don't remember the second episode. What
 - 7 intrigues me somewhat is that had she truly come back,
 - 8 isn't that something that would have struck you, that
 - 9 would have stayed in your recollection?
 - 10 A. Yes.
 - 11 PROFESSOR VAN DEN BERG: Mr Chief Clerk, the first two
 - 12 documents, we have the letter of undertakings, R-25, and
 - 13 then the second one, letter of undertakings, R-26, and
 - 14 as indicated, this is something signed by Pentler
 - 15 Holdings in the name of Lev Ran and towards Mrs Touré.
 - 16 Legally speaking, is it necessary for Mrs Touré to
 - 17 be present for the legalisation of these two documents?
 - 18 A. I was, you know, quite happy in my office when I receive
 - 19 some lady, and then after that I was told that she was
 - 20 Mamadie Touré. That's all I can say.
 - 21 PROFESSOR VAN DEN BERG: My question is: is it necessary
 - 22 that she should have been present in order to legalise
 - 23 these two letters of undertakings? I'm not talking
 - about the third document, the MOU.
 - 25 A. For the MOU?

- 16:59 1 PROFESSOR VAN DEN BERG: No, I'm asking you about the first
 - 2 two documents, the first letter of undertakings. Do you
 - 3 have it in front of you?
 - 4 A. The first letter?
 - 5 PROFESSOR VAN DEN BERG: Yes. If you go to the bottom of
 - 6 the second page, it says "Pentler Holdings", and there's
 - 7 a signature, right?
 - 8 A. Yes. I don't understand your question.
 - 9 PROFESSOR VAN DEN BERG: Do you see the document which is
 - 10 R-0025?
 - 11 A. Yes.
 - 12 PROFESSOR VAN DEN BERG: Please turn the page.
 - 13 A. Yes.
 - 14 PROFESSOR VAN DEN BERG: At the bottom of page 2, in black,
 - 15 you have a stamp?
 - 16 A. Yes.
 - 17 PROFESSOR VAN DEN BERG: The stamp of Pentler Holdings, and
 - beside this you have a signature, right?
 - 19 A. Yes.
 - 20 PROFESSOR VAN DEN BERG: Do you see another signature on
 - 21 this document apart from yours, next to your stamp?
 - 22 A. Apart from Pentler Holdings' signature?
 - 23 PROFESSOR VAN DEN BERG: Can we put the document up on the
 - screen? (Pause) This is the same document, okay?
 - 25 A. Yes.

- 17:00 1 PROFESSOR VAN DEN BERG: So you see a signature here next to
 - 2 "Pentler Holdings", right?
 - 3 A. Yes, it's the only signature.
 - 4 PROFESSOR VAN DEN BERG: And you say here, this is your
 - 5 signature (indicating)?
 - 6 A. Yes.
 - 7 PROFESSOR VAN DEN BERG: Is there a third signature on this
 - 8 document?
 - 9 A. I've already answered: there isn't.
 - 10 PROFESSOR VAN DEN BERG: There's no third signature.
 - 11 Can we go back to page 1. You see here this is the
 - 12 company that undertakes, Pentler Holdings, towards
 - 13 Mamadie Touré.
 - 14 A. Yes.
 - 15 PROFESSOR VAN DEN BERG: And since it's an undertaking,
 - 16 there's only one signature and that's Pentler Holdings?
 - 17 A. [Yes.]
 - 18 PROFESSOR VAN DEN BERG: Legally speaking, would it be
 - 19 necessary for Mrs Touré to be present in person for the
 - legalisation of the signature of this document?
 - 21 A. I said in my witness statement that the lady was present
 - 22 with a white man. I've answered the question.
 - 23 PROFESSOR VAN DEN BERG: Okay. Can you turn to page 2
 - 24 again.
 - 25 A. Yes, on page 2 there's no signature.

- 17:02 1 PROFESSOR VAN DEN BERG: You put your stamp down here, "Seen
 - 2 for the material legalisation of the signatures". What
 - 3 signatures did you legalise?
 - 4 A. Well, then it will be Pentler's signature.
 - 5 PROFESSOR VAN DEN BERG: So the necessary presence with
 - ID cards is that of the person who signed here?
 - 7 A. Yes.
 - 8 PROFESSOR VAN DEN BERG: Nobody else?
 - 9 A. On the document there's no other signature.
 - 10 PROFESSOR VAN DEN BERG: If this is Mr Lev Ran's
 - 11 signature -- you say he is the white man who came --
 - 12 have you checked his passport?
 - 13 A. No.
 - 14 PROFESSOR VAN DEN BERG: No, you didn't?
 - 15 A. She was accompanied by somebody who was protected by the
 - 16 elite guards of the Guinean Army, so I did not wish to
 - 17 check.
 - 18 PROFESSOR VAN DEN BERG: Oh, now I understand what happened.
 - 19 Madame Mamadie Touré came with the red berets, so at
 - least somebody who claimed to be Madame Touré,
 - 21 introduced herself as such, and said, "This white man is
 - 22 Mr X", and you just believed her?
 - 23 THE PRESIDENT: I do not want to confuse the witness.
 - I understand you -- and please correct me if I'm
 - 25 mistaken -- that Mamadie Touré did not introduce

- 17:04 1 herself; it's only afterwards that people told you that
 - this was Mamadie Touré. Is that right?
 - 3 A. Yes, that's what I say in my witness statement.
 - 4 THE PRESIDENT: Then you also said that you had not tried to
 - 5 identify the white man who was there; is that right?
 - 6 A. Yes.
 - 7 THE PRESIDENT: So it could have been Mr Lev Ran or somebody
 - 8 else?
 - 9 A. Yes.
 - 10 PROFESSOR VAN DEN BERG: I'm confused, because a few minutes
 - ago you said that you were quite happy in your office,
 - 12 minding your own business, and all of a sudden a group
 - 13 entered, and so your peace and quiet was interrupted.
 - 14 A. [Yes.]
 - 15 PROFESSOR VAN DEN BERG: So this lady with the red berets
 - 16 came into your room?
 - 17 A. I confirm that it's a lady who entered with the red
 - 18 berets.
 - 19 PROFESSOR VAN DEN BERG: But it's a group of people who
 - 20 came?
 - 21 A. Yes, it was a group of people. There was a total panic
 - 22 on that day at the court.
 - 23 PROFESSOR VAN DEN BERG: And they said, "This is the white
 - 24 man, you need to put your stamp down", that's it? And
 - this was on 21st July 2006.

- 17:05 1 PROFESSOR MAYER: Just one question. The white man, did the
 - white man say, "This is my signature"?
 - 3 A. The white man said that this was his signature.
 - 4 PROFESSOR MAYER: And therefore you legalised it?
 - 5 A. [Yes.]
 - 6 PROFESSOR VAN DEN BERG: Did he present his ID card?
 - 7 A. I told you that I didn't try to check. Since this was
 - 8 the elite guards that were around them, I didn't check.
 - 9 PROFESSOR VAN DEN BERG: Can we now put up on the screen
 - 10 R-27, which is the MOU. This was one year later. It's
 - 11 20th July 2007.
 - 12 THE PRESIDENT: June. 20th June. You said July.
 - 13 A. The legalisation is 20th July.
 - 14 THE PRESIDENT: Yes, this is right. It was signed on
 - 15 20th June, but the legalisation was on 20th July.
 - 16 A. (Inaudible, no microphone).
 - 17 PROFESSOR VAN DEN BERG: So it's one year later. You don't
 - remember that there's a new invasion in your office?
 - 19 A. (Inaudible, no microphone).
 - 20 THE INTERPRETER: The witness doesn't have a mic. We can't
 - 21 hear the witness.
 - 22 A. (Inaudible, no microphone) ... after I signed. But
 - 23 I don't remember signing this. I don't remember signing
 - 24 this.
 - 25 PROFESSOR VAN DEN BERG: Thank you.

- 17:08 1 THE PRESIDENT: You may resume, Mr Daele.
 - 2 MR DAELE: On this document, now that you can see it in
 - 3 front of you, it seems that there is something which is
 - 4 striking. You see the name Mamadie Touré?
 - 5 A. Yes.
 - 6 Q. Don't you agree that it appears under the stamp?
 - 7 A. Above. It's above the stamp.
 - 8 Q. Yes. You see here in the corner, I'm telling you the
 - 9 name, your stamp, you see the words here are below the
 - 10 name Mamadie Touré, and I agree that it's difficult to
 - see, but the letters here are interrupted by the "M".
 - 12 So my impression is that the stamp appeared first, and
 - 13 then the name Mamadie Touré was added afterwards.
 - 14 A. Adding the name Mamadie Touré, these are not the same
 - 15 letters, because you see on the computer it's the same
 - letters.
 - 17 Q. But don't you have the feeling that here the chief clerk
 - is behind the signing of Mamadie Touré?
 - 19 A. I think it's a problem with the page. The page wasn't
 - 20 like this. We had to put the stamp.
 - 21 Q. But if you put your stamp, the text of the chief clerk
 - 22 must be over the "M", not behind it. I don't know if
 - you understand what I'm saying.
 - 24 A. But this is the circumference of the chief clerk stamp.
 - 25 PROFESSOR VAN DEN BERG: If you can help, can we put up

- 17:11 1 C-356?
 - 2 THE PRESIDENT: This is an annex that was placed on the
 - 3 record last night, it was produced electronically last
 - 4 night. (Pause)
 - 5 PROFESSOR VAN DEN BERG: There's a stamp at the beginning of
 - 6 the document that says "Forged". But here we don't see
 - 7 your own stamp, Mr Registrar, so you never legalised
 - 8 this document. But the word "Madame", appears there,
 - 9 "Mme". I wonder whether this will help you to ascertain
 - 10 what happened. Because here we have "Mme", "Madame".
 - Normally you would have to see "Mme" first, and then the
 - 12 stamp on it, and not the other way round. No?
 - 13 MR DAELE: Do you have a question?
 - 14 PROFESSOR VAN DEN BERG: I am clarifying the question.
 - 15 If you are going to stamp on that, what would the
 - 16 result be if you now stamp? If you compare the
 - 17 documents you have in front of you, R-27, Mr Daele asked
 - 18 you a question about that stamp and the name "Mme
 - 19 Mamadie TOURE". He asked you whether "Mme" and the name
 - 20 "Mamadie TOURE" had been stamped after you affixed your
 - 21 stamp.
 - 22 A. Well, the page is not wide enough. So that is the
 - document, that is the page, and so all the stamps have
 - 24 to be placed together.
 - 25 PROFESSOR VAN DEN BERG: Thank you.

- 17:14 1 MR DAELE: Could you then go back to tab 4, which was added
 - 2 at the last minute, which is a statement by Mamadie
 - 3 Touré. R-35, paragraph 17. At the end of that
 - 4 paragraph we can read:
 - 5 "Marc Struik signed for BSGR Guinea. A lawyer took
 - 6 this in order to legalise it and then gave me a copy.
 - 7 An authentic copy of the MOU is appended as Annex 3."
 - 8 Then when you turn the page, keep on turning until
 - 9 you get to Annex 3, you see the same document which
 - 10 appears under tab 3 of our bundle. So that document, it
 - is therefore Mamadie Touré who is saying that "A lawyer
 - 12 took it in order to legalise it and then he gave me
 - 13 a copy".
 - 14 A. Well, that goes back to what I'm saying. I can't
 - 15 remember the signature.
 - 16 Q. Yes, but when I read this, this seems to be suggesting
 - 17 that she wasn't actually there, she didn't go to the
 - tribunal, she didn't go to the court, it was somebody
 - 19 else who went.
 - 20 A. Yes, but I wasn't talking about this one. This one,
 - I don't know whether she was there.
 - 22 Q. No, but we're talking about the same document.
 - 23 A. Yes, this is what we're talking about. But she wasn't
 - in front of me. As I cannot remember.
 - 25 THE PRESIDENT: Mr Tinkiano, would it be possible, sir, for

- 17:17 1 a lawyer to have seen you with a signed copy, without
 - 2 the persons who had signed, and he would have asked you
 - 3 to legalise the document?
 - 4 A. Madam, I said -- and I repeat -- that I cannot remember.
 - 5 But now this lady says that it was a lawyer, that she
 - 6 sent a lawyer; well, then that's it.
 - 7 THE PRESIDENT: But is that possible, for a lawyer to come
 - 8 and see you with a signed document, asking you to
 - 9 legalise it?
 - 10 A. Yes. Yes, that does happen. Even today I was phoned to
 - 11 legalise a document in Conakry, and I said, "I'm in
 - 12 France". So that could happen, that can happen. Yes,
 - it can happen.
 - 14 MR DAELE: And therefore without the people in question
 - 15 being present physically? The people whose signatures
 - 16 you legalise don't have to be physically present in
 - 17 front of you?
 - 18 A. Well, no. If a lawyer comes and he knows the person who
 - 19 sent them -- you, you can send a document to a judge and
 - you, for instance, could represent somebody else.
 - 21 Q. Yes, but when that happens, do you check and see whether
 - the lawyer has been duly empowered by that person? Do
 - you ask to see a proxy?
 - 24 A. If we could see the name of the lawyer who came up with
 - 25 this document, that would solve the matter.

- 17:19 1 Q. But that would be a lawyer who's been given a power of
 - 2 attorney by one person or by the two parties?
 - 3 A. Well, the lady said that it was her lawyer.
 - 4 Q. But that applies to her signature, I would say. But
 - 5 then how do you verify the signature of the other party?
 - 6 Did the other party also send a lawyer, or one lawyer
 - 7 suffices for both parties?
 - 8 A. Well, it could be the other way round: the two people
 - 9 who come with their lawyers, or the two people who would
 - say, "We would agree that one lawyer comes to get the
 - 11 document legalised, one single lawyer".
 - 12 Q. Well, if the way that happens is by using a lawyer, does
 - 13 the lawyer have to show the identity cards or any
 - documents proving the identity of the parties?
 - 15 A. I think that the lawyer is known by the Bar Association.
 - 16 A lawyer has to be registered with the Bar Association.
 - 17 Q. So it's a question of trust, if you know the lawyer?
 - 18 A. No, I don't know the lawyer. She's the one who
 - 19 mentioned the lawyer.
 - 20 Q. Yes, but at the time the lawyer shows up at your office
 - and says, "I am representing Mr X and Mr Z", at that
 - 22 time does the lawyer have to show documents identifying
 - 23 X and Z?
 - 24 A. Well, if the lawyer represents a party to a dossier, you
 - don't need to ask whether he's so-and-so, if he is the

- 17:21 1 representative. Why do you think he comes? It's like
 - 2 you: you're representing a party here.
 - 3 Q. Yes, but I have had to show that I represent this party.
 - 4 A. Ah. But the lawyer here didn't say whether he was
 - 5 representing the party.
 - 6 Q. I'm asking you. I'm asking you.
 - 7 A. But it is the lady who knows. The lady says she sent
 - 8 a lawyer. So she is the one who knows. I want to say
 - 9 here I can't remember this signature. If the lady says
 - 10 that she sent a lawyer to me, to see me, to sign, then
 - 11 that's it.
 - 12 Q. Paragraph 9 of the same document. The same document,
 - 13 behind tab 4 (R-35), paragraph 9. Mamadie Touré speaks
 - of another document, a memorandum of understanding.
 - There also, in paragraph 9 towards the end, she says:
 - 16 "After my signature of the 2006 MOU, a lawyer came
 - 17 later to give me a copy; this copy bore the signature of
 - Pentler Holdings as well as a stamp by the registrar."
 - 19 So here again we have the same system: apparently it
 - 20 was a lawyer who takes it upon himself to make sure that
 - 21 the document is legalised.
 - 22 A. Well, at that level I cannot answer. But there may have
 - 23 been some deeds signed by the person replacing me, and
 - I don't know whether you're talking about acts that
 - 25 I signed or acts that he signed.

- 17:23 1 Q. Well, can we turn to that document, which is behind
 - 2 tab 2.
 - 3 A. Tab 2 in my statement?
 - 4 Q. No, no, no, Mamadie Touré's statement. It's a document
 - 5 under Annex 2. The title is "Protocole d'Accord".
 - 6 A. It says what here? Well, I cannot tell you anything
 - 7 about this act because I didn't sign it.
 - 8 Q. Yes, but that was my question. When you turn the page,
 - 9 on page 2 I see the stamp, it says "Chief Registrar",
 - 10 but I see a different signature, not yours.
 - 11 A. Well, yes, I cannot answer.
 - 12 Q. Do you recognise this signature?
 - 13 A. Yes. Yes, this is the person who replaced me.
 - 14 Q. Who? He didn't give his name.
 - 15 A. That is Daikoba(?).
 - 16 Q. Who is Daikoba?
 - 17 A. He is another registrar. When I'm absent, he comes to
 - 18 replace me, and during my absence he was probably the
 - one who signed. He is the one who signed during my
 - absence.
 - 21 Q. Do you see the signature of Mamadie Touré on this
 - document?
 - 23 A. No. Oh, yes, there is a signature. There is the
 - 24 signature of Mamadie Touré, yes. It is there.
 - 25 Q. Do you remember whether your colleague ever talked to

- 17:25 1 you about the fact of a lady who came with the
 - 2 presidential guard?
 - 3 A. No, it's I who told him.
 - 4 MR DAELE: I believe I have no further questions for the
 - 5 time being.
 - 6 THE PRESIDENT: Mr Ostrove, any questions in re-direct?
 - 7 MR OSTROVE: Yes. [Thank you], Madam President.
 - 8 (5.26 pm)
 - 9 Re-direct examination by MR OSTROVE
 - 10 Q. Would it be possible to allow me to show something on
 - 11 the screen? I just want to make sure that I have the
 - right document, if you bear with me. (Pause)
 - 13 Mr Tinkiano, when you stamp a document -- and this
 - 14 is R-27 on the screen, which is the third annex to your
 - 15 statement; it's a document that we were looking at
 - 16 earlier -- who indicates the date on the stamp, on the
 - 17 register stamp?
 - 18 A. It is the registrar himself.
 - 19 Q. And is it your writing there, "20/07/07"?
 - 20 A. Yes.
 - 21 MR OSTROVE: Thank you. I have no other questions.
 - 22 THE PRESIDENT: Do my co-arbitrators have any questions to
 - 23 put to Mr Tinkiano? I want to make sure that all the
 - 24 questions have been put.
 - 25 Yes, I have no further questions for you

- 17:28 1 Mr Tinkiano. That means therefore, sir, that we have
 - 2 come to the end of your testimony.

 - 4 questions either, sir?
 - 5 MR DAELE: No, for once I have no further questions.
 - 6 THE PRESIDENT: Very well. That means therefore,
 - 7 Mr Tinkiano, that this brings us to the end of your
 - 8 testimony, and thank you very much for your
 - 9 explanations. You may now leave.
 - 10 MR TINKIANO: Thank you, madam. Thank you to the
 - 11 arbitrators and lawyers on both sides. Thank you. My
 - 12 signature shows that I am in Paris! Thank you very
 - 13 much. (Pause)
 - 14 THE PRESIDENT: This brings us to the end of this day.
 - 15 Tomorrow morning we shall begin, if I'm not mistaken --
 - 16 who is going to be the first witness tomorrow morning?
 - 17 MR OSTROVE: We have Mr Bouna Sylla tomorrow morning.
 - 18 THE PRESIDENT: Mr Bouna Sylla first, and then Mr Nabé
 - 19 afterwards?
 - 20 MR OSTROVE: We're going to have to check with Mr Nabé to
 - 21 see whether he is going to be in a position to come and
 - 22 testify after the night flight, and I don't know whether
 - 23 he is going to be fasting, so we're going to have to
 - look into that. But we hope that he will be able to
 - 25 come and testify tomorrow, so we can keep Thursday for

```
17:30 1 Mr Avidan.
              THE PRESIDENT: That would be perfect. No further comments?
          3
                      So we'll be resuming tomorrow morning at 9.30, is
                  that the idea? That is far pleasanter.
              MR DAELE: I would prefer 8.30! No, not at all.
          5
              THE PRESIDENT: 9.30?
          6
          7
              MR DAELE: That suits us fine.
          8
              THE PRESIDENT: Thank you.
          9
              (5.31 pm)
         10
               (The hearing adjourned until 9.30 am the following day)
         11
         12
         13
         14
         15
         16
         17
